THE LANE OF THE LILIES.

Help! Help! all the world is crying.
Help for the hearts that are sobbing and sighing.
Help! Help! for the king at the door,
The little wan lad in the lanes of the poor.
Help! Help! There is need every moment
Of struggle and strife and the militant foment
For the hand help and heart help and thought help and cheer,
And the help of sweet laughter on lips ringing clear.

Help! Help! Every life has its need,
Every heart its deep wound where the centuries bleed.
Help! Help! for the jester who blunders,
The ruler whose roar shakes the world with its thunders.
Help for the weary who potter along,
The young with a ring of red morn in their song.
Help is the secret, the beauty, the might,
The lane of the lilies to God and the light!

—Baltimore Sun.

MAN, WHERE ART THOU?

This interesting question is asked in the first chapter of Genesis and has been the theme of many a sermon.

'Art thou in the flesh, bones and blood, that can be resolved into seven-eighths water and THE REST A LITTLE LIME AND IRON?

The real man, as yet but little apprehended, and known to but few persons, is back of all that is visible to the eye.

There is no science or alchemy or astrology that can reveal this man to himself, NO MATTER HOW CLEARLY HE MAY BE SEEN OF OTHERS.

This real man cannot be analyzed by chemistry, revealed by logic or so-called physiological psychology, or laid bare by the microscope.

The burning question of the endless ages is still unanswered and man is almost as far from knowing himself as he was in the days of Adam.

Where is man in his dreams? What is he in his own estimation? CANST THOU PUT THY FINGER ON HIM AND SAY THIS IS MAN?

Man is past finding out? He is not easily located. Today you think you know him. Tomorrow you are ready to say you never knew him at all.

So, we begin the solution of the mystery by asking the question of ourselves: Men, where are we in this world?

PATRONIZE HOME INDUSTRY.

The Journal is a strong advocate of patronizing home institutions in every instance where it can be done satisfactorily.

DON'T SEND AWAY FROM HOME FOR ANYTHING YOU CAN BUY IN YOUR HOME TOWN.

Don't patronize any institution outside of town if you have a similar institution at home. In other words, don't send your money away from home when you can spend it here.

If we want to build up our town we must encourage our business men by OUR PATRONAGE, OUR MONEY, OUR INFLUENCE, AND NOT BY IDLE WORDS.

Look over The Journal and see the men who are represented by their advertisements and give them your patronage.

Whenever you help the local paper you help your town, because the paper DOES MORE TO HELP BUILD UP YOUR TOWN THAN ANY OTHER INSTITUTION.

The paper is always keeping the town and its resources and advantages before the people. It shows up your good features, if you have any AND KEEPS QUIET ABOUT YOUR PETTY TROUBLES AND QUARRELS.

The newspaper is a factor in building up—not tearing down, and people appreciate this fact and show it by their patronage.

Patronize your home industries first, last and all the time AND YOU WILL HAVE A LIVE, ENERGETIC AND PROGRESSIVE TOWN.

GUATEMALA'S NEW RAILROAD.

The Guatemala railway is now open to traffic between Puerto Marrior and Sanarate, about 147 miles, and the capital is only some 30 miles, so that it may be expected that the lines will be completed by the end of the year.

As soon as interoceanic communication will thus be accomplished, it is planned to build a line from Palapita, connecting the Ocos railway with the Mexican system of railways; another line from Caballo Blanco to Palapita, via Coatepeque, UNITING THE OCCIDENTAL RAILWAY OF GUATEMALA WITH THE OCOS RAILWAY, AND A THIRD LINE IN SALVADOR, ALL THREE IN CONNECTION WITH THE PAN-AMERICAN RAILWAY SYSTEM.

It is likely that on the completion of the Guatemala railway most of the import and export trade will be conducted via Puerto Barrios, which will then become the most important port on the Caribbean sea coast, more especially so if the branch line from Zacapa into Salvador should be built.

Uttering Kilowatt of Electricity.

When you buy electricity from a power company for the purpose of lighting your house or cooking your food, you buy it by the kilowatt-hour.

hour. A kilowatt is a thousand watts, and a watt is a certain unit of power.

A kilowatt-hour will carry you three miles in an electric brougham; keep your coffee-pot warm every day for a week; run a sewing-machine for 21 hours; cook 15 chops in 15 minutes; boil nine kettles each holding a quart of water; warm all the beds in the house by means of an electric warming-pan for two weeks; run a electric piano so relentlessly that your neighbors will suffer agonies for ten hours; clean 5000 knives, clean 75 pairs of boots; clip five horses; warm your shaving water every morning for a month; run an electric clock for ten years; light 3000 cigars with an electric cigar lighter; supply all the gas required by an oil lamp; and much more.

These features make it an ideal investment and especially desirable for those holding trust funds.

We welcome small as well as large accounts.

A Savings Bank Account

Has many desirable features not possessed by other investments. VIZ:—

1. Absolute safety.
2. Always convertible into cash.
3. Freedom from worry and trouble.
4. No expense attached.
5. Principle can be increased or diminished by any amount at any time.
6. Profound and regular dividends.
7. These features make it an ideal investment and especially desirable for those holding trust funds.

We welcome small as well as large accounts.

GOOD IF YOU NEED IT

Authority Says This Home-Made Helpful Mixture Should Be Used Promptly

A well-known authority states that backache and pains in the loins are only too often the danger signals which notify the patient that something is wrong with the kidneys, and warns every one to be careful, particularly at this period of the year, when the skin pores are closed, forcing the kidneys to do double their work of filtering the impurities and poisons from the blood and system.

At the first sign of Backache or pain in the region of the kidneys, or weakness and urinary trouble, the following simple home recipe should be used. Any one can easily prepare it:

Fluid Extract Dandelion, one-half ounce; Compound Kargon one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

Any good prescription pharmacy will supply these three ingredients at small cost, which can be easily be mixed by shaking well in a bottle. Few people seem to know the value of these common remedies in the treatment of the kidneys. This simple prescription, when taken as directed, will regulate the urine, clear up and remove sediment, overcome back pains and cleanse the entire kidney structure, correcting bladder troubles in just a little while.

ENGLAND'S WINSTON CHURCHILL
The brilliant young statesman and author, son of the late Lord Randolph Churchill, who is going on a motoring trip through the jungles of Africa. The picture represents him making a speech in the house of commons.

Afflicted with Sore Eyes for 33 Years

I have been afflicted with sore eyes for 33 years. Thirteen years ago I became totally blind and was blind for six years. My eyes were badly inflamed. One of my neighbors insisted upon my trying Chamberlain's Salve and gave me half a box of it. To my surprise it healed my eyes and my sight came back to me.—P. C. Earle, Cynthiana, Ky. Chamberlain's Salve is for sale at Dr. Stone's drug store.

India Has Cheapest Postage.

According to Consul General W. H. Michael of Calcutta since October 1st India enjoys the lowest postage and parcels rates, it is claimed, of any country in the world, the rates following:

The weight that will be carried for 2 cents is 10 tola or 4 ounces, and 2 cents for each additional 4 ounces or fraction thereof. The parcel rates will be 4 cents for each 16 ounces up to 11 pounds. Inland, including Ceylon and Portuguese India, letter weighing 1 tola, 1 cent, and if more than 1 tola and not more than 4 ounces, 2 cents. Every additional 4 ounces or fraction thereof, 2 cents.

Letter postage to the United Kingdom and to countries participating in the scheme of imperial penny postage, 2 cents per ounce; to any part of the world 5 cents for the first ounce, 3 cents for each additional ounce or fraction thereof. Parcel postage, inland, not exceeding 16 ounces, 4 cents. It is also the purpose of the government to reduce the cost of money orders.

No person that keeps the food clean and healthy can have good health, and who wish to become healthy, let them try the food of the Mountain Tea removes and protects you from disease. 25 cents. Tea or Coffee for sale at Dr. Stone's drug store.

SMILES

President Downing of the state fair is in the city. The fair made so much money, Henry's friends are asking him what he has done with it all?

Why not have a "mum" celebration at Salem?

Watch The Journal grow.

The Oregon bank panic was short-lived.

More products than money is a good healthy sign, and is truer of Western Oregon than anywhere in the world.

Dr. Driver was the last of a great race of pulp orators.

No signs of panic in that crowded opera house last night.

Uncle Sam, please provide enough currency to handle the Oregon hops and prunes.

Property in South Salem is advancing. Mr. Poisel could have sold his place on South Commercial street at an advance of \$1000 in one year.

Oh, no; it is not necessary. Let South Commercial street go to the dogs. It would take a few days' work with two or three men to put it in order for the winter. But that would be business, and we can do almost anything right but so plain and simple a public matter. Once more: Put the waste material next the gutters up near the rafters and save the road.

Coos Bay interests are to be consolidated on the burrough system, and good results are looked for.

Salem will be the first city to adopt the Galveston system of city government.

The country banks all over the state proved stronger than the Portland banks. They kept open and with very few safeguards, which were entirely proper, and handled the business of their respective communities.

Why shouldn't the city attorney bring suit to collect the \$5000 bond of the Home Telephone Company, which has clearly been forfeited? The Hayseed council collected one when the city had no city attorney on a salary.

The streets are again paved with the historical material that was shown off in the last Fourth of July parade.

A little fire protection would not be a thing for Asylum avenue, where there are many beautiful homes and no hydrants.

Indications are there will be no candidates for aldermen nominated Saturday at the primaries. A mistake. The charter is not yet adopted, and in 30 days the people may be sorry they did not nominate a man in each ward.

Our Crying Need of Foreign Labor.

I do not believe it true that undesirable immigrants come wholly from any one country. We do not want people from other countries who are criminals. Neither do we want people, who, because of political beliefs, want to let as much blood as they can and we do not want people who are shiftless or diseased and who have no ambition to become good citizens. But these classes do not come from any particular society, and it is because we must have labor that we are compelled to put up with a certain per cent of bad timber. Industrial prosperity in this country is directly reflected in Europe. An immense amount of labor is needed in the United States. We've got to have labor, and we must take Italian labor. We cannot very well exclude all the Hunchakists and Black Hand people that come in with the labor. Every Italian is not a Black Hand, any more than every Armenian is a Hunchakist, but we must have laws that will exclude such persons from the United States. Italians, Sicilians and all others who are honest, who want to own homes of their own and till the soil, give their children an education and who wish to become good citizens, should be given every opportunity to come into the country. No matter what their race may be, if they are honest, law-abiding, and wish to become good citizens, they should be given every opportunity to come into the country. The general of immigration in Leslie's Weekly.

To Cure Cold in One Day.

LANATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVES, signature on each box.

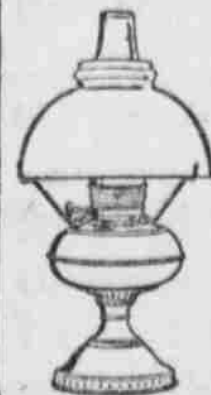

Don't Shiver

Just scratch a match—light the Perfection Oil Heater—and stop shivering. Wherever you have a room that's hard to heat—that the furnace doesn't reach—there you'll need a

PERFECTION Oil Heater

(Equipped with Smokeless Device)

Just the thing for blizzard time or between seasons. Its genial glowing heat makes any room cheerful and cozy. No smoke—no smell—smokeless device prevents. Brass font holds 4 quarts of oil burning 9 hours. Finished in Japan and nickel. Every heater warranted.
