He was on his way down town from his home on Marion street, near Twentieth, and met a friend to whom he stopped to talk on Twentieth street. After talking a moment he reached for his watch, and, discovering that he had left it at home, remarked that he would go back and get it. He turned around and started for home, but had taken only a few steps when he sank down upon the car track and expired almost instantly. The body was taken to the home and there will remain until Saturday morning at 10 o'clock, at which time the funeral services will be held, and the body taken to Zena for interment.

COMING EVENT ON ROLLERS

SIX DAYS SKATING

SOME OF THE SPEEDIEST ONES ON THE COAST WILL ENTER—PROMISES TO BE OF INTENSE INTEREST TO ALL LOVERS OF THE LITTLE ROLLERS.

The roller skating enthusiasts of this city have arranged an event which will be new to the people of Salem. They have induced the management of the Auditorium roller rink to co-operate with them in putting on a six-day roller race, similar to one held in Portland last week. The Portland race was a great success, and one here at Salem should be just as exciting. This is a new sport on the Pacific coast, and is a severe test for the best trained men. All interested in roller skating should help to make this a great success.

The preliminary contests will be held Saturday evening for the purpose of selecting a team of six of the fastest skaters in Salem, who will then be started on their six-day contest Monday evening at 9 o'clock, each day of steady racing to consume 20 minutes, and at the finish of each day's race a record will be placed on file representing the distance covered by each contestant, and at the closing night of the race, February 22, the man who has to his credit the most distance will be accorded the first prize. The rink has put up valuable prizes for the first, second and third winners.

No one is barred from entering the preliminary with intentions of making good for the main event. Those wishing to enter may leave their names at the rink on or before Friday evening, February 14.

HANGED AND SHOT MUST NOW BE TRIED

Left swinging from the branch of a tree and with six bullet wounds in his head and body, Grover Franklin, a negro burglar, was cut down by Sheriff Butler in Dotham, Ala., and it is believed he will recover. The mob which lynched him scattered to the conviction the negro was dead, and it was not until fifteen minutes after Butler had severed the rope that a doctor discovered signs of life in his still form.

More than a hundred shots were fired at the man after he had been swung with his feet six feet from the ground, but in the excitement of the mob the great majority of the bullets went wide. There were 200 men in the lynching party, and all swore to kill Franklin.

They took him by main force from Butler and three deputies. Butler swore in about 20 citizens as deputies and pursued the mob so closely that a quick hanging was decided upon by the leaders of the gang of lynchers.

Franklin was tied hand and foot and strung upon a tree inside the corporation limits. One minute was given the negro for prayer, and he took the time in frenzied appeals for mercy. He denied the crime with which he was charged and shouted in terror when finally the noose was tightened around his neck.

He was very speedily drawn up by six men catching the end of the rope over the branch. They knotted the rope around the trunk of another tree, and when the mob was ready to scatter the firing began. Two of the bullets scored the side of the negro's head. The only serious wound is in the right lung.

Franklin is under the care of two physicians in the county jail. If he survives, he will have to stand trial on the charge of breaking into the store of A. C. Fwolk of Dotham.

The Money Leaked Out.
(United Press Leased Wire.)
San Francisco, Feb. 13.—The discovery was made this morning that \$3100 of the \$4000 in gold and silver recently found in the ruins of an old lodging house, and which was placed in the custody of the property clerk of the police department, has disappeared. No charges have been made, and no explanation of the disappearance has been offered.

SCHUEBEL TO BE RECESS APPOINTEE

JUST A HENEY JOB

PRESIDENT WILL APPOINT MR. TOWNSEND WHO WILL RESIGN WHEN CONGRESS ADJOURNS, AND SCHUEBEL WILL THEN BE APPOINTED.

Washington, Feb. 13.—In the hope of thwarting the senate in its intention to defeat President Roosevelt's wishes relative to the appointment of a United States district attorney of Oregon, Francis J. Heney has decided upon a plan which he thinks will have a wonderful effect.

Report has it that the President has placed his stamp of approval upon the scheme, which, if carried out successfully, will be a very pleasing victory for Senator Bourne, one of the President's most ardent admirers.

Heney practically is acting government attorney at Portland. The President turned down a candidate recommended by Senator Fulton and the two Oregon congressmen and nominated Chris Schuebel, who is backed by Bourne, but Fulton made a fight on Schuebel, and Bourne weakened, so his name is to be withdrawn. The delegation recently got together and recommended T. J. Cleeton, of Portland.

B. T. Townsend, assistant district attorney of North Dakota, has been working on the Southern Pacific land grant cases in Oregon by detail of the President, and has met Heney there.

Heney has recommended to the President that Cleeton be turned down, notwithstanding the fact that the entire delegation has recommended him. Heney recommends that Townsend be appointed to serve ad interim, thus relieving Bristol. The ad interim appointment can be made by the federal judge, and it is understood here that Judge Wolverton stands ready to appoint Townsend. The ad interim appointment can run along until the senate adjourns, and then the President will be able to put Schuebel in as a recess appointee.

UNIONS MUST STAND FIRM.

(United Press Leased Wire.)
Los Angeles, Cal., Feb. 13.—John B. Lomon, of Milwaukee, treasurer of the American Federation of Labor, and one of the most prominent workers in the trade unionist movements, addressing an audience of union men here, said:

"There is greater need for organization than ever before. Should the new immigration act concerning the Japanese, which is under discussion at the present time in Washington, fall through, it will mean a fatal blow to the trades unionist movement on the Pacific coast, if the labor organizations in the various cities are not on a solid basis and ready to meet the condition. The ordinary American workmen are unable to compete with the growing influx of Asiatic workers, who will do work on starvation wages. The labor unions of this city, San Francisco and the Puget Sound district are facing one of the greatest problems in the history of the labor union move-

ment, but if there is thorough organization the unions will be able to maintain their standard of and hours of employment."
