

STATE NORMAL BOARD

SITTING AT CAPITOL

Continuance of the Schools At Drain and Monmouth Up For Discussion—Board Will Assume No Liability In Employing Teachers

The committee on teachers met at 1:30 and recommended a number of appointments and changes. A. L. Briggs was transferred from the position of teacher of mathematics at Ashland to the presidency of Drain. L. R. Traver was elected principal of the training school at Monmouth. Several minor positions were filled. Besides the State Board of Education, the regents present were Wm. B. Ayer, of Portland; C. E. Spencer, Carus; H. J. Maier, The Dalles; E. E. Bragg, La Grande; Stephen Jewell, Grants Pass, and E. Hofer, Salem.

Assume No Liability.

Resolution offered by Regent Hofer was adopted after discussion: "That this board, in employing members of the faculty of the Monmouth and Drain normal schools, which have no available appropriation, but are having their actual expenses defrayed out of donations, tuition fees, and other fees, and public school funds turned over by the districts in which they are located, assume no liability, and do not authorize any indebtedness for such teachers' salaries, beyond the funds made available, and that the committee on teachers be instructed to embody such a clause in the teachers' contracts.

Faculties were chosen for each of the above schools on these terms. President Resler was called upon for a statement of Monmouth. At former meeting he estimated \$19,400 for full faculty of 15 teachers. He said the friends of the school had pledged \$6000 and they would receive from the Monmouth school district from \$3000 to \$3500 a year. They had levied five mills addition taxes, that added \$2000 or between \$4000 to \$5000 taxes. Upon his showing President Resler made it appear that the Monmouth school was well provided with funds. August 22, he had deposited \$3000 with the board, and today he offered another check for \$1600. This left \$1400 to be raised to run the school a year.

In other years the school had received from tuition \$4000 to \$4700. Counting \$4750 from district and \$4000 from tuition he said the friends of the school had raised \$6000 in the way of donation. He said to do his best, he had cut his estimate from \$19,400 to \$14,000. Monmouth levied a seven mill tax, part of which went to support the state normal school.

The favorable showing made by Monmouth was commented on by several of the regents and President Resler was complimented. The action of the executive committee of August 22, and the tenders made by President Resler, offering \$6000 as a donation, were accepted and approved on motion of Regent Hofer.

Drain Finances.
Mr. A. L. Briggs of the Drain normal school stated that \$4200 had been donated by the citizens, and \$1800 was submitted in check. This with other resources enabled the school to run for the first six months. The critic teachers, and training school, and all expenses were paid by the district. Tuition would run up to \$1000. Total year expense \$7500. The district paid \$5000, the citizens paid \$4200, this

provided for the whole year. Governor Chamberlain stated that the people of Drain had met the demands of the resolution adopted by the board.

Supt. Ackerman moved acceptance of tender made by Mr. Briggs on behalf of Drain normal school, and that the school be operated. Carried.

The committee on teachers reported a full faculty for Drain and Monmouth and same was duly elected.

On motion of Regent Bragg the report of the committee on teachers raising salary of President Mulkey of Ashland normal school, from \$1800 to \$2000 was received and placed on file.

Regent Ayer moved that the expense of administration of the various normal schools be apportioned in proportion to available revenues from appropriations and income. Carried.

Regent Ayer moved that action of executive committee in authorizing improvements at Ashland and Weston be confirmed. Adopted.

Resignation of Miss Kaiser of Ashland school was accepted. She has taken a position at increased salary at Seattle. Committee on teachers was directed to supply vacancy.

Supt. Ackerman reported that the state agricultural college had carried on a summer training school for teachers in agriculture.

Regent Ayer moved that executive committee be authorized to furnish light and water for president's cottage at Ashland. Carried.

Roosevelt, White-Winged Angel of Peace.

Buffalo, N. Y., Sept. 14.—A glowing tribute to President Roosevelt, in which he was referred to as "a white-winged angel of peace," was a feature of the address of Dr. Isaac Franklin Russell, of New York university, before the American Social Science association today. Dr. Russell's subject was "American Reverence for Law." He spoke in part as follows:

"Behold our President! Aye, there's a man. What eulogy can overstate his virtues. The very defects in his temperament, which his critics are quick to point out, his intense passion for truth and justice and liberty and right, his resplendent patriotism and glowing enthusiasm for humanity—it is these that made him hope two years ago when all the world despaired, and enabled him to bring out of the darkness and gloom that had fallen on Manchuria the glorious light of the peace of Portsmouth.

"I love to see his picture everywhere. They say he shot a man at Santiago; and when the orders came to him to take a hill somewhere in the whole wide field of San Juan, he did not stop to ask its name, but promptly drew his sword, rallied the rough riders at his command, stormed the citadel and swept the Spaniards from the heights. How heroic was the gallant colonel then, a belted knight indeed with spurs and epaulettes, in army boots and blazing uniform. But I love to think of Roosevelt, not as a demon of war in Cuba, but as the white-winged angel of peace in Manchuria, walking in quiet majesty between two angry armies of a million each, lined up for murderous duel, disputing to the death the empire of the east. Roosevelt in the history of Russia and in the history of Japan is the most majestic figure of the century, and heralds to a war-weary race the dawning of the morning."

In direct relation to his subjects, "American Reverence for Law," Dr. Russell said:

"Not all socialistic legislation is futile. Many existing laws which create and sustain monopolies should be repealed; franchises, belonging to the people and entrusted to faithless and defaulting corporations should be returned to the people; vast estates should contribute to the public purse through progressive taxation of income and inheritance eminent domain should be invoked when necessary to extinguish

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate woman and child. Not a drop of alcohol enters into their composition. A much better agent is used than for medicine and preserving the medicinal principles used in them. This agent is a natural, vegetable, and perfectly safe. It is a chronic catarrh of the nasal passages, it is well while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membrane. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

monopolies; the life and heart of the people should be protected through the police power, and great municipalities that are large consumers might well own their plants for ice, water, gas and electricity. "We are Americans like the Puritans of New England and the prophets of old Israel; we feel that we are the chosen people of God—chosen to teach liberty and self-government to all the nations of the earth. Chief among the rights of man recognized by Americans is justice. Without justice we live under a degrading despotism. If we only grant justice to the ignorant and the laboring poor, we can reduce our charitable contributions one-half. Without justice, alms are a mockery. Bread and fuel doled out by the millionaire in ostentatious philanthropy from his store accumulated by defrauding others, only embitter the life of the poor. Decisions of courts cannot be bought and sold as merchandise, a contract not to sue is void, and a man's right to justice is priceless and inalienable.

"There are battles of liberty yet to be fought, and fought, let us hope, not on fields of blood but in the arena of reason. The constitutional safeguards of liberty must be re-established and strengthened, the accumulations of honest industry must be sheltered from rapacious raids, and the humble hoard of the poor and the funds held in holy trust for the widow and orphans must be released from the grip of the grafter. America has in the past taught mankind many truths about the moral order of the world, her future task may be to teach, by precept and example, great lessons in the arts of peace, in the diffusion of sound learning and in the establishment of justice among men.

"A Roman triumph was the most gorgeous or barbaric pageants. The victorious general and his conquering cohorts lingered outside the city gate till a grateful senate voted the supreme honor of a triumph to the man who led the legions. And then, for a mad, delirious hour, the world was his—the world of glory, adulation and applause, as the martial procession, with spoils and royal captives, swept up the Capitoline hill amid the intoxicating shouts of the people. Today the Coliseum crumbles, the forum is deserted and the Caesars are handfuls of dust; but the Roman praetor has mounted the tribunals of all civilized nations and sits by the side of chief justices in Washington, Paris and Westminster."

Sixth Anniversary of McKinley's Death.
Canton, O., Sept. 14.—Today, the sixth anniversary of the death of President McKinley, was observed with every evidence of sorrow in his home city. Wreaths of flowers were sent by President Roosevelt, members of the cabinet and personal friends of the late chief executive, and scores of Canton people who had known and loved the martyr president and his wife placed floral tributes on the tomb.

A meeting of the trustees of the McKinley National Memorial Association will be held here Monday, when final details for the dedication of the monument on September 30 will be arranged. It has been decided that the bodies of the late presi-

dent and Mrs. McKinley shall repose permanently in specially made bronze caskets, which have been made by a local concern at a considerable cost. The new caskets are of an enduring character, and are among the finest ever constructed.

It is now assured that the handsome McKinley monument erected here will be dedicated on the date set, September 30, and that President Roosevelt will deliver an address on that occasion. For a time it was thought that a postponement would be necessary, owing to the damage by fire of a portion of the marble works, but the citizens' committee now has the assurance of the contractors that the final touches will be put on the monument before the scheduled date for the dedication. A fund of \$10,000 has been raised to entertain President Roosevelt and other distinguished guests of the city during their stay in Canton.

While several McKinley monuments have already been erected or projected, including one in Buffalo, where the president was shot, while attending the Pan-American exposition, on September 6, 1901, and where he died on September 14, following, the Canton monument is the most imposing of all. It is national in its nature, the funds for its erection having been gathered in every state of the Union, and from almost every city, town and village in every state.

The McKinley National Monument Association's plan, which has been carried to a successful completion by a committee of trustees composed of some of the leading men of the nation, involved the raising of a fund of \$500,000 to pay for the Canton memorial, and an additional \$100,000 as an endowment fund, from the earnings of which the magnificent marble shaft will be kept in repair.

The mausoleum proper is constructed entirely of Milford granite—a light pink material quarried at Milford, Mass. The interior is finished in Knoxville marble and beautiful glass effects. The general aspect of the monument is far more pleasing than either the Garfield monument in Cleveland or the Grant tomb in New York. H. VanB. Magonigle, of New York, is the architect. The general contract for the erection of the monument was in the hands of a New York concern, while the granite was supplied by a Buffalo company.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, O.

Pigskin Warriors Loom in Sight.
New York, Sept. 14.—Before the cheers of the frenzied fans have ceased to resound from the diamonds, the pigskin warriors will make their appearance on eastern gridirons in the inaugural games of the football season. The opening is set for next Saturday, when four college games will be played, the most important being the clash between the Carlisle Indians and Albright college. The redskins are reported to be already in good shape for the season, and will doubtless win an easy victory.

Yale candidates will begin practice next week and the friends of the Elis believe that an unusually strong team will have been developed by the time set for the game with Harvard, November 23. Yale will meet Princeton November 16, and this is also likely to be an exciting contest. The first big game to be seen in New York will be that between Princeton and Carlisle, November 2.

Acute Rheumatism.
Deep tearing or wrenching pains, occasioned by getting wet through; worse when at rest, or on first moving the limbs and in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Oscar Oleson Gibson City, Ill., writes, Feb. 16, '02. "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me."

STONE'S HEAVE DROPS.
Greatly known remedy for heaves. Price \$1. To express offices away from Salem I pay 25 cents ex express charges.
For sale by all druggists.
Highland, Oregon, Oct. 31, 1902.—This is to certify that I gave my mare one bottle of "Stone's Heave Drops" and cured her of heaves. This was last winter and she has not been afflicted since.—G. Wallace.

DO YOU STAMMER?
Why go through life with halting tongue when positively you can cure your stammer? Expense is small. We can send you testimonials from hundreds who have cured completely. The younger the stammer, the younger or older, we can CURE all cases. No cure, no pay. Send your name or that of any friend who stammers and we will send further particulars FREE. Write DALEY SCHOOL FOR STAMMERS, SEASIDE, WASHINGTON.

Most people know that if they have been sick they need Scott's Emulsion to bring back health and strength.

But the strongest point about Scott's Emulsion is that you don't have to be sick to get results from it.

It keeps up the athlete's strength, puts fat on thin people, makes a fretful baby happy, brings color to a pale girl's cheeks, and prevents coughs, colds and consumption.

Food in concentrated form for sick and well, young and old, rich and poor.

And it contains no drugs and no alcohol.
