If Enjoined Meeting Miners Will Not Obey

DARROW BEGINS DEFENSE

TALKS WITH JURY

SICK TO STAND, PETTIBONE'S LAWYER SITS IN FRONT OF THE JURY AND HAS A HEART TO HEART TALK WITH MEMBERS.

(United Press Leased Wire.)
Boise, Idaho, Dec. 27.—The defense of Clarence Darrow in the Pettibone case this morning began the examination of its witnesses, and for the next two weeks Darrow will endeavor to convince the jury that the story of Orchard was a mass of lies, for the purpose of saving his own life at the expense of others. Darrow made an impressive scene yesterday afternoon as he addressed the jury. Unable to stand he sat in the jury box and in plain, convincing way, talking as man to man, told the jurors of his clients

side of the great drama growing out of the conflict between capital and labor in the inter-mountain country. Witnesses are here from Colorado, North Dakota and Coeur d'Alene, who will tell of Orchard's alleged threat against the life of Steuenerberg and to deny Orchard's story in many important features.

Boise, Idaho, Dec. 27.—Clarence Darrow, after making the opening statement for the defense to the jury in the Pettibone case yesterday afternoon, had a relapse, and a consultation of physicians resulted in the decision that a mastoid operation was necessary to save his life. Darrow will leave this afternoon for Los Angeles, where the operation will be performed. There is little chance that he will be in Boise again before the trial is concluded, and his loss is keenly felt by the defense. Edgar Wilson will be in charge of the Pettibone case, but he was also sick today, and John F. Nugent announced that the defense would begin with the introduction of the depositions on the Bradley explosion at San Francisco. These were read to the jury. The defense claims this was a gas explosion, and not that of a bomb, as is claimed by Orchard. Before leaving Boise today Darrow said that he felt certain that Pettibone would be promptly acquitted, but he would not think of leaving if he was able to appear at the trial. His effort of yesterday, however, plainly showed that he would have to give up the fight against the disease.

THE COAST VISITED BY STORM

A HEAVY RAINFALL

STORM WAS GENERAL, COVERING ALL THE NORTHWEST COAST AND EXTENDING EAST INTO THE DAKOTAS—SOME LOCAL INCIDENTS.

The Willamette river is higher at present than at any time this season, but, owing to the cessation of the storm and the sudden falling of the temperature, will probably rise but a few inches more. The flood marked 24.8 feet above low water mark this morning at 10 o'clock, and had only risen about one-half an inch all morning.

A report from Corvallis late last evening said that the river was rising there, having reached the 22.5 mark, but the tributaries between here and the upper river points will probably offset this, as several of the upper streams are said to be falling. The Santiam is reported to have fallen yesterday six inches in two hours.

August Fisher, of Harriburg, reported last evening that the river at his town was rising slowly, but looked for great damage as a result of high water.

One on Bent.
Bent Jones, the well-known hop raiser of Mission Bottom, who is at present living in Salem, made an inspection visit to the river last evening to ascertain the safety of a large amount of hops which are stored in his warehouse near the rushing Willamette in Mission Bottom. Now, Bent is a thorough business man, and he does not believe in taking any chances, and especially when several thousand dollars' worth of hops are at stake. There seemed to be a question in his mind as to the accuracy of the river water gauge, which is nailed at the end of the O. C. T. dock, for the building might be floating or the wind blowing so as to register wrongly. Bent looked thoughtfully at the torrent and then took his knife, and sharpened a stick, drove it in the sidewalk at the water's edge and cut a notch on the level with the water. This plan would have proven successful and accurate had not the sidewalk, which Mr. Jones thought to be fastened to terra firma, been floating. Manager Baldwin, seeing the possibilities of a little joke, put several of the bystanders "next" and one by one they walked up on the sidewalk, where Mr. Jones was standing. Of course, as each one came upon the walk it settled, and, to the surprise of Mr. Jones, the water came up at the rate of an inch a minute. There was a great load of anxiety removed from his mind when the joke was exposed.

Gray Eagle Rescues Stock.
Captain Cunningham, being informed that there was stock on Min-to's Island day before yesterday, that were in danger of being drowned, postponed his Christmas dinner and went to the rescue in the Spaulding Logging Company's steamer, the Gray Eagle. With difficulty 16 head of cattle and five head of horses were taken from the submerged island in a terrific storm. Several attempts were made to take a scow to the island with a launch, but the wind and current each time proved too strong, and it was found impossible to make the rescue with the smaller boats.

Storm General.
The storm has been a general downpour all over the Northwest, covering the entire Pacific coast, and reaching the Dakotas. The rainfall for the last two days for the val-

ley was from 1.52 to 2 inches, and was accompanied by a terrific wind storm. The gale in the lower valley registered a velocity of 30 miles per hour, while at North Head 84 miles was the record.

Oregon City.
The falls at Oregon City are said to present a spectacular sight, the waters there having been too high for the past week to allow boats to pass the locks. The generators in Mill A of the Willamette Pulp & Paper Company have been removed to a place of safety, as the water has entered that department of the mills.

THE WOMAN SAVED THE TRAIN

(United Press Leased Wire.)
Los Angeles, Cal., Dec. 27.—By the use of brawn, as well as brains, and by quick, heroic action, Mrs. Albert Marsh, of Long Beach, prevented the wreck of two Pacific electric cars, crowded with people returning from Los Angeles after a Christmas night of enjoyment in this city.

Mrs. Marsh was awakened at 11:30 o'clock by suspicious sounds. Getting out of bed to investigate she saw heavy objects on the track and observed two men, who looked like Mexicans, running away. Putting on some clothing, she hastened to the track and found heavy ties at right angles across the rails. To the north a reflection from a headlight showed that a car was approaching from Los Angeles. By hard work she dislodged the ties, and just as the last one was thrown off a two-car train, heavily laden, whizzed by. As soon as Mrs. Marsh returned to her home she telephoned the police, but they found no traces of the would-be wreckers.

AWAIT JUDGE'S DECISION

MINERS ARE UNEASY

IF UNIONS ARE ENJOINED FROM MEETING THE MINERS WILL IGNORE THE COURT'S ORDER, AND TROUBLE IS CERTAIN TO FOLLOW.

(United Press Leased Wire.)
Los Angeles, Cal., Dec. 27.—If trouble starts in Goldfield, Los Angeles guns and ammunition will play star parts.

There are scores of visitors here from the camp, and every one of them expresses his intention of returning "heeled."

The gun departments of hardware stores are the busiest places in the city.

Goldfield, Nev., Dec. 27.—News of the action of U. S. District Judge Farrington, at Carson City, intends to take in the matter of the prayer for an injunction against the Western Federation of Miners, asked by the Mine Owners, is being anxiously awaited in Goldfield.

The miners say that if they are re-

HENEY WANTS COIN

Great Limestone Is Not Working for Glory Alone.

(United Press Leased Wire.)
Washington, Dec. 27.—An official of the department of justice said today that the principal object of Prosecutor Henevy's recent visit to Washington was to adjust his salary in connection with the prosecution of Oregon land frauds. Henevy was engaged by Attorney-general Knox, and then by Bonaparte, and it is understood that he asked \$25,000 for his services, but whatever sum it was, the department discovered that this fund was not sufficient to meet it, and, after a long delay, arrangements have been made for securing the amount. Bonaparte will now ask congress for a deficiency appropriation to pay Henevy.

GOT GAY AND WAS KILLED

(United Press Leased Wire.)
Enterprise, Or., Dec. 27.—Frank Raymond, a well-known Snake river cattle man, was shot and instantly killed by his 19-year-old brother-in-law, Howard Whittier, at the Whittier home, 60 miles east of Enterprise, Saturday afternoon.

Raymond came to the Whittier home in a drunken rage, and began abusing his brother-in-law for three weeks, his mother-in-law and young Whittier. He struck his wife's mother with a broomstick until she fell unconscious. When Raymond turned at his wife, Whittier reached for his 30-30 and shot him. That night Whittier traveled to the nearest neighbor, seven miles away, and the next day gave himself up.

Wanted Her Diamond Ring.
(United Press Leased Wire.)
Seattle, Wash., Dec. 27.—While Miss Margaret Dunn, a trained nurse, was showing a man through the flat in which she lived at 1022 James street, yesterday afternoon, she was struck on the head with some instrument, believed to be a pair of pliers. The assailant then tried to bite a diamond ring off her finger. Before losing consciousness Miss Dunn screamed, and, after a hasty, fruitless effort to obtain the ring, the man fled. The officers are looking for a character well-known to the police named Martin, who it is believed is the assailant.

Portland Claims 225,000.
Portland, Or., Dec. 27.—Portland's population is 225,000, declares the publisher of the new city directory for 1907, which will be issued from the press today. The estimate is the usual directory figure arrived at by multiplying the number of names in the directory by two and a half. This is considered a fair estimate by the directory management, which lists in most cases only the heads of families.

Captured the Robbers.
(United Press Leased Wire.)
Smithboro, Ill., Dec. 27.—After a lively pistol battle two robbers who participated in the robbery of the passenger depot of the Vandalia railroad early today, were captured. One of them was shot five times, and City Marshal Brown, of Sorento, Ill., was seriously wounded.

The Fleet Sails Tomorrow.
(United Press Leased Wire.)
Port of Spain, Dec. 27.—Having been feasted and toasted in a true brotherly way by the officials here, Admiral Evans and his mighty fighting outfit will resume the journey to the Pacific coast tomorrow. The coaling of the armada was completed today.

The last feature of the program arranged in honor of the naval visitors will be given tonight in the form of a dinner to the officers of the fleet.

TREASURER FILES A NEW BOND

State Treasurer Steel filed his new bonds today in the sum of \$624,500, with \$20,000 more coming by mail. There are 95 bondsmen, who qualify in sums ranging from \$1000 to \$50,000. Besides there is \$95,000 more offered in case it needed.

Bridge Is Still There.
The North Commercial street bridge is in about the same condition as it has been since the break in the north wing was first noticed. Street Commissioner Martin and the committee appointed by the council have taken every precaution to strengthen the sill. Large mats of brush are being made, which will be placed in the hole excavated by the flood. The water has reached to within about 30 inches of the top of the concrete arch, which seems to be firm. The cars are crossing as usual.

Piles Cured in 6 to 14 Days.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 day or money refunded. 50c.

England Is Anti-Jap.
(United Press Leased Wire.)
London, Dec. 27.—That a strong anti-Japanese sentiment has been growing in England, dating from the beginning of the demonstrations in British Columbia, is just being realized by officialdom here.

This belief is strengthened by the announcement made today to the effect that Nasse, Japan's consul-general at Ottawa, Canada, has been recalled. Such a move on Japan's part can only be considered here as an evidence of unfriendliness. No one thinks that Nasse will return to Ottawa.

Bill Getting Tame.
(United Press Leased Wire.)
Denver, Colo., Dec. 27.—William F. Cody (Buffalo Bill) will become reconciled with his wife within a few days, according to a statement made by J. L. Sabin, a friend of Cody's.

Sabin says the famous showman will be in North Platte, Neb., where his divorced wife lives, this week.

"Colonel Cody has just suffered a bereavement in the death of Lieutenant Clarence Scott, his son-in-law, of whom he was very fond," said Sabin. "I have every reason to believe that Colonel Cody desires a reconciliation, and that Mrs. Cody will stand ready to welcome him back."
