

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

La Grippe is Epidemic Catarrh.

THE disease now known as 'grip' used to be called 'influenza.' It very closely resembles a cold, but is more tenacious in its hold upon the system and produces more profound disturbances.

Grip is in reality epidemic catarrh. When it once begins it spreads over the country very rapidly.

People do not catch the grip from each other, but each one catches it from the atmosphere.

"Most Effective Medicine Ever Tried for La Grippe."

Robt. L. Madison, A. M., Principal of Collowhee High School, Painter, N. C., is chairman of the Jackson County Board of Education.

He is a writer of occasional verse and has contributed to a number of leading papers and magazines,—religious, educational and secular.

In speaking of Peruna, Mr. Madison says:

"I am hardly ever without Peruna in my home. It is the most effective medicine that I have ever tried for la grippe."

"It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils."

"In consequence, an inflamed condition of the throat was brought about, getting worse and worse and yielding to no remedy until Peruna was tried."

Healthy Mucous Membranes.

Those who are fortunate enough to have perfectly healthy mucous membranes ordinarily do not catch the grip.

The mucous membranes lining the nose, throat and lungs, when in a normal state, are an effectual barrier against the invasion of grip.

But, if there happens to be the slightest catarrhal derangement of the mucous membrane, then the victim becomes an easier prey to the grip.

This in part explains why some people get the grip, while others do not.

The rational thing to do is to keep the system free from catarrh. In attempting to do this most people have found Peruna to be invaluable.

Systemic Catarrh, the Result of La Grippe. Pe-ru-na Receives Credit for Present Good Health.

Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., formerly Housekeeper for Indiana Reform School for Boys, writes:

"Six years ago I had la grippe, which was followed by systemic catarrh."

"The only thing I used was Peruna and Manalin, and I have been in better health the last three years than for years before."

"I give Peruna all the credit for my good health."

The Medical Profession Recognizes The Grip as Epidemic Catarrh.

During an epidemic of grip Peruna should be used. The doses recommended on the bottle are sufficient.

After the grip has once been acquired, Dr. Hartman recommends the use of Peruna in teaspoonful doses every hour during the acute stage, after which the directions on the bottle should be followed.

Experience has shown that the people who use Peruna as a remedy for grip generally recover sooner and are less liable to the distressing and long-continued after-effects of the grip.

When Peruna has not been used during the course of the grip and the patient finds himself suffering from the after-effects of this disease, a course of Peruna should be resorted to.

Suffered Twelve Years From After-Effects of La Grippe.

Mr. Victor Patience, 232 Madison St., Topeka, Kan., member of Knights and Ladies of Security, writes:

"Twelve years ago I had a severe attack of la grippe and I never really recovered my health and strength—but grew weaker every year, until I was unable to work."

"Two years ago I began using Peruna and it built up my strength so that in a couple of months I was able to go to work again."

"This winter I had another attack of la grippe, but Peruna soon drove it out of my system. My wife and I consider Peruna a household remedy."

Pneumonia Followed La Grippe.

Mr. T. Barnecott, West Aylmer, Ontario, Can., writes:

"Last winter I was ill with pneumonia after having la grippe. I took Peruna for two months, when I became quite well, and I can say that any one can be cured by it in a reasonable time at little expense."

Pe-ru-na—A Tonic After La Grippe.

Mrs. Chas. E. Wells, Sr., Delaware, Ohio, writes: "After a severe attack of la grippe, I took Peruna and found it a very good tonic."

Mrs. Jane Gift, Athens, Ohio, writes:

"Six years ago I had la grippe very bad. I read a testimonial of a woman who had been cured of grip by Peruna. My husband bought me a bottle of Peruna. I was soon able to do my work. I continued using it until I was cured."

or cripple its chief educational institution of learning. Not only would such action work an injury to the people directly affected, but it would do incredible harm to the state beyond its borders. Progressive American people who are looking for new homes in the Pacific northwest would shun a state that has put such a blight upon its future.

Not only will these farmers who propose to invoke the referendum in this instance harm the state in the estimation of the people outside of its border, but they will cast odium upon farmers generally. Agriculture is reaping more benefits today from higher education than any of the trades, mechanics or commercial interests. If the farmers of Oregon don't know this, they should study a little. They should keep abreast of the other states, and then they would be enthusiastic advocates of higher education and willing to pay reasonably well to sustain it.

Fogle & Hicks, the new publishers of the Independence Enterprise, are throwing a great deal of life into that sheet. In an editorial on the university appropriation the Enterprise comments as follows:

"In another column we have given space to an editorial from the Moscow, Idaho, Journal. This space is given at the request of the alumni association of the university. We are in favor of higher education and have always done all that we could consistently to aid in its advancement, but the parties who have called the referendum have done so in good faith so far as the editor of this paper knows and it was done to prevent the indiscriminate appropriation of the people's money. In any event the university should be supported in as liberal a manner as is consistent with the growth of the state, but we are of the opinion that it is becoming too much of a rich man's school and should be taken down a notch or two until it reaches the level of the common people. Those who are able to send their children to college and pay for it should do so at private institutions and not sponge off of the people who can ill afford to indulge in luxuries. If there is to be extraordinary expenditures of public funds for educational institutions, we would suggest that the larger part of it be expended in giving to all the children

in the state a high school education in the district schools and in the county high schools of the state. These schools can be reached by all the children and it will not be necessary for them to go to Eugene and pay for rooms and board and take out memberships in a half dozen college societies which, like a vermin appendix are useless. There are other deserving schools in the state that need state aid just as much as the university and we believe that when matters adjust themselves rightly they will all be supported as they should.

MARION COUNTY PROHIBITION

To Create Two Groups of Districts That Are to Be Made Dry Besides the County.

The Good Citizenship league has begun its active campaign for local option at the coming election. Plans are being perfected for the forming of two districts, each containing about five precincts. The first of these districts will include Turner, Jefferson, Stayton Suburbanity and one of two other precincts. District No. 2 will be made up principally of Silverton, North Silverton and Scotts Mills.

In addition to the above arrangements a petition is being circulated to include the whole of Marion county to be voted upon when prohibition is brought up at the election. Sunday, March 8, has been set aside as "anti-saloon league day" and on that date seven meetings will be held in the churches and other public places for considering methods for furthering the anti-saloon crusade.

Today there is a second direct primary to determine some nominations that were not made on the first vote. Those crazy people demand that sometimes be the choice of a majority of the party.

TO BOOST TEDDY AND BUST TAFT

DESIGN OF BOURNE

JUNIOR OREGON SENATOR OPENS ONE OF HIS OLD-FASHIONED CAMPAIGNS IN THE INTEREST OF A SECOND ELECTIVE TERM FOR ROOSEVELT—IS A MAN OF EARNEST CONVICTIONS.

(United Press Leased Wire.)

Washington, Feb. 26.—Senator Bourne, on his own responsibility, and without the sanction of the President, is preparing to open an elaborate press bureau in Washington "to boost Roosevelt and bust Taft." He proposes to send broadcast over the country daily letters accompanied by cartoons, telling the dear people why they should demand Mr. Roosevelt's renomination and why, above all else, they should never permit the nomination of Mr. Taft.

Since he began his clamor for Mr. Roosevelt's renomination, Mr. Bourne has spent considerable money, but his latest propaganda will be far more expensive than anything he has heretofore undertaken. His other schemes have come to naught, and this is his last hope of turning the tide towards Mr. Roosevelt. Mr. Bourne's bureau will begin operations as soon as he can secure the services of an experienced newspaper man and cartoonist.

New Corporations.

Columbia Land Company; principal office, Portland, Oregon; capital stock, \$50,000; incorporators, Henry W. Coe, R. R. Wood and L. O'Conner.

Pilot Rock Publishing Company; principal office, Pilot Rock, Oregon; capital stock \$1000; incorporators, E. E. Parker, G. T. Mansfield, C. L. Newcomb, A. F. Michael, Knotts Bros., Al. Acton, A. F. Huffman, Julius F. Wenger, J. M. Royer, John Bradburn, J. D. Royer, J. N. Roori, W. C. Shields, Jack Huston and Henry Harrison.

The Lakeview Flour Mills; principal office, Lakeview, Oregon; capital stock, \$15,000; incorporators, Dick J. Wilcox, C. E. Sherlock and P. O. Bunting.

DOWNWARD COURSE.

Fast Being Realized by Salem People.

A little backache at first. Daily increasing until the back is lame and weak.

Urinary disorders quickly follow. Diabetes and finally Bright's disease.

This is the downward course of kidney ills.

Don't take this course. Follow the advice of a Salem citizen.

N. S. Williams, of 229 Liberty st. Salem, Ore., says: "A number of years ago the doctors told me my kidneys were in bad shape. I came west on account of the trouble, thinking the change of climate would help me, but nothing I did gave me relief in spite of the use of remedies and medical treatment. On procuring Doan's Kidney Pills I found them the best medicine I ever used. At that time I got them I was suffering from an intense burning sensation as if two live coals were placed directly over the kidneys. After using two boxes of Doan's Kidney Pills, I did not have the least pain in my back or trouble with the kidneys. I give all credit to Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

An encampment of Odd Fellows has been organized at Springfield with 42 charter members.

How It Spreads.

The first package of Dr. Leonard's Hem-Roid that was put out went to a small town in Nebraska.

It cured a case of Piles that was considered hopeless.

The news spread and the demand prompted Dr. J. S. Leonard, of Lincoln, Neb., the discoverer, to prepare it for general use. Now it is being sent to all parts of the world.

It will cure any case of Piles. Sold for 1.00, with absolute guarantee.

Dr. Leonard Co., Niagara Falls, N. Y., Proprietors. Sold by Dr. S. C. Stone, Salem.

CHECKING HOLY ROLLERS

In Their Efforts to Build a New Church at Bellingham, Wash.

(United Press Leased Wire.)

Bellingham, Wash., Feb. 26.—If the people in the neighborhood of Nineteenth and Mill streets, in South Bellingham, can prevent it the Holy Rollers will never build the church which they propose to erect.

The community is up in arms against the establishment of what it is believed will become a nuisance. Legal counsel has been employed to determine on what grounds the erection of the church at that spot can be prevented. Should the Holy Rollers begin putting up the building efforts likely will be made to secure an injunction from the courts.

The sect is to be attacked on the grounds that it is an alleged nuisance. But precisely how to bring the case is a difficulty. A church in, and of itself, in the opinion of attorneys, cannot be classed as a nuisance, but the conduct of the congregation may become so violent that the peace of the community is continually disturbed. As the principal part of the Holy Roller service is a series of violent groanings and yellings, which in every place they congregate destroys the peace for several hundred feet in the vicinity, the people in the thickly settled neighborhood of Nineteenth and Mill streets will, if possible, prevent the erection of the proposed church.

PECULIAR WILL OF FARMER JOHN WADE.

Walla Walla, Wash., Feb. 26.—John Wade, who committed suicide at his home in Touchet Saturday by shooting, left one of the most peculiar wills ever found here. It was drawn up and signed just prior to the man's act of self-destruction.

Among its provisions are: That his teeth go to Dr. B. E. York, a local dentist, his pipe and smoking tobacco are left to John Storm, a neighbor; his eye glasses, watch and testament to his son, Oliver Wade, and his ranch to Mrs. Charles Reser, of this city.

KEY WORKERS IN FOR A BIG CUT.

Butte, Mont., Feb. 26.—The management of the Northern Pacific R. has notified all the telegraphers employed on the system that their wages will be reduced from \$5 to \$10 a month. In all probability it means a strike of these men.

Telegraphers are now voting on the question of accepting or rejecting the reduction. The cut in wages is due directly to the new federal nine hour law which goes into effect March 1. The Northern Pacific like every railroad in the country will be forced to employ many new operators.

Old California Rhymer.

Los Angeles, Cal., Feb. 26.—of the last links which binds California to the old was the death of Senora Felix de Romero. She was the last, if not actually the oldest Spanish aristocrat.

The early days of the last held court in the new world sounded by their retainers in sala, and maintaining the which they knew in the old Spain.

Senora Romero was born Angeles in 1809. Her father of the wealthiest of the Spanish owners, while 20 years ago Romero herself was rated the thickest woman in the south of the state.

Old age was the cause of death.

That when you phone at 211 it will be filled as well. M. Lawrence, the reliable corner of Commercial and streets.

ALUMNI PUSH FOR COLLEGE

Moscow Idaho Paper Scores Oregon Farmers — Independence Paper Takes Up For Them.

Considerable interest is felt in Idaho concerning the proposed effort says the Moscow Evening Journal, by some of the farmers in the Willamette valley of Oregon to invoke the referendum against the appropriation made by the last legislature of the state in support of the state university at Eugene. The support of this educational institution has heretofore been fixed at \$41,000 per annum. The new act raises the sum to \$125,000 per year, and it is against this increase that these grangers are making their objection.

It is to be hoped for the sake of the higher education in Oregon and for the good name of the farming community everywhere that this plan, intended to at least defer this appropriation and possibly defeat it entirely, will not be carried out. Oregon needs the state university and her people are abundantly able to support it up to the point of effectiveness where it can accomplish something, and its service will be worth much more than what they cost. In these times when higher education is a requisite for a successful career it would be a great mistake for any state to dispense with

WHY DON'T YOU TRY THE BITTERS

and let it prove conclusively its wonderful ability to cure Stomach, Liver, Kidney or Bowel disorders? You'll be surprised and wonder why you did not try it sooner. Thousands of others have been cured during the past 24 years. Therefore get a bottle of the famous

HOSTETTER'S STOMACH BITTERS

today it cures Poor Appetite, Headache, Flatulency, Dyspepsia, Indigestion, Colic, Grippe and Kidney Ills.
