FOR WOMEN

We are prepared to reveal to you the first expressions of vogue in Women's Suits for spring. Japanese effects are very much in evidence, while the new cutaway and pointed jackets are prominent and the style features were never more artistic or genteel than this season; not a point has been overlooked to give the graceful lines so becoming to the woman of fashion, and yet there is a simple elegance about each model that denotes refinement.

Remember, if they're from "Meyers" they must be right
