AMERICANS ARRESTED

(Continued from page one.)

Secretary Root, personally, to secure the immediate release of Mr. and Mrs. William Walling and Miss Rose Strunsky, who are imprisoned in St. Petersburg for activity with the Finnish progressive party. They were arrested at the Hotel De France last night, and it is understood are now under guard by gendarmes. The matter will be immediately investigated in the most rigid fashion by Secretary Root, and a demand for their immediate release from custody will probably be made within the next 24 hours, if the demand has not already been forwarded through the proper diplomatic circles. The policy of this country in relation to its citizens arrested for political offenses of this sort is well-defined. The imprisonment of Americans for political offenses, when not involved in armed schemes of rebellion, are in great disfavor in America, and public opinion will probably result in great pressure being brought upon Root to insist on their release. William English Walling is a well-known sociological student, and was an aggressive fighter in Illinois against child labor, the improvement of conditions in tenement houses and uplifting of sweatshop employes. Mrs. Walling was formerly Miss Anna Strunsky, author of several works. She is from San Francisco, a graduate of Stanford University of the class of 1903. Her sister, graduated from the same institution in 1906. Their father is a well-known Russian of San Francisco, and is a doctor. Both young ladies prepared at college for work among the poor, and because of their nationality, became interested in the oppressed of Russia. They joined the free Russia party in the United States and left San Francisco in January, 1906, for Sourich, where they expected to assist in spreading the propaganda of freedom. There Miss Strunsky met Walling, and later married him in London. Mrs. Walling is 26 years old, and Rose 21, both very beautiful girls of the brunette type, with the highest social standing in the Bay cities.

Among the favorite numbers rendered by the band was "Nearer My God to Thee," the symphonic poem, "Les Preludes," by Liszt, and a burlesque arrangement, "He Walked Right in and Turned Around and Walked Right Out Again." The latter number, although built on the theme of the popular composition, was very difficult, and, as a comedy selection, brought down the house.

Signor DeCaprio, Portland's able band leader, directed the band in rendering his "Rose Festival March," which was composed by him in honor of the rose show in Portland. The number was given a hearty encore, and after the "Signor" had graciously responded a short intermission was given in the
