Without Alcohol FINDS RICH ORE.

Many Man Thinks He Has Struck It Rich.

What he believes will prove to be the richest gold discoveries ever made in Oregon, was made the other part of last week by Grant Lindley, a prominent resident of Johnson while out prospecting in the hills about 20 miles from Albany. Mr. Lindley refuses to give the exact location of his gold discovery until he has located the mine and posted notices. The site of the discovery is in the quartzville district along the Santiam river. Mr. Lindley was in Albany today and exhibited some remarkably rich specimens of gold bearing quartz.

No assay of the ore specimens has yet been made, but the appearance of the quartz which Mr. Lindley had in his possession shows that the ore is very rich. Mr. Lindley says the site of his gold discovery is one of exceeding richness both in gold and other minerals. Copper is present in considerable amounts in this section according to Mr. Lindley. Mr. Lindley is experienced in mining and says that he has never seen such rich indications of gold anywhere, as he saw on the land which he intends to file location notices on. The rumor of the gold discovery is said to have reached the ears of a number of residents of Johnson some of whom are reported to have quietly left for the hills in the hope of themselves finding good mining claims.—Albany Herald.

"Regular as the Sun"

As an expression as old as the race, no doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by J. C. Perry, druggist.

Away Down South in the Land of—Water.

Norfolk, Va., Sept. 20.—Dixie is to go dry, and thus set an example that will soon be followed by the rest of the country.

This is the dictum of the distinguished temperance exponents who are celebrating National Temperance day at the Jamestown exposition today, following the convention of the National Anti-Saloon league, which has been in session here during the week. The great exposition was well filled with the prohibition hosts when the meeting was called to order, and the milk white flag was much in evidence.

A "call of states" was the feature of the day, delegates from all sections telling of their victories over the rum demon. The greatest enthusiasm was manifested as speaker after speaker told briefly of battles fought and won in the cause of temperance. Apparently the southern states are now leading in the movement, and it was freely predicted that in the course of a few years there will be a new "solid south"—solid for the absolute prohibition of the manufacture or sale of any kind of alcoholic beverages.

On the face of it this change in southern sentiment is one of the most amazing ethical movements ever witnessed, but thoughtful adherents of the cause admit that it is not altogether due to the agitation of temperance people, but has a sound economic basis. The labor of negroes is necessary to the prosperity of the south, and it has been proven to the satisfaction of the southern people that liquor is largely responsible for the shiftlessness, laziness and crime of the black race. The race riots in Atlanta, originating in the low grogeries, did much to bring about the passage of the Georgia prohibition law, which becomes effective on January 1 next.

"Am I my brother's keeper?" has been answered with an affirmative by the white citizens of many southern states.

In other commonwealths of Dixie the temperance hosts are in the ascendant. Kentucky, once the stronghold of the liquor business is rapidly being "reformed." More than 80 per cent of Texas is said to be covered by prohibition laws. Liquor has been driven from every part of Tennessee except the big cities. Most sections of Mississippi are dry as a bone. Alabama is likely to soon join the prohibition ranks. North Carolina's next legislature will consider a prohibition law. Scores of Virginia counties and towns have voted out rum. South Carolina, after much experiment in the regulation of the sale of liquor, is said to be ripe for the prohibitionists' picking. Liquor has been driven from all but the urban districts of Missouri.

Delegates from the west and north, while not able to report so much progress, are exceedingly hopeful, and declare that within a decade the death knell of the liquor business will be sounded throughout the land.

Texas Wants to Be Reclaimed.

Dallas, Tex., Sept. 20.—A project for putting the public lands of Texas upon the same basis of those of other states is now being broached and will be brought before the coming Trans-Mississippi Commercial congress at Muskogee, I. T.

Congressman Stephens is one of the leaders in the movement and will urge it to the attention of the congress. The object of the desired legislation is to arrange for the extension of the reclamation service to this state.

When Texas was admitted to the union she had been a republic for several years and one of her compacts was that the public lands should be held by the state to be given to the veterans of the struggle with Mexico. This distribution, however, made hardly an impression on the vast public acreage of the state and now Texas desires the national government to aid in reclaiming the arid lands and submerged districts.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by J. C. Perry, druggist. 50c.

Humorists Entertain Los Angeles.

Los Angeles, Cal., Sept. 20.—What was without a doubt the greatest aggregation of funny men ever gathered on a single platform faced a considerable proportion of the population of Los Angeles in the big Temple auditorium this afternoon and cracked fresh jokes that stirred the risibilities of the audience in a way to bring down the house.

The entertainment was given by a dozen distinguished members of the American Press Humorists, in convention here this week, and was for the benefit of the Bill Nye monument fund. Among those who took part in the program were the Rev. Robert J. Burdette, Strickland W. Gillilan, S. E. Kiser, Eli Perkins, Charles Battell Loomis and Edward Vance Cook.

Lame Back.

This is an ailment for which Chamberlain's Pain Balm has proven especially valuable. In almost every instance it affords prompt and permanent relief. Mr. Luke LaGrange of Orange, Mich., says of it: "After using a plaster and other remedies for three weeks for a bad lame back, I purchased a bottle of Chamberlain's Pain Balm, and two applications effected a cure." For sale at Dr. Stone's drug store.

To Begin Inspection Trip.

Cleveland, O., Sept. 20.—Members of the inland waterways commission, of which Congressman Theodore E. Burton, candidate for the mayoralty of Cleveland against Tom Johnson, is chairman, are gathering in Cleveland to begin their tour of inspection tomorrow.

Leaving Cleveland the trip up the lakes will be made on a freighter, thence across to the headwaters of the Mississippi and down that stream to the gulf. In addition to

A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nerve known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy of known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.

the members of the commission and its staff, a score of governors and President Roosevelt will take part in the inspection of the lower Mississippi. The President will join the party in Keokuk, Ia., early next month. In the great lakes region, special attention will be paid to the needs of the Detroit and Sault Ste. Marie rivers, on which millions have already been spent.

Endorsed by the Country.

"The most popular remedy in Otsego county, and the best friend of my family," writes Wm. M. Dietz, editor and publisher of the Otsego Journal, Gilbertsville, N. Y., "is Dr. King's New Discovery. It has proved to be an infallible cure for coughs and colds, making short work of the worst of them. We always keep a bottle in the house. I believe it to be the most valuable prescription known for lung and throat diseases." Guaranteed to never disappoint the taker, by J. C. Perry's drug store. Price 50c and \$1.00. Trial bottle free.

Different.

"He took me to the opera."
"Wasn't that grand?"
"No, comic."—Cleveland Plain Dealer.

Can you afford to trifle with so serious a matter as to neglect a bad cold or cough, when for a trifling amount you can secure a bottle of "Hickory Bark Cough Remedy," that is guaranteed to cure or money refunded. Price 25c, 50c and \$1.00 per bottle. For sale by all dealers everywhere.

Not Again.

"But wouldn't you like to live your life over again?"
"Not so as you could notice it. I've got a twenty-year insurance policy coming due next week."—Judge.

Had Tetter for Thirty Years.

I have suffered with tetter for 30 years and have tried almost countless remedies with little, if any relief. Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little sometimes, but nothing to what it used to do.—D. H. Beach, Midland City, Ala. Chamberlain's Salve is for sale at Dr. Stone's drug store.

CLASSIFIED DEPARTMENT

FOR SALE.

For Sale—Three acres land, dwelling house, store building, stock of general merchandise. Best location in the valley for country store. Doing a splendid business. Address Box 221, Salem P. O. 8-24-1m
