 OVER THE EXONERATION OF JUDGE WILFLEY — RUSSIA FEARS RESULT OF AMERICAN AGITATION FOR FREEDOM—COUNT BONI DE CASTELLANE FEARS ENMITY OF HIS ANCIENT FOE, DE SAGAN.
 (United Press Leased Wire.)
 St. Louis, March 12.—A storm of protests, involving the Catholics of Shanghai, China, and other nationalities, is being directed against the exoneration of Judge Wilfley, a Russian subject, by the United States government. Count Boni de Castellane, French ambassador here, is reported to be deeply concerned over the matter. He is said to be in communication with the Russian government, and to be warning them of the possibility of a rupture with the United States. (Continued on page four.)

TILLMAN HAS SOME QUESTIONS
TO NATIONAL BANKS
 DELICATE SITUATION IN CONGRESS OVER THE THREE REPORTS THAT HAVE BEEN FILED ON THE BROWNSVILLE AFFAIR — SCANDAL AILED OVER THE ELECTRIC BOAT PROPOSITION.
 (United Press Leased Wire.)
 Washington, March 12.—Senator Tillman today offered a resolution asking the senate committee on finance to determine whether national banks, under the guise of making commercial loans, furnish permanent capital for speculation, and, if so, what preventative legislation is necessary. The South Carolina statesman would also like to know whether the treasury department knew anything about the loans made by the National Bank of North America, which is now the subject of a receiver's suit, whether banks are attempting to control legislation and whether they use trust companies as dummy agencies to transact forbidden business.

W. S. U'REN WITHDRAWS FROM RACE
WILL SUPPORT CAKE
 WILL OPEN HIS CAMPAIGN AT SALEM NEXT TUESDAY EVENING WITH A CHALLENGE TO ANY OPPONENT OF STATEMENT NO. 1 TO MEET HIM AND DEBATE THE QUESTION.
 W. S. U'Ren has prepared a letter withdrawing from the race for the United States senatorship, which will appear in the Portland papers this evening. In his letter he declares that it would be wrong to divide the vote of the people as between Statement No. 1 supporters, and declares his intention to support Cake for that office. He makes a bitter reply to Editor Scott, of the Oregonian, and tells his guns on Scott, Matthews & Co., as the world-be political dictators of the state. He refers in a caustic manner to the bargain between Scott and Bourne, when, for four hours, Scott was willing to put up \$6000 per hour for the senatorial toga, which, he declares, the Oregonian is again trying to put up to the highest bidder. Mr. U'Ren has accepted an invitation to speak at Salem next Tuesday evening, when he will openly invite anyone to meet him in debate over Statement No. 1, or ask any questions connected with the subject of direct election of senators. Chris. Schuebel, Republican county chairman of Clackamas county, is in the city today, and says Clackamas county will present no opposition to Statement No. 1 candidates, and will give Cake 1000 majority at the primary.

LEARNED HYPNOTISM IN AMERICA.
 London, March 12.—The Marquis of Townsend is suing the Rev. Arthur Robins, former curate of the fashionable Trinity church, for large sums of money and priceless heirlooms he says the latter took from him during a hypnotic spell.
 Townsends story was that he and Robins studied hypnotism together in New York and Chicago. Robins proved by far the abler operator, however, the marquis said, while the medium shone as a subject. On their return to England, he testified, the curate hypnotized him repeatedly and in this way secured possession of all his victims ready money and many magnificent paintings, works of art and jewels.
 That there might be no introduction of evidence by the prisoner. It was intimated that the cross-examination of the girl witnesses to be summoned by the state will serve to show that some of them were involved in a similar case a year ago when like charges like those brought against Hitchcock were made against a wealthy New Yorker. At that time there was a prompt acquittal and allegations of blackmail, but no prosecutions were brought.
 The first witness called was Mrs. Von Hagen, mother of one of the girls who made the charges against Hitchcock. She was followed by the keeper of a rooming house in the Tenderloin to which Hitchcock is said to have taken the girl. The latter swore that the girl had never been in the actor's room.

Electric Boat Charges.
 Lilley informed the committee that he was in a position and was willing to furnish it with the addresses of all the witnesses whom he wanted called. He declared that whether money had been improperly used to secure legislation favorable to the boat company it could only be shown by an examination of the officers of the concern and the books of the company.
 Representative Lilley then insisted that Isaac Rice president of the Electric Boat Company; Elihue B. Frost, vice-president; Maurice Barnett, treasurer and August Treadwell, assistant treasurer, be called as witnesses. Lilley's statement alleged that the company spent large sums of money in trying to defeat certain members of the naval committee who did not favor the Electric Boat Company. He said that Vice-President Frost has spent thousands of dollars in entertaining members of congress.

ONE OF CHILDREN MAY RECOVER.
 (United Press Leased Wire.)
 Olympia, Wash., March 12.—Frank C. Owing has received a dispatch from the mother and father of Mrs. Warren McKay, who, together with two of her children, were murdered by her husband near Tenino, directing that the bodies be given proper interment. Hopes are held for the recovery of one of the children who was badly injured. She recovered consciousness today.
SMALLPOX PANIC IN ETHERAL CITY.
 (United Press Leased Wire.)
 Rome, March 12.—A smallpox panic prevails in Rome. The vaccine supply has been exhausted, and more has been ordered from Switzerland. The epidemic is serious and the alarm has been increased by exaggerated reports due to the government's suppression of news hitherto, lest the spring tourist trade suffers.
CHILD LABOR LAW IS BEING ENFORCED.
 (United Press Leased Wire.)
 Los Angeles, Cal., March 12.—Oliver Morosco, manager of the Burbank theatre, was today convicted of violating the child labor law, in permitting Harry Glaxier, Jr., 11 years of age, appears as an actor in the production of "The Halfbreed." Morosco will appear for sentence Saturday morning, but at that time a motion for a new trial will be filed.

Big Railroad Conference.
 Chicago, March 12.—Arrangements for one of the most important railroad conferences ever held in this country are being made for next week in Chicago.
 Men representing every big railroad system in Canada, Mexico and the United States—presidents, vice-presidents, general managers, superintendents and chief engineers—will attend the conference, which will be held under the auspices of the American Railway Engineering and Maintenance of Way Association. The first session will open Tuesday. Delegates from Europe, South and Central America will be in attendance.
School House Protection.
 Albany, N. Y., March 12.—As a result of the Collinwood disaster a bill was introduced in the assembly today providing that, save in the large cities, wealthy enough to construct absolutely fire-proof structures, no school houses shall be more than two stories high.
Newspaper Wins Out.
 Boise, Idaho, March 12.—Judge Wood today sustained the demurrer of the Boise Statesman to the complaint of State Auditor Bragaw, charging libel against the Statesman and Governor Gooding. The court gave the complainant leave to file an amended complaint. Bragaw sued the Statesman for \$50,000 for printing an interview with Governor Gooding, in which the latter made charges against Bragaw, which Bragaw alleges to have been libelous. The trouble grew out of a factional quarrel arising from the Moyer, Haywood and Pettibone cases.
Filed His Petition.
 F. H. Mills, of Klamath Falls, this morning filed his petition for nomination to the office of prosecuting attorney for the second district, on the Republican ticket.

THE NEGRO BLOTTERS.
 Washington, March 12.—The Republican and Democrat members of congress are facing a delicate situation as the result of the three reports filed yesterday by the committee which investigated the Brownsville shooting affair.
 Whether to support the President's bill restoring the rights of the colored soldiers, who were dismissed from the service by President Roosevelt, or any one of the three reports on the table is a question which they are trying to dodge. They would rather be excused from wasting a vote when the matter comes up for a vote in congress. And there are some who think Taft's boom will become mixed up in the muddle and punctured.
 Washington, March 12.—Startling testimony, charging that the Electric Boat Company, of New Jersey, maintained a powerful lobby in the legislative halls at Washington, whereby it was granted exclusive legislation, was introduced today at the hearing of the congressional investigation of charges made against the corporation.
 Representative Lilley, of Connecticut, was the first witness. He is the person who makes the charges against the boat company, declaring that it employed irregular methods in seeking legislation favoring its business. Lilley read from a prepared statement, tending to show that the company maintained a lobby Congressman Olmstead, of Pennsylvania, was selected as examiner of the committee.
 Lilley testified that in one instance he was approached by a manufacturer who asked him to vote for a bill favoring the boat company which was coming up before the committee on naval affairs. He said Representative Hobson was informed by a representative of the boat concern that he could make him (Hob-
