SONG OF THE WINDS.

The winds—they come like hounds of the night,
And they will not let me be;
Whirling the leaves in their wayward flight,

The winds—those trailing dogs of the night,
Hark, hark to their whispering!
They moan of a soul that has taken flight,

GREAT INVENTOR IN TOWN

W. E. Campbell, the Automatic Gas Cut-Off Genius Is Here

V. E. Campbell, inventor of the Campbell automatic safety gas cut-off, is again in the city, and many people who are interested in mechanical contrivances, are enjoying an acquaintance with him. It is undoubtedly a fact that he has one of the most attractive inventions of the age. His contrivance seems to be simple, and yet it meets a need that has been keenly apparent ever since the use of gas as an illuminating substance has been before the public.

Mr. Campbell has made headquarters at the Willamette and at Fraser's plumbing establishment. It is suggested by some enthusiasts who have become familiar with the patent that Mr. Campbell sell some stock in his company while in Salem, and it is now understood that a limited quantity will be placed at the disposal of Salem parties.

The following testimonials speak for themselves:
San Francisco, Cal.
To whom it may concern:
We, the undersigned, have carefully examined the mechanism of Campbell's Automatic Safety Gas Burner and subjected it to severe tests and find that everything claimed for it by the patentee is as stated, and recommend the burner for its life and gas saving appliance.

W. C. HASSLER, M. D.,
Chief Sanitary Inspector,
T. J. FARRELL,
Chief Plumbing Inspector,
F. H. LAUZON, electrician for the board of public works at Tacoma, says:
"In adding my opinion to the many others expressed as to the merits of the Campbell Automatic Safety Cut-off, I wish to state that I have examined the device as applied to gas jets and gasoline stoves, and do not hesitate in giving my unqualified endorsement, as I consider this the most perfect device that has come under my observation and I venture the opinion that when these cut-offs are manufactured it will in a comparatively short time come into universal use, as the use of it will practically eliminate the dangers incurred in the use of either gas or gasoline.

M. C. Bingham, master mechanic, at 421 Skidmore streets, Portland, has this to say:
"My long experience as an active constructor of mechanical devices, close application of mechanical principles and my never ceasing effort to know how to do things, has well fitted me to judge of this device, and I must say that the Campbell Automatic Cut-off is the most perfect and complete piece of mechanism it has been my pleasure to examine.

"It is perfect in its working, absolutely automatic in its movement, durable in its construction and as sensitive in its principles of operation as seems possible for human intelligence to construct thought and matter.
"I will say in conclusion that it is my judgment that no one will make a mistake by investing in the

capital stock of Campbell's Automatic Safety Gas Burner company, for I believe it will be a wise and prudent investment."

E. Lyons, manager of the Northern Pacific Terminal company, at Portland, has this to say:

"I have examined and tested the automatic safety gas burner and find it to be far beyond what it was represented. It certainly looks good to me."

H. Beckwith, general agent of the Wells Fargo express, at Portland, says:

"I have thoroughly examined the Automatic Safety Gas Burner and am satisfied it is all it is claimed, therefore I do not hesitate to subscribe for stock.

This invention is now on exhibition at the plumbing shop of A. L. Fraser.

A Certain Cure for Croup—Used for Ten Years without a Failure.

Mr. W. C. Bott, a Star City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children have all been subject to croup and he has used this remedy for the past ten years, and though they much feared the croup, his wife and he always felt safe upon retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequalled for croup and whooping cough. For sale at Dr. Stone's drug store.

Birds.
I love the birds. I love the most
Of all earth's creatures, far and wide;
I love them on a piece of toast,
A large, cold bottle on the side.
