EFFORT TO SAVE MEXICAN

(United Press Leased Wire.) Los Angeles, Cal., Feb. 28.—An effort is under way here to save Antonio Feliz, sentenced by a Mexican court to be shot on the charge of kidnaping a countryman on Mexican soil, and bring him to Los Angeles for trial for murder. Feliz has taken an appeal to the supreme court of Mexico, and friends are trying to secure testimony to present to the court which may have bearing on the case. Attorney Appel will send a transcript of such parts of the trial of Juan Antonio Pueblo before Judge Smith in the superior court as bear upon the case of Feliz to Mexico.

Pueblo, who was convicted of the murder of Manuel Marcus in Santa Monica in 1898, was sentenced to San Quentin prison for life, and died there before his captor in Mexico had been tried for kidnaping.

\$25,000 DROPPED AT FARO

(United Press Leased Wire.) New York, Feb. 28.—Gambling circles are much interested and encouraged by the news that a wealthy coal operator from West Virginia has just dropped \$25,000 at one sitting in a faro game. For 24 hours he bucked the game until all his cash and checks were gone.

Starting in at night, the West Virginian had a streak of luck, but only raked in small amounts. Presently he began to plunge. Luck turned against him, but he remained at the game until \$25,000 represented his loss.

In the twenty-fourth hour he discovered that his supply of money was exhausted, and his checks were gone. Then he was forced to quit.

FARMER KILLED IN QUARREL

(United Press Leased Wire.) Spokane, Wash., Feb. 28.—Frank Sherman, a farmer living about four miles from Othello, Adams county, was killed yesterday morning by E. A. Sperling who, with his wife, lived with Sherman.

H. W. Krause, a business man of Othello, says that he and Dr. Judah, railroad surgeon, went to the Sherman in response to a call. They found Sherman lying on the ground in a pool of blood between the house and stable. Sperling said that he and his wife had been quarreling and that he had left the house taking the shotgun, intending to kill himself. Sherman, who was in the stable, came out and tried to take the gun away from him. In the struggle, Sperling says, the weapon was discharged and Sherman was killed.

SHINGLE FACTORIES WILL NOT CLOSE.

(United Press Leased Wire.) Seattle, Wash., Feb. 28.—At a mass meeting of the shingle manufacturers held in the Elks lodge room yesterday evening, the advocates of continued manufacture by the mills practically secured a victory over those urging a complete close-down until the middle of April. After a spirited discussion between the advocates of the two lines of policy the matter was finally compromised by the appointment of a committee of three who are empowered to call another mass meeting whenever they deem it wise.

MURDERED AND LAID ON THE TRACK

(United Press Leased Wire.) Butte, Mont., Feb. 28.—A murder mystery has been brought to the light in the finding of the body of William Rodgely on the track near Dillon. The motive of the crime was evidently robbery, as \$700 which Rodgely is known to have carried, is missing. The head was crushed to a pulp.

It is supposed the body was placed on the track to make it appear that Rodgely had been run over by a train.

(United Press Leased Wire.) Stockton, Cal., Feb. 28.—Joseph Ford, the gambler, who was shot in a quarrel at the gaming table in Tracy last night by J. L. Hutchinson, died this morning in the local Emergency hospital. Hutchinson has been locked up in the local jail on a charge of murder.

The shooting occurred in the club room at the Traft Hotel. During the game it is said that Hutchinson became very abusive, and when Ford took him to task for his words, Hutchinson drew a revolver and fired three shots at him. The injured man and the prisoner were brought to this city.

ROBBERS FOILED BY A WOMAN

(United Press Leased Wire.) Los Angeles, Cal., Feb. 28.—That the vaults of the Hollywood National Bank and Hollywood postoffice were not blown open Wednesday night and looted of their contents of thousands of dollars in money and valuables is entirely due to the work of a volunteer woman detective.

On information furnished by the woman, three men have been arrested and lodged in the city jail. They are Ralph McCabe, D. H. Hall and Charles Brown. All were heavily armed with the latest pattern high-power automatic pistols, and each was equipped with a mask and complete holdup outfit. The plans of the trio were cleverly laid, the police say, and it is further stated that detectives working upon the case have material evidence in hand.

The first information the police had concerning the alleged plot was Tuesday night, when a woman living in a rooming house on East Fifth street said she had overheard the men discussing their plans at that place.

According to the police, the woman informant said that she furnished the information concerning the proposed robbery because her sweetheart had become implicated in the burglars' plans.

BOB SAYS REVISE TARIFF

(Continued from First Page.)

gram he forwarded today to Frank Harrison, his Nebraska manager.

"Not revision up, but revision down," says the Wisconsin statesman in the message. "Whenever a monopoly prevents competition, tariff should be lowered to the difference in the cost of labor. Whenever the cost of labor required to produce raw materials in this country is not greater than the same labor in other countries the monopoly-controlled article should be placed on the free list."

Senator La Follette also suggests the appointment of a permanent tariff commission.

WHEAT MARKET FIRMER

(United Press Leased Wire.)

Chicago, Feb. 28.—Liverpool wheat market responded with higher cables, totalling 2½ pence to rise in American wheat yesterday. Chicago opened ½ higher, the May option selling to 99½¢. This figure proved to be the best for the day, however, as considerable profit-taking and falling off in the demand caused a moderate reaction, May closing at 97½¢ and July 92½¢.

New York, Feb. 28.—Stocks opened strong on the exchange this morning, several individual issues making satisfactory gains, among which was a two-point gain in sugar, and 1½ points in St. Paul, Northern Pacific and smelter. After the first hour, the market lapsed into its usual dead state, and no attempts were made to relieve its neglected condition. Speculative interest continued to decline until the midday hour, and there were gaps of seconds and even minutes between quotations. All stocks fared alike. There was no point of special interest. The close was dull and irregular.

WOMAN SUFFRAGE SUFFERS

New York, Feb. 28.—Instead of receiving the attention of a sympathetic gathering, several suffragettes were bombarded with wet sponges and rolls of brokers' tape, when they attempted to interest Wall street in their arguments.

In the carriage drove up in front of the stock exchange were Mrs. Berrman Wells, the English suffragette; Miss Elinor Murphy and other well-known women are fighting for the cause of woman suffrage. One of them had just started to speak from the carriage when the bombardment, directed by a few messenger boys, began. The suffragettes drove away with their feelings very much injured.

FORTY MINERS KILLED

Sabinas, Mex., Feb. 21.—Forty miners were killed outright today, and 200 were entombed by an explosion of firedamp in the mines of the Monterey Steel Company at La Rosita, ten miles from here.

Strong gasses are retarding the work of rescue, and it is feared none of the imprisoned men will be taken out alive. Mexican officials are directing the rescuers, but very little progress is being made. Several parties who entered were forced to come out again or be overcome by the fumes. The mine employed 250 Japanese and Mexicans.

MISUNDERSTANDING AT THE ELITE CAFE.

The reported difficulty at the Elite Cafe between a waiter and one of Salem's hop buyers grew out of a misunderstanding over the condition of some eggs that were served hop buyer. The proprietors say the whole thing was exaggerated. He stripped of the difference of over over the henfruit, there was given to get into the papers, a drug all, no knock-down and reported.
