

Nervous women should profit by Mrs. Barton's experience with Lydia E. Pinkham's Compound.

Mrs. Helen Barton, of 27 Pearson Street, Chicago, Ill., writes to Mrs. Pinkham:

"I was all run-down, and on the verge of nervous prostration from overwork and worry, and ill in bed, when I began taking Lydia E. Pinkham's Vegetable Compound. After I had taken it a week I commenced to get better. I continued its use, my nervous trouble disappeared, and I am completely restored to health. I hope Lydia E. Pinkham's Vegetable Compound will benefit other women as it has me."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

officials. The ordinance provides for a separate set of books for the city and for the inspection and direction by the city of the company's accounting and construction." During the last year 31,847 telephones were added to the Chicago system, bringing the total in the system up to 202,681. The company's surplus was increased by \$4,036,603, a sum that during ten years had been charged off in excess of depreciation, bringing the total investment in Chicago's telephone system up to \$24,324,112 with other property and cash that made a total of \$28,413,437. Against this investment the company has issued on bonds, and stock amounting to but \$16,908,500—quite a unique fact these days in financing.

Here in Chicago the stealthy approach of "gentle springtime" has been proclaimed by the discovery of a robin or robins. At this date there have been three discoveries, and therefore suburban residents are arguing whether there were three robins or just one thrice discovered. One discovered was in a park in the heart of the city and the discoverer, being city bred, was not certain whether the bird he saw was a robin or a hummingbird. It was a moment of dramatic suspense. He called to another man, by name Raven, and pointed upward.

"Huh, nothin' but a robin," commented Raven, who ought to know the names of birdland. That settled it; it was a harbinger of spring, harbinger. The weather now is expected to change to true wintry chill, for as yet Chicago has had only 24 hours of real winter.

Over 100 of the 5-cent theaters of Chicago have closed their doors because of the advance in the price of films—a little matter of 100 per cent—for the moving pictures machines. These nickle theaters have spread about Chicago like lights in the city at dusk but it is commonly reported that the film manufacturers have effected a combination strong enough to double their prices at one coup. The marvelous "cinematograph," "mutoscope," "biroscope," "kinodrome," and other devices have sprung into sudden popularity and disrepute according to the character of their moving pictures, some of which have been summarily suppressed because the patrons of the nickle theaters are largely children. Showmen made sudden fortunes from the inventions but there soon will be several hundred of them in this city, as in all the big cities, who will sadly survey their gilded entrances, their iron clad leases and their idle equipment and sigh for the days, and nights, of crowded houses.
