NO. 254.

Millions In Gold Pour Into New York From London

ME OF FIEND IN PORTLAND

MULTS A BABY

Little Mabel Myers, Four Old, Into Old Shack and Fiendish Crime—the Will Probably Die.

Nov. 5.—Enticed into a shack by means of a bag offered her by a stranger, year-old daughter of Mrs. 225 Mill street, was feloniously murdered by an unknown man yesterday afternoon, lying on a cot at her home in a condition that it is believed she may die.

height, wore a dirty and shabby black or dark suit of clothes, has about three days' growth of beard on his face and a mustache slightly tinged with gray, and wears a black soft hat.

Goes Home to Vote.

New York, Nov. 5.—President Roosevelt arrived in Jersey City at 7:08 this morning on his way to cast his vote. He breakfasted at Jersey City, and left at 8 o'clock for Oyster Bay.

Captain and Money Missing.

Seattle, Wash., Nov. 5.—Captain John Farrell, of the lumber schooner Robert Searles, is missing, and it has come to light that bogus drafts amounting to several thousand dollars have been cashed by Seattle, Tacoma and Everett banks. They must be made good by the owners.

TARIFF WAR WITH FRANCE

(United Press Leased Wire.)

Paris, Nov. 5.—Indications point to an early inauguration of a tariff war between France and the United States. The negotiations opened last summer for an arrangement on a basis of giving France the benefit of a 20 per cent reduction in wines in return for preferential rates upon a list of about 100 articles, including shoes, tools, machinery, etc., have thus far been barren of results, and the action of the French government in virtually promising to conclude any further commercial arrangements until parliament passes upon the proposed revision of the tariff seems to preclude any chance of agreement.

ALL EYES ON CLEVELAND AND FRISCO

FULL VOTE IN EACH

In Cleveland Johnson is a Favorite at 2 to 1 in the Betting—His Election Would Be Slap at Roosevelt—All Parties Claim San Francisco.

(United Press Leased Wire.)

San Francisco, Nov. 5.—Election day in San Francisco dawned bright and crisp, the weather being ideal for the casting of a heavy vote. The party workers were up early and laboring with unrelaxed vigor, despite the heart-breaking three weeks of campaign.

The usual early labor vote was not cast, thousands of the building trades workers taking advantage of the order issued by McCarthy, who, as president of the building trades council, called for a suspension of work on election day, and remaining in bed late.

In the big districts the early vote was light, the 36th, one of the most populous in the city, showing only 51 votes cast up to 8:30. At the various headquarters confidence was expressed over the outcome. The Taylor people accepted the light early vote as an indication that the workingmen were not over-enthusiastic about McCarthy, and in due time would cast their vote for Taylor.

The McCarthy people, on the other hand, took the light vote as an indication that the workingman was entirely sure of his ground, and could be relied upon to cast a straight Union Labor vote at the right time.

Ryan and his manager are apparently jubilant over the outlook, expressing greater confidence than at any time since the campaign opened. They are claiming the greater portion of the labor vote that was expected to be cast for Taylor.

The voting became much livelier as the morning advanced, and by 9 o'clock long lines of voters were formed at the polling places in the unburned district.

The district south of Market street, which is as yet only sparsely settled, showed a light vote, in marked contrast to the heavy poll before the fire.

In the fashionable district unusual interest was displayed, bankers and merchants being out early to cast their votes.

Perry Newberry, secretary of the Republican county committee, at 10 o'clock announced that the voting had become heavy throughout the city and that in most cases straight tickets were being voted.

Heavy Vote in Cleveland.

Cleveland, O., Nov. 5.—Ideal election weather prevails here and votes are being cast at the rate of one a minute in 244 precincts. It is believed that nearly the entire registration of 94,000 will be cast. Johnson continues at two to one favorite over Burton.

Little Interest in Pittsburg.

Pittsburg, Penn., Nov. 5.—Election day dawned cloudy in Pittsburg. There is no unusual interest, John Sheats, Republican, and John Herman being the only candidates for a state office, and the treasurer'ship. It looks like a victory for Sheats.

Interested in San Francisco.

New York, Nov. 5.—Aside from its own election, New York is evincing greatest interest in the outcome of the San Francisco election. Bulletins from the coast are being prominently displayed in the newspaper windows and are being read with avidity by great crowds.

In Wall Street the hope is expressed that Taylor will be elected. The election in Cleveland is also attracting much attention, as the defeat of Congressman Burton by Mayor Tom Johnson will be a direct blow to President Roosevelt, who has been giving Burton's candidacy all the support at his command.

Early returns from Massachusetts and New Jersey indicate the usual Republican majorities.

Rhode Island returns are coming in slowly. A fairly even vote is being polled, with a slight shade in favor of the Republicans.

Mix Prayers and Votes.

Dover, Del., Nov. 5.—Women and children are parading the streets throughout Delaware today, appealing to the voters to "protect their homes and families." Churches were open all day for prayer offering for the success of the anti-license ticket in the election. Party lines have been forgotten, and liquor is the only issue.

Salt Lake's Big Vote.

Salt Lake, Utah, Nov. 5.—The heaviest vote in the history of the city is being cast in Salt Lake. The indications are that the Americans (anti-Mormon) will elect Bradford mayor.

Johnson Claims Victory.

Cleveland, O., Nov. 5.—Mayor Johnson issued a statement this afternoon declaring that he would be the winner by a majority of 18,000.

New Jersey Probably Republican.

Trenton, N. J., Nov. 5.—Partial returns from the largest cities indicate that Fort, Republican candidate for governor, will have a good plurality over Katzenbach, Democrat. The Sunday closing law is quite an element in the election.

Close in Maryland.

Baltimore, Md., Nov. 5.—The fight in Maryland promises to be a close one, with the chances favoring the election of Crothers, Democrat, to the governorship. A spirited contest is on for control of the legislature, which will elect two United States senators. Greater interest centers in the election of members of the legislature than in the election of governor. Both sides claim a victory.

Massachusetts Republican.

Boston, Mass., Nov. 5.—Governor Guild's re-election, as well as that of the remainder of the Republican ticket, is practically assured by returns up to 1 o'clock this afternoon.

Hot Fight in Sacramento.

Sacramento, Cal., Nov. 5.—The election here today is one of the most fiercely contested in many years. Two full city tickets are in the field, headed by Clinton L. White, Lincoln-Roosevelt Republican League, and Mayor M. R. Beard, Democratic candidate for mayor.

The Southern Pacific political bureau is here in force fighting against White, who in turn is supported by every newspaper in the city, daily and weekly. The vote promises to be very close with the chances favoring White.

What the Leaders Say.

San Francisco, Nov. 5.—Early this afternoon, after hearing from his party managers, Mayor Taylor gave out the following statement:

"I believe that tomorrow the whole world will clap its hands in approval of what San Francisco has done by the election of the Democratic and Good Government ticket."

Ryan said: "We made a clean fight, we will have a clean victory and a clean administration."

Cleveland L. Adam, in charge of McCarthy's fight, stated this afternoon: "There is heavy voting in all parts of the city, but especially in the labor districts. This, taken into consideration with the fact that straight tickets are being polled, will undoubtedly result in the election of McCarthy."

San Francisco, Nov. 5.—According to figures gathered from various sources, Taylor was leading at 1 o'clock this afternoon, with McCarthy close behind.

Of Langdon little doubt exists anywhere now, although McGowan is strong in many points. Ryan's friends pin their faith on the final hours of voting.

Big Vote in Columbus.

Columbus, O., Nov. 5.—An extraordinary vote is being cast here, of the 39,000 registered, 15,000 have been cast up to 9 o'clock. C. A. Bond, Republican, and T. A. Duncan, Democrat, are the major candidates. The chances favor Bond.

As Seen Through the Bars.

San Francisco, Nov. 5.—Former Mayor Schmitz, under sentence on conviction of extortion, when queried at the county jail this morning, gave these as his election views:

"I believe that McCarthy will be elected by from 3000 to 5000 plurality. I cannot say that I expect the other Union Labor ticket to win. As between McGowan and Langdon, it looks to me an even break."

"The bitterest fight is on the district attorneyship, and I would not wager any money on the outcome of that issue. But I do believe McCarthy will be elected. This is the most difficult election to prognosticate that San Francisco has ever held."

The Kentucky Vote.

Lexington, Ky., Nov. 5.—Four men were shot, one being killed and two fatally injured on Vine street this afternoon in an election row. The dead man is Clyde Campbell, and his father, W. R. Campbell, a candidate on the Republican ticket for councilman, and Policeman Michael Murphy are fatally wounded. Marion Smith, another policeman, was badly wounded. The elder Campbell quarreled with Murphy, whom he accused of taking a too active part in the election. Murphy and Smith arrested Campbell, whereupon Clyde Campbell shot Murphy. The firing then became general, 20 shots being fired, and when the smoke of battle cleared away young Campbell was dead, and the other three were lying on the ground wounded.

FINANCIAL SITUATION IMPROVING

MILLIONS COMING

Eight Millions Arrived in New York Today, Ten Millions Due Tomorrow and the Total for the Week Will Amount to Thirty Millions.

(United Press Leased Wire.)

New York, Nov. 5.—Eight millions of the \$30,000,000 in gold engaged in Europe by New York banks arrived today on the steamer Gron Princessa Cecelia. In her wake the Lusitania brings \$10,000,000 more, and the rest of the \$30,000,000 is expected within a week. More gold is being engaged constantly.

Financiers say the yellow flood will not stop short of \$50,000,000. With the arrival of the money today,

The Financial Situation.

Another formal holiday proclamation was issued today repeated as a matter of form for several days. Portland announces a shipment of half a million of gold direct from London, England, one-half of which is due to arrive in Portland Wednesday. The New York stock market is stronger. Large transactions calculated to release holdings of coin in banks have been carried through. Salem banks are resuming all lines of business. The local feeling is that no Portland clearing house certificates will be accepted here, but if any currency of that kind is required, Salem banks will follow the example of Portland. Portland banks are holding large balances from Salem, and find it difficult by any device to get coin or currency from our city. Our special telegrams announce arrival of \$8,000,000 gold today at New York and \$10,000,000 due to arrive on the Lusitania tomorrow, and total of \$30,000,000 to arrive in New York before the week's end.

bankers believe a point has been reached where the tide may be counted on the turn. A feeling of confidence is fast returning among depositors.

Puts Up Fifteen Million.

Paris, Nov. 5.—The directors of the bank of France this afternoon voted to comply with the request from the Bank of England for a loan of \$15,000,000.

San Francisco Banks Solid.

San Francisco, Nov. 5.—"The financial situation is improving. Money is flowing in from London and large European centers, and a very few days will witness the clearing away of the clouds. San Francisco has proved her strength by not tottering under the strain."

Governor Gillette summed up the financial situation in these words today.

It was rumored that he intended calling a special session of the legislature for the purpose of enacting legislation extending the time for the payment of delinquent taxes. He denied this, however, and said that conditions did not warrant such action.

KILLED BY A BURGLAR.

Chicago, Nov. 5.—In a desperate struggle with a burglar early this morning, James W. Alway, a commission merchant of Los Angeles, was shot and killed in the residence of his brother, Edward, in Austin, a suburb. The murdered man retired early last night, and before dawn this morning his brother was awakened by shots, which followed the sounds of scuffling. Rushing to the apartments of his brother, Edward saw James stagger and fall.

"I was shot by a burglar," was all the wounded man said, and a moment later he was dead.

Two of the burglar's bullets struck Alway, one going through the left arm, and the other penetrating the chest near the heart.

The dead man lived at 2116 Park Grove avenue, Los Angeles.

Refuses to Accept Checks.

Denver, Colo., Nov. 5.—Union Labor men here are refusing to accept checks in payment of wages. The refusal is prompted by the fact that money lenders and big business are offering to cash checks at a discount. The union men believe their employers should get the cash as easily as the lenders.

Shingle Mills Close.

Bellingham, Wash., Nov. 5.—Local members of the shingle mill bureau state that by tonight not a mill will be in operation in this state. They close for an indefinite period on account of car shortage and overproduction.

TUNNEL AT TACOMA.

Union Pacific Will Commence Work on It Next Month.

(United Press Leased Wire.)

Tacoma, Wash., Nov. 5.—The actual construction work on the Union Pacific tunnel in Tacoma will begin about December 1. Official announcement to this effect was made yesterday afternoon.

It is estimated that the actual construction of the tunnel will cost \$3,000,000. The steel work, including the drawbridge over the city channel, will cost about \$2,000,000.

UNCLE SAM TO OWN AIRSHIPS

(United Press Leased Wire.)

St. Louis, Nov. 5.—J. C. Mars, of the American Airship and Balloon Company, of New York, has arrived in St. Louis from Washington to select a site for the aerodrome the company will use for the construction of air craft, and in which the first war airship ever built in the United States for the government will be erected.

The contract for the airship has just been closed in Washington, General Allen, of the war department, acting for the government.

The airship will cost the government \$10,000, and will be modeled after the "Beechey," shown here in the recent aeronautic contest. According to the plans it will carry two men and will be capable of a speed of 25 miles an hour. A 50 horse power engine will furnish the motive power. A light gun will be mounted on the framework.

TAFT IS COMING HOME

(United Press Leased Wire.)

Manila, Nov. 5.—Secretary Taft is considering the abandonment of the rest of his tour of the world, and an immediate return to the United States. The financial crisis in the United States, urgent political demands, and the recent mutiny of sailors at Vladivostok are understood to be behind his determination to return. No positive decision has been reached, but Taft's return is expected in official circles. It is not thought that Taft has any fears, but it would be unpleasant for him to run into a battle between Russian royalists and rebels.

THE CORPSE SAT UP.

Woman Supposed to Be Dead Came to Life During Funeral Service.

(United Press Leased Wire.)

Monterey, Mexico, Nov. 5.—While a minister was pronouncing services over the supposed lifeless body of Mrs. Fred Harzell, the latter stirred, sighed and then sat up. The minister fainted, the pallbearers fled, and only the husband remained to assist his wife from the casket.

Four days ago the woman fainted and was pronounced dead.

TRAFFIC IN INDIAN GIRLS.

British Columbian Government to Put a Stop to It.

(United Press Leased Wire.)

Vancouver, B. C., Nov. 5.—In order that the practice of selling Indian girls into slavery during the holding of annual potlaches among the natives in the northern part of British Columbia may be abolished, Indian schools for girls are to be established, and the females placed in them until they become of age.

It Looks Like Taylor.

San Francisco, Nov. 5.—The betting this afternoon went down to 19 to 7 in favor of Taylor, much Taylor money being in evidence. The impression seems to be general throughout the city that Langdon will poll the heaviest vote.

Little trouble occurred in any of the voting booths, except in the Ingleside district, where, it was reported, some of McCarthy's adherents had attempted to prevent Taylor men from voting.

CHICAGO STORE

PEOPLES BARGAIN HOUSE

DO YOUR TRADING

at the Store that Saves You Money. See Our Prices:
