# BEER PROMOTES TEMPERANCE

Recognized as a Food Product, and So Dealt With by the Government

It is being recognized the world over that the drinking of beer promotes temperance and sobriety to a far greater extent than all the prohibition laws on the statute books.

All enlightened European nations are encouraging the manufacture and consumption of light beers containing about three and one-half per cent alcohol, and the result has been most gratifying to all sincere lovers of temperance.

The United States government has taken a positive stand in this direction, the war department holding that the re-establishing of the army canteen for the sale of beer being an absolute necessity in the interest of temperance and sobriety.

Beer is today recognized as a "Food Product," and is so dealt with by the government.

All the great insurance companies have contradicted the lies which have been given currency through prohibition sources that the drinking of beer was a bar to securing insurance, and have published to the world at large the statement that those drinking beer moderately (not more than two quarts during twenty-four hours) were the very best of risks.

The latest British life insurance reports show that the ratio of death rate among abstainers is thirty per cent greater than among moderate drinkers.

Beer is pure and wholesome, and the day is not far distant when it will be as much a part of the daily subsistence of every family as milk, bread and other food necessities.

The beer brewed by the Salem Brewery Association is in every sense the very best that modern enterprise can produce. It speaks for itself and is its own best advertisement.

# SECY. HOFER IS HANDED REAL LEMON

Secretary Hofer, of the Salem board of trade was "handed a lemon" yesterday by Mr. W. H. O'Dell of East Salem which was such a rare one, and done in such a way that he couldn't resent the offense. In fact, it was a real lemon, and what is more, it was grown in Salem and is one of the largest and most perfect specimens of the citrus fruits ever seen hereabouts and it would be a credit to any semi-tropical region. Of course it was grown in the house. It is of the American Wonder variety and they are said to be very easily grown here, and was furnished by Conard & Jones of West-grove, Pa. Mrs. O'Dell's tree is over two feet high, but has a baker's dozen of fine lemons on. She says the little tree grew without any care and it is free from any scale, moth or insect and is a beautiful thing to look upon, aside from being a prolific bearer. The lemon in question can be seen at the board of trade room and all who have beheld it testify that it is the handsomest and most perfect sample of citrus fruit they have seen. The leaves and the fruit are still covered with the honey dew but they are absolutely spotless, which makes it a beautiful thing indeed. Persons interested can see this fine specimen on exhibit at the board of trade rooms.

# SALEM DEFEATS PORTLAND

Salem high school won in a rattling good game of basketball last night against West Portland high school. The visitors seemed to be outclassed from the start, and, although the low ceiling bothered them to some extent, the home team easily had the best of it from the time the whistle blew. At the end of the first half the game stood 10 to 19, and although the Portlanders rallied somewhat in the last of that half they could not keep up in the pace set in the next. There were quite a number of fouls called during the game, mostly on Salem.

For Salem McIntire played the star game and also Jones at center. Salem's passing and team work won the game for them. Farmer took Kay's place at forward part of the second half. Kay, Roberts, Minton and Farmer did star work in passing and getting the ball down the field.

For Portland McGuire, Word and Runyon played the stars. McGuire is a very fast forward, while Word is well noted for his work. The Portland team played together in good form.

The lineup and baskets were: Salem—Roberts, F. 3; Kay, F. 3; Farmer, F. 1; Jones, C. 8; McIntire, G. 7; Minton, G. Portland—Word, F. 1; McGuire, F. 3; Runyan, C. 3; Noyes, G. 1; Sutton, G.

Fouls thrown—Roberts, 4 out of 6; Word, 5 out of 13.

## The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, brain failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y.
