Sixteen Miners Buried.

Birmingham, England, March 5.—Sixteen have been entombed in the Hamsted colliery and fire is preventing their rescue. Many others were injured while making their escape from the burning shaft, while two men were killed by a falling car. All efforts to reach the imprisoned men have so far been unsuccessful, although the townspeople are frantically fighting the flames. Several of the injured men who escaped the fiery furnace in the mine will probably die as a result of the burns they received.

Plenty of Onions.

Los Angeles, Cal., March 5.—Stories concerning the malodorous conditions said to exist on United States warships were partially confirmed today, when a contract was let with a local commission firm for 750,000 pounds of onions, to be supplied to the ships of Rear-Admiral Evans' fleet, upon arrival at San Diego harbor.

So far as known no cloves will accompany this order. For the odoriferous vegetables the navy department agrees to pay the sum of \$24-750, the minimum price per pound being 3 1/4 cents.

FRANCHISE EVANS IS SUED

(United Press Leased Wire.)

Los Angeles, Cal., March 5.—Dr. J. S. Owens must stand trial in the superior court on the charge of trying to extort money by means of a threatening letter from J. White Evans, of Portland, Oregon, former president of the United Railways Company of that city. In a decision handed down by Judge Smith a demurrer entered to the information by counsel for Dr. Owens was overruled. The case has not been set for trial.

Evans, who married the former wife of Dr. Owens, accuses Owens of having demanded various sums from him in connection with their dealings. Evans maintains the acts were attempted extortion, while Owens says Evans was indebted to him. The court stated that, in order to collect a debt, it was not necessary that a threat should be apparent from the face of the letter, nor even that a threat should be implied therefrom.

Busy Boy Robbers.

Bellingham, Wash., March 5.—Filed in the police station are goods valued at \$1000, which have been missing from stores and residences of the city for months, and locked in jail are Alvin Felton and Earl Dodson, two members of the gang of youths between the ages of 16 and 18 that for two months past has been carrying on a general system of looting.

Last night Arthur Roberts was brought to police headquarters by his father, who told the police to hold him until he tells what he knows about the case.

The fourth boy, Victor Adams, is said to be the leader of the gang. He is still at large. He has a 44-caliber Colts revolver, and has made the boast that he will never be taken alive.

Guns, revolvers and other military supplies stolen from the armory of Company M, merchandise of all kinds electric supplies and a vast collection of goods have been recovered.

The electric automobile motor stolen from E. W. Purdy a year ago, the electrical supplies taken from a box car in South Bellingham Monday night, the goods taken from the B. B. — B. C. box car Monday night, when the watchman was locked in a room while the car was railed, tobacco and candy stolen from box cars at the Great Northern depot a few weeks ago, clothing obtained in the looting of a Northern Pacific car last December, and great quantities of carpenters' tools are included in the array of stolen articles.

After Anarchists.

Chicago, March 5.—The state and federal officers in Chicago, together with the municipal authorities, have reached the conclusion that the federal law providing for the deportation of known anarchists may be employed to rid the city of some of the more rabid and dangerous of the "reds." A test case probably will be made of Emma Goldman, who is regarded as one of the most violent of all the anarchists in this country. Negotiations will be entered into at once with the department of justice at Washington.

In open defiance to the authorities to check the propaganda of anarchism the various groups of Chicago are arranging for lectures by Emma Goldman. Addresses have been extensively advertised to take place in Chicago next Friday night.

'FRISCO BLACK HAND ORDERED TO LEAVE

PROBING THE LIBEL SUIT—MONEY SLOW TO COME FOR BIG FLEET JUNKETS—DIGGING FOR RECORD OF THE FOUR THOUSAND REBATES BY SOUTHERN PACIFIC.

(United Press Leased Wire.)

San Francisco, March 5.—A vigorous campaign against the local anarchists has been inaugurated by the police department. Chief Biggy detailed Captain Henry P. Gleeson to round up all the anarchists in San Francisco, and to prepare a complete record of each man, the matter so gathered to be used as the basis for deportation proceedings. The action taken by the chief follows close on the order issued Tuesday by President Roosevelt, through the immigration bureau, requesting that the federal authorities co-operate with the police chiefs throughout the United States. The activity against the "reds" is the direct outcome of the assassination of Father Leo Heinrichs in Denver, and the attempt upon the life of Chief Shipley in Chicago.

It is known that a band of anarchists has made San Francisco its headquarters.

Reef's Water Graft.

San Francisco, March 5.—When the Crothers-Older libel suit was resumed this morning Andrew Wilson, a member of the boodling board of supervisors, and formerly state railroad commissioner, again took the stand. His answers under direct examination offered a substantiation of ex-Supervisor Phillips' testimony. The defense attempted to draw out an explanation of the star chamber proceedings in the water deal. The prosecution showed that Tevis' presence at one of the board meetings was not to make a proposition, but to answer the charge of "graft" made against him by ex-Mayor James D. Phelan.

Reception to Fleet.

San Francisco, March 5.—With less than half the necessary funds in sight for the proper reception of the fleet, the reception committee is anxious to learn how generous the citizens of San Francisco will be with their subscriptions. Mayor Taylor believes that at least \$75,000 will be needed. So far the finance committee sees in sight and has on hand \$33,727.73. In order to make this the biggest event in the history of this city, the executive committee believes the citizens should make liberal contributions.

Southern Pacific Rebates.

San Francisco, March 5.—The investigation by the state railroad commission into alleged rebates granted by the Southern Pacific road to 150 local shippers did not begin this morning, owing to a misunderstanding between the members of the chamber of commerce and the railroad commissioners.

The commissioners thought they would be allowed to begin the inquiry in the chamber of commerce today, but when all parties interested in the investigation gathered there it developed that another association had engaged it for the morning. The commission then decided to postpone the beginning of the hearing until 10 o'clock tomorrow morning.

Attorney-General Webb, under whose direction evidence against the Southern Pacific road has been gathered, was represented by one of his assistants, Raymond Benjamin. The latter was uncommunicative on the question of the evidence against the road. He said, however, that it is probable that following the conclusion of the Southern Pacific cases the commission would at once take evidence on similar charges against the Santa Fe. The present case is based on facts brought out the hearing of the Southern Pacific before the Interstate Commerce Commission several months ago, showing that the road paid rebates on 4000 different shipments during the past few years.

INSANE ATTEMPT TO KILL AT SPOKANE

(United Press Leased Wire.)
Spokane, Wash., March 5.—Buck and a brother of Storey, a well-known newspaper man, made an insane attempt this morning to kill John H. Shaw, president of Shaw-Borden Company, and the best Mason of the city. He met in the entrance to the store on Riverside avenue and fired a 28-caliber revolver at short range. The bullet passed through Shaw's collar without injuring him. Buck declares the sons have hounded him out of country, and are still prosecuting. He was not personally acquainted with Shaw, and the latter did not know him. Buck was seized by bystanders and taken to the city raving.
Buck is 35 years old, and unmarried.
