

# Hair Help

If you cannot be handsome, be as handsome as you can. Every human being has a legal right to good looks. Know of anything that contributes more to it than a splendid head of hair? Ayer's Hair Vigor keeps the hair soft and smooth, makes it grow faster. Does not color the hair. J. C. Ayer & Co., Lowell, Mass.

# APPETITE OUR BEST GUIDE

If we turn to the low animals and observe how wisely and well their unvitiated appetites guide them we begin to see the point of the saying that "ignorance is bliss."—C. W. Saleeby, M. D., F. R. S. Edin., in London Mirror.

### \$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. Cheney & Co., Toledo, O.  
Sold by all druggists, 75c.  
Take Hall's Family Pills for constipation.

### TURKISH ANISEED PRODUCTION GROWING

Anise is a species of parsley with large, sweet-scented seeds. It is extensively cultivated throughout the empire of Turkey, but especially in the consular district of Smyrna.

The village of Tchesme, with the neighboring regions, produces large quantities of aniseed of fine quality. In the trade it is considered as ranking next to the Spanish article.

Formerly not more than 600 to 700 acres were given up to the cultivation of this plant, but since the destruction of grapevines by phylloxera this area has increased to over 1000 acres. The annual production of aniseed is at present about 600,000 pounds, against 350,000 pounds in 1903.

Sowing takes place generally in February and the seed is gathered in June. Exportations begin in July and continue until September. Seed is seldom to be had from the farmers in the course of the year, as merchants secure the whole crop immediately after the harvest.

The Tchesme aniseed is shipped principally to Constantinople, Smyrna and several large towns of the interior. It also finds a market in Bulgaria, Egypt and Greece, with France as an occasional buyer when the Spanish crop is small.

Aniseed is used in Turkey principally in the making of "raki," a kind of alcoholic drink very popular throughout the Levant, and which calls for about 7 per cent of seed. It is also used in Europe in the manufacture of absinthe and anisette.

### Skilled Mexican Labor.

A new light on Mexican labor was given yesterday when it was announced that a man with much experience in the handling of men of almost all nationalities had decided to take to South Africa a gang of Mexicans to work on a paving job. The contractor might have secured thousands of laborers much closed to his new field of work, and it would have been possible for him to have secured Oriental laborers at wages less than he will have to pay the Mexicans he is going to take across.

The men he will take to South Africa are men who have been in his employ engaged in laying asphalt paving for some time, and the contractor declares they do their work better than any men he has ever worked. This may be a shock to those men who are prone to deery the value of the Mexican laborer, but there are few men who come to Mexico who know how to handle Mexican laborers. This is a rather rare and valuable quality. Not every contractor knows this little secret. Too many men come to Mexico and attempt to drive the peon labor of Mexico like they would cattle. They usually fail. There is a way to get work out of all men, and the way to get it out of the lower classes of this country is not by driving, if the testimony of a few successful contractors is worth anything.

In cidentally, these men who are going to South Africa have been paid fair wages in this country, and will be paid in the same manner, in South Africa.

Not all Mexican laborers are worth good wages, nor are all Japanese or Chinese. There is a good deal in the selection of the material. It is doubtless true that the number of laborers in Mexico is not large enough to do the volume of work the country needs done, but is it not just possible that if a little judgment and some common sense were more frequently used one might hear less about the inefficiency of the labor at hand?—Mexican Record.

## MARKET REPORTS

### SALEM MARKET.

#### Local Wholesale Market.

Eggs—20c.  
Butter—37 1/2c; butter fat, 37 1/2c.  
Hens—10c; mixed chickens, 10 1/2c

# BEER PROMOTES TEMPERANCE

Recognized as a Food Product, and So Dealt With by the Government

It is being recognized the world over that the drinking of beer promotes temperance and sobriety to a far greater extent than all the prohibition laws on the statute books. All enlightened European nations are encouraging the manufacture and consumption of light beers containing about three and one-half per cent alcohol, and the result has been most gratifying to all sincere lovers of temperance. The United States government has taken a positive stand in this direction, the war department holding that the re-establishing of the army canteen for the sale of beer being an absolute necessity in the interest of temperance and sobriety. Beer is today recognized as a "Food Product," and is so dealt with by the government. All the great insurance companies have contradicted the lies that have been given currency through prohibition sources that the drinking of beer was a bar to securing insurance, and have been leading the world at large the statement that those who drank beer moderately (not more than two quarts during twenty-four hours) were the very best of risks. The latest British life insurance reports show that the ratio of death rate among abstainers is thirty per cent greater than among moderate drinkers. Beer is pure and wholesome, and the day is not far distant when it will be as much a part of the daily subsistence of every family as are milk, bread and other food necessities. The beer brewed by the Salem Brewery Association is in every sense the very best that modern enterprise can produce. It speaks for itself and is its own best advertisement.
