

MOVING! MOVING!! MOVING!!

Moving the stock of the Plymouth Clothing Store, 388 State Street, has been an easy task at the unprecedented low prices. Nothing ever like it in Salem before. From the tap of the bell at 9:30 Monday morning up to the present time, it has been one continual rush and scramble for goods. We can very safely say that never, in the history of the northwest, has so much clothing been sold, by any one store, in the same time. **THE REASON IS PLAIN.**

WE ARE SELLING GOODS CHEAPER THAN THEY WERE EVER SOLD BEFORE

The success of the sale so far, encourages us to make still greater efforts for the last seven days, at which time this remarkable sale positively closes. Commencing Saturday morning, February 22nd, and continuing until February 29th **EVERYTHING WILL GO AT A SACRIFICE.** Some new surprises for you every day. If you have not been in don't fail to come during the next week or your neighbor, who does come, Will Get His Suit For Half the Price You Will Pay For Yours After This Sale Is Over.

BANK SUSPENDS TEMPORARILY

(United Press Leased Wire.)

San Francisco, Feb. 21.—Inability to accumulate a cash fund sufficient to meet all immediate demands without causing injury to its borrowers, the Market Street Bank, a savings and commercial institution, temporarily suspended payment this morning.

Published reports of the bank's embarrassment, the immediate cause of which was its cash shortage, bringing about an announcement by the Union Trust Company, through which the bank cleared, that it could no longer act, brought 250 depositors to the bank long before the usual hour of opening. When the time for opening arrived, and the doors remained closed and the shades down, the depositors' anxiety increased, and it was not lessened when the following notice was posted on the door:

"On account of the difficulty in making collections without working great hardship on numerous borrowers, who would thereby lose their homes, we have decided to suspend further payment of depositors until a sufficient cash fund has been accumulated to meet all requirements safely. The bank is absolutely solvent, and every depositor will be paid in full. Market Street Bank, A. H. Martel, president."

COMMITTEE IS ALSO

SUBMARINE KIND.

(United Press Leased Wire.)

Washington, Feb. 21.—Representative Lilley, of Connecticut, a member of the committee on naval affairs, has introduced in the house a resolution calling for the appointment of a committee of five members to inquire into the conduct of the Electric Boat Company of New Jersey (Holland submarine).

It is virtually charged that a majority of the members of the naval affairs committee are the servants of this company, and thereby receive the scandal started when Montague Lueder, a representative from New York, accused Philip Dobbie, in 1893, of having tried to bribe him in the interest of the same concern.

Lilley charges that many members of the committee are no more than "quote his words, 'so many traveling salesmen' for the Holland company.

Americans Still Lead.

(United Press Leased Wire.)

Chicago, Feb. 21.—"Monte" Roberts, the American, who is leading in the New York-to-Paris automobile race, made 12 miles in the last 24 hours through snow-plied Indiana roads. He arrived at Ligonier, Ind., about noon today. It is doubtful if he will reach Chicago before Monday. The Dedon car is still at Ken-fallville, Ind., with a broken shaft.

TWO HUNDRED MEN LAID OFF TEMPORARILY.

(United Press Leased Wire.)

Sacramento, Cal., Feb. 21.—Two hundred men in the motive department of the Southern Pacific shops here were laid off today in line with the general Harriman policy of retrenchment on the Western roads, on account of slack business. Married men are given the preference. It is announced that the men will probably be re-employed before summer, when the heavy freight business again sets in.

CHILDREN ASK FOR NATIONAL REDWOOD PARK

(United Press Leased Wire.)

Washington, Feb. 21.—One of the most unique petitions ever sent to Uncle Sam is the one which has just been received here by the forest service from nearly 1400 school children of Eureka, Cal., who ask for the establishment of a Redwood national park.

Government foresters who are acquainted with this section of California say the children give good reasons for the establishment of the national park.

FLEET WILL ARRIVE ABOUT MAY 10.

(United Press Leased Wire.)

Washington, Feb. 21.—It was said at the navy department today that the battleship fleet would not reach San Francisco by May 1, the date set originally for its arrival there, but would be delayed in making the California port until May 10, and possibly May 15.

The aramada will not get to Magdalena bay by March 14, the date called for in its itinerary. About a month will be spent at target practice there, and stops will be made at San Diego and Los Angeles.

The fleet is two days behind schedule, and it is expected to experience more delays.

Preparing Another Message.

(United Press Leased Wire.)

Washington, Feb. 21.—President Roosevelt is said to be preparing another message to be submitted to congress, this one dealing with the report of the Inland Waterways Commission, which was given to the president a few days ago.

The recommendations made in the report are of a rather radical character, it is said, and the President would not accept them without giving the matter careful study. The subject was discussed by the commerce committee, the legality of the plans being the principal question under consideration. The contents of the report have not been made public.

Will Burn Oil.

Washington, Feb. 21.—The Isthmian canal commission is about to substitute fuel oil for coal in its various machine shops and power houses, and, wherever practicable, under its stationary boilers throughout the zone.

LEGACY REACHED HIM IN JAIL.

(United Press Leased Wire.)

Los Angeles, Cal., Feb. 21.—While serving a sentence of 150 days in the city jail for petty larceny, William Allen, aged 28 years, received word Thursday of his mother's death in New York City, and that he had been bequeathed an estate valued at \$15,000. A telegram was sent to the administrator of the estate, asking him to forward the money so that Allen could leave immediately for New York. Allen was arrested on the charge of entering offices in the Bradbury building and stealing postage stamps and money.

WORM INFESTS CALIFORNIA CROP.

(United Press Leased Wire.)

Berkeley, Cal., Feb. 21.—The department of agriculture at the State University has received for the past two months reports from various parts of the state of the devastation wrought by a certain worm, which has eaten the grass and grain roots. Damage has been reported from as far north as Marysville to Mariposa on the south, and from the San Joaquin and Sacramento valleys to a considerable distance into the foothills.

The worm seems to take the roots of the growing grain and grass and utterly destroys the crop. Experts at the University have been in the field for some time studying the problems that represent the worst of the damage already been done, and things are on the mend. The worm is the larvae of the crane fly. They are at this time practically full grown, and before long will become flies, and the damage for this season will be over.

The crane fly appears to be peculiar to this locality, and has occurred before. It never has shown itself in such large numbers as this year, and there is a strong prospect that it will not recur again next year, as it has for the last three months.

There seems to be no remedy for the pest, and untold damage has been wrought thereby.

MORE LABOR TROUBLES IN SAN FRANCISCO.

(United Press Leased Wire.)

San Francisco, Feb. 21.—The marine engineers' and ship owners' controversy was further complicated this morning by the locking out of the lumber handlers employed in the Pacific Lumber Company's yards, 50 men being affected. The lumbermen's union was notified Thursday that, beginning Friday morning, the wage scale would be \$4 a day instead of \$4.50 as heretofore.

The building trades' council last night ordered the union to oppose any reduction.

For Rheumatic Sufferers.

The quick relief from pain afforded by applying Chamberlain's Pain Balm makes it a favorite with sufferers from rheumatism, sciatica, lame back, lumbago, and deep seated and muscular pains. For sale at Dr. Stone's drug store.

WHEAT RAISED IN THE ARCTIC REGIONS.

(St. Louis Globe-Democrat.)

Where are the prophets who, not much over a century ago, predicted that wheat would never be raised in paying quantities west of the western boundary of Ohio? Where are the experts who, less than a third of a century ago, said that wheat could never be grown, except in infinitesimal quantities, north of the United States' northerly line? And there were many of each class of doubters. But they have vanished like the snows of yester year.

A barrel of flour manufactured in a mill up in the Peace river country, from wheat grown on the spot, has just reached Winnipeg. The place where it was grown is 650 miles west of Hudson's bay and, in bee line, is 700 miles north of the United States boundary. It is only 400 miles south of the Arctic Circle. In the neighborhood of 90,000,000 bushels of wheat were raised in Canada in 1907, where, in the lifetime of thousands of persons who are still in the middle age, it was thought that 10,000,000 bushels, or even 5,000,000 bushels, could never be grown in any season. There are persons connected with the Hudson Bay company today who remember the time when the prospect of ever being able to raise wheat up in Manitoba would have frightened the official of that big monopoly. Wheat growers would have been about the last persons the Hudson Bay people would have wanted to see. Those fur traders were anxious to keep farmers out, so as to allow the beavers, the buffaloes and the rest of the fur-bearing animals a whole empire in which to roam and multiply.

NOT GUILTY OF SELLING BEER.

(United Press Leased Wire.)

The second trial of P. C. Anderson charged with the sale of a dozen bottles of beer to Chas. A. Curran on September 26, 1907, was had today. Deputy District Attorney Gale S. Hale appearing for the state and J. R. Wyatt and P. R. Kelly for the defendant.

The witnesses for the state were H. D. Mitchell, W. L. Passen and Sheriff Smith; for the defendant, the defendant and C. A. Curran the former swearing to the sale, the latter denying it.

A new feature in the trial was the introduction of the certificate of the internal revenue collector of Portland, showing the receipt of \$25 government tax for the sale of liquor from July 1, 1907 to June 30, 1908, which Justice Porter charged reading the statute, was prima facie evidence of guilt.

The jury paid a visit to the wig-wam during the trial to make an examination of the distances reported in the evidence.

The case was submitted without argument at 11 o'clock.

After being out less than an hour the jury brought in a verdict of not guilty.

The next trial will be that of Burkhardt & Lee, the jury in the case heretofore disagreeing. The trial is set for Friday.—Albany Democrat.

Will Survey Locks Again.

(United Press Leased Wire.)

Washington, Feb. 21.—The senate this afternoon passed a resolution introduced by Senator Fulton, of Oregon, providing for a government survey of the Willamette canal and the falls in Oregon.

Roasts Police Force.
 (United Press Leased Wire.)
 San Francisco, Feb. 21.—Chinatown police squad was to pieces this morning by District Attorney Langdon in Judge Coe court. He charged the men actively with being a band of thieves and declared that the squad should be torn out root and branch.

Stole the Family Stovepipe.
 Medford comes to the front in the prize story of the month. Tribune tells of a thief stealing stovepipe from the kitchen stove of a boarding house in that city. Landlady heard the marauder, by great good luck ran across. The jarcentist was so badly frightened he dropped the family stovepipe and fled. Breakfast was time.

Pupils on a Strike.
 Medford has a small strike rather unusual character on hands. The school directors, seems, discharged Professor Shil and his pupils refuse to attend school until he is reinstated. They are circulating petitions asking his reinstatement, and are in a fair way to get their demands granted.

Tale of the Suburbs.
 "You don't have many visitors here," said Citiman, "do you?"
 "Oh yes," replied Subbubs, "and going nearly every day."
 "Mostly women, I suppose."
 "Yes; servant girls."—Philadelphia Press.
