Your Stomach Is Your Friend

If you have a good stomach and wish to keep it, steer clear of lard-cooked food. Lard is made from hog fat, and is more apt to be impure than it is to be clean and healthful.

Cottolene is the most reliable frying and shortening medium. It is a pure, wholesome, digestible product, that is bound to be more satisfactory than lard wherever it is given a fair test.

Besides being more healthful, *Cottolene* is more economical than lard or cooking butter, one-third less being required. It will, moreover, make more nutritious food than either lard or butter.

With all these advantages on the side of *Cottolene*, what argument have you for not using it? Your own grocer, if he is progressive, has *Cottolene* for sale. Buy a pail to-day, use it according to directions, and we will warrant you will never go back to the lard habit.
