A Rich Poor Farm.

Providence has the richest poor farm in the world. The property on which the poor farm is located is worth \$2,000,000. The revenue from the property has increased to such an extent that the officials do not know what to do with it. Last year the receipts were \$900 in excess of the expenditures.

The city poor farm, called the Dexter asylum, in honor of Ebenezer Knight Dexter, who founded it with a substantial part of his possessions, was established in 1827. At that time Mr. Dexter gave the city 40 acres of land, and from a valuation of a few thousand this property with other land called the "Dexter donation," which he set aside to furnish an income from which the city

could draw for poor funds if necessary, has grown to \$3,000,000. The income averages about \$39,000 a year, and the poor farm has an average of about 100 inmates.

ALASKA MINERS UNION LOSES

(United Press Leased Wire.) Fairbanks, Alaska, Feb. 4.—After a fight which started on April 26 last year, and which has been prolonged ever since, the miners' union is about to face complete defeat, for the strike, which was ordered February 1 has been a dismal failure. What few men went out were quickly replaced.

Today the mine owners established a card system by which no union man employed in the mines can obtain employment. No union men will be given cards. Many of the men who were and are still strong advocates of the union condemn the officers for calling the strike, saying they won their point when the operators agreed to a scale of \$5 a day, board and lodging for eight hours.

Since it has been seen that the strike is a failure a number of operators who have shut down have declared their intention of opening up as soon as they can get enough men to make up a crew. The outlook now is that this district, with the labor troubles settled, will produce \$15,000,000.

NO REDUCTION IN LUMBER RATES

(United Press Leased Wire.) Seattle, Wash., Feb. 4.—The Northern lines will have no compromise to offer the lumbermen on the question of rates, and while President Louis W. Hill, of the Great Northern, and President Howard Elliot, of the Northern Pacific, will meet the conciliation committee, they declare that nothing can come of it.

"There is no money in hauling lumber at the old rate," said President Hill last night. "The lumbermen will find that they will have to pay a reasonable tariff. We shall be glad to meet with the committee of business men, but I believe it will be labor lost, so far as settling the question of freight rates on lumber."

"The lumber dealers of the East have put their prices down a little, and it is likely they will go down to some extent here. Everybody would be glad to see a resumption of business, but the railroads cannot afford to haul lumber at the old rate."

BEER PROMOTES TEMPERANCE

Recognized as a Food Product, and So Dealt With by the Government

It is being recognized the world over that the drinking of beer promotes temperance and sobriety to a far greater extent than all the prohibition laws on the statute books.

All enlightened European nations are encouraging the manufacture and consumption of light beers containing about three and one-half per cent alcohol, and the result has been most gratifying to all sincere lovers of temperance.

The United States government has taken a positive stand in this direction, the war department holding that the re-establishing of the army canteen for the sale of beer being an absolute necessity in the interest of temperance and sobriety.

Beer is today recognized as a "Food Product," and is so dealt with by the government.

All the great insurance companies have contradicted the lies that have been given currency through prohibition sources that the drinking of beer was a bar to securing insurance, and have lately published to the world at large the statement that those drinking beer moderately (not more than two quarts during twenty-four hours) were the very best of risks. The latest British life insurance reports show that the ratio of death rate among abstainers is thirty per cent greater than among moderate drinkers.

Beer is pure and wholesome, and the day is not far distant when it will be as much a part of the daily subsistence of every family as are milk, bread and other food necessities.

The beer brewed by the Salem Brewery Association is in every sense the very best that modern enterprise can produce. It speaks for itself and is its own best advertisement.
