WILL WELCOME THE BIG FLEET

San Francisco, Jan. 16.—San Francisco will give the officers and sailors of Admiral Evans' fleet a \$100,000 welcome. Platoons of the city's prettiest native daughters will lead the sailors in great parades through the streets, strewing flowers in their path.

There will be a pageant on a par with the triumphs of the generals of ancient Rome and their armies received after a great achievement.

All the bands of the city will greet them and cheer them by day, and at night San Francisco will become a city of brilliant lights. And, in addition to all this, there will be balls and dinners without end for officers and men. These things have been tentatively decided upon at the first regular meeting held by the reception committee appointed by Mayor Taylor.

A platoon of pretty girls is to lead each division of the sailors, bearing floral emblems of the particular battleship from which the sailors come. Both men and girls will wear garlands of flowers, and bands of musicians, both those of the city and of the battleships will render music throughout the parade.

SAN FRANCISCO IS PROTECTED

(Continued on page four.)

San Francisco, Jan. 16.—After months of quiet work done with considerable secrecy, United States army engineers have almost completed plans for an extensive system of trenches and trenches for the protection of the forts guarding the entrance to San Francisco.

Two years ago congress made the appropriation for these works. Recently there has been a rush, and in the quarters of Major C. H. McKinstry, the officer in charge of the fortifications in the California district, in the Monadnock building, a large force of draftsmen are busy on the plans, which are being rushed to completion. Out in the field the surveys are active.

Students of warfare have pointed out the danger of an invading force landing troops at Half-Moon bay or some other point a few miles south of the city, and out of range of the big guns at the harbor's mouth, ex-

cutting a flank movement, and demolishing the heavy batteries or of capturing one of them, and using the guns for an attack on the other forts.

A Horse's Memory.
My father had a fine driving horse that was intelligent and had learned a number of tricks. One night he was stolen, and no trace was found of him for nearly two years when, one day, father met a stranger driving the horse and of course claimed him. In the dispute which followed father remarked that if it was the horse stolen from him he would on being unharnessed go to the gate, lift the latch, open the gate, go around the barn, slide the bolt, open the door and go into the third stall. The man agreed to give the horse up on those terms. They drove home and up the lane to the barn and unharnessed the horse, when, without a moment's hesitation, he performed the feats father said he would.—Chicago Tribune.

ARE HAVING A GREAT TIME

Rio De Janeiro, Jan. 16.—All sorts of amusements, from baseball to dances, is on today's program for the entertainment of the officers and jacks of Rear-Admiral Evans' fleet. The diplomatic corps here ascribe the failure of the German cruiser Bremen's officers to take part in the festivities at the palace yesterday to chagrin over the official utterance of the Brazilian president. Little credence is given the report that the slight trouble between watermen and Americans Monday night was inspired by foreigners.

THE KINDS SOAKED.

College Society Dishes Out Impartial Justice.
Seattle, Wash., Jan. 16.—To be thoroughly soaked in a bathtub, clothing and all, was the sentence passed and executed on three students of the State University, who live in the men's dormitory. And the sad feature of the deed, which was ordered by the "kangaroo court" that rules the "dorm" was that the victims were officers of the court.

Herman Allen, Olaf Caskin and Dell Floyd were the undergraduates who suffered at the hands of their own tribunal, and they were punished because they conducted a dormitory dance at the gymnasium last Friday and did not provide any chaperone or patronesses.

Tacoma Organizing a Battery.
(United Press Leased Wire.)
Tacoma, Wash., Jan. 16.—Preliminary steps were taken at a meeting last night to organize a corps of artillery in Tacoma, the first of the kind in the state of Washington. Officers were elected and a recruiting commission appointed. Captain I. M. Howell was elected commander of the battery. The corps will have quarters in the new armory building to be erected this year.

An Official Marriage.
(United Press Leased Wire.)
Walla Walla, Wash., Jan. 16.—Miss Helen Brents, youngest daughter of Judge and Mrs. Thomas H. Brents, and Robert Ankeny, youngest son of Senator and Mrs. Levi Ankeny, were united in marriage at the home of the bride's parents last evening. The newly married couple left on the evening train for Portland.

Second Choice.
There is a Washington lad who, it would appear, assents to the old proposition that it is well to have more than one string to one's bow. The boy was being catechized one day by a well-meaning visitor to the house.
"Well, Harry," said the lady, "don't you think you have a chance to be President of the United States?"
"Oh, I don't know," answered Harry, carelessly. "Maybe I'll try for it after I get too old to be a pitcher."—Philadelphia Ledger.

Otherwise Occupied.
"Do you think the railroads realize their responsibilities?"
"Some of them don't," answered the offhand economist. "They are too busy improving their opportunities."—Washington Star.

Self-Supporting.
Lady (to blind beggar)—Where's the boy who used to lead you around, my poor man?
Beggar—Oh, he's gone into business on his own account.—Meggen-dorffer Blaetter.

THE OLDEST MAN IN AMERICA

Escaped the Terrors of Many Winters By Using Pe-ru-na.

"I Attribute my Extreme Old Age to the Use of Pe-ru-na."

Mr. Isaac Brock, 119 Years Old Last Birthday.

ISAAC BROCK, a citizen of McLennan county, Texas, has lived for 119 years. For many years he resided at Bosque Falls, eighteen miles west of Waco, but now lives with his son-in-law at Valley Mills, Texas.

Some time ago, by request, Uncle Isaac came to Waco and sat for his picture, holding in his hand a stick cut from the grave of General Andrew Jackson.

Mr. Brock is a dignified old gentleman, showing few signs of decrepitude. His family Bible is still preserved, and it shows that the date of his birth was written 119 years ago.

Born before the United States were formed.
Saw 22 presidents elected.
Pe-ru-na has protected him from all sudden changes.
Veteran of four wars.
Shod a horse when 99 years old.
Always conquered the grip with Pe-ru-na.
Witness in a land suit at the age of 110 years.
Believes Pe-ru-na the greatest remedy of the age for catarrhal troubles.

IN speaking of his good health and extreme old age, Mr. Brock says: "After a man has lived in the world as long as I have, he ought to have found out a great many things by experience. I think I have done so."

"One of the things I have found out to my entire satisfaction is the proper thing for ailments that are due directly to the effects of the climate. For 119 years I have withstood the changeable climate of the United States."

"I have always been a very healthy man, but, of course, subject to the affections which are due to sudden changes in the climate and temperature."

"As for Dr. Hartman's remedy, Pe-ru-na, I have found it to be the best, if not the only reliable remedy for these affections. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy."

"It exactly meets all my requirements. It protects me from the evil effects of sudden changes; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine."

"When epidemics of the grippe first began to make their appearance in this country I was a sufferer from this disease."

"I had several long sieges with the grip. At first I did not know that Pe-ru-na was a remedy for this disease. When I heard that the grippe was epidemic catarrh I tried Pe-ru-na for the grippe and found it to be just the thing."

In a later letter, Mr. Brock writes: "I am well and feeling as well as I have for years. I would not be without Peruna."

Yours truly,
Isaac Brock,

A letter dated July 3, 1906, written for Mr. Brock by his wife, Sarah J. Brock, states:

"Last winter I had just gotten up out of a spell of sickness, when I commenced taking Peruna. I think it improved my health very much."

In a postscript, Mrs. Brock adds: "He receives a great many letters inquiring about what Peruna will do. I do not answer them all, as I think they can get a bottle and try it."

Telling Tales.

The teacher was giving them a practice lesson in the art of conversation, and every little girl was expected to tell of some incident in her recent experience. In the class there was one bashful little girl who finally was induced to tell of an experience she had when the family were out riding:

"We were riding along, having a nice time," she said, "when we saw another horse and buggy coming very fast. And pretty soon the buggy ran into something and was upset, and all the people were thrown out. Then papa said: 'Good enough for them. I never liked those people very well anyhow.'"

There was a burst of laughter in the room, for everybody knew who the people in the accident were.—Columbus Dispatch.

Some people are descended from monkeys while others only seem to be.

Cast your bread upon the waters and watch the sea gulls get it.

Sun, Moon and Tides.

The sun and moon conjointly affect the oceans in obedience to the fact in nature known as the law of the attraction of gravity. It is the nature of things that the sun and moon shall pull at the earth's waters, and no further explanation can

be given. When the sun and moon are pulling in line the tides are highest and when pulling against each other the lowest. The moon is so much nearer the earth than the sun that it does most of the pulling, notwithstanding its greatly inferior dimensions.
