

TO OWNERS OF BAD BREATH

Bad Odor of Indigestion, Smoking, Eating or Drinking Stopped at Once With Stuart's Charcoal Lozenges.

Small Package To Prove It Sent Free... Stuart's Charcoal Lozenges will stop a stop to your bad, offensive breath...

Stuart's Charcoal Lozenges are made from pure willow charcoal, and a little honey is put in to make them palatable, but not too sweet.

Send your name and address and we will at once send you a sample package free. Ad. F. A. Stuart Co., 200 Stuart St., Marshall, Mich.

CASTORIA

What You Have Always Bought, and which has been used for over 30 years, has borne the signature of Dr. J. C. Hart.

What is CASTORIA... It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups.

Kind You Have Always Bought In Use For Over 30 Years. Dr. J. C. Hart.

Swift died mad, as he had all along predicted he would. Dr. Dodd, whose "Beauties of Shakespeare" is well known, was hanged for forgery.

Cotton also spent many years in a debtor's prison and eventually died there by his own hand. Robert Burns, writing only fourteen days before his death, implored his friend Cunningham to use his influence with the commissioners of excise in order to get his salary raised from £35 a year to £50.

It is told of Ben Jonson that when in his last illness King Charles sent him a small sum of money he returned it. "He sends me so miserable a donation," cried the dying poet, "because I am poor and live in an alley."

Very sad was the fate of Ulrich von Hutten, one of the greatest writers Germany has ever produced. Unable to earn a living, he was reduced to tramping through the country, begging food and shelter from the peasants.

St. Simon, the celebrated French author, who wrote "The Reorganization of European Society," was twice driven by want to attempt his own life, and, although he died a natural death, in the end it was among the most lamentable surroundings.

Richard Savage, the poet, died in a debtor's prison after enduring the pangs of starvation for years.

Peat, that black, spongy, fibrous material from the bog which has one of the world's principal fuel agencies, and which scientists say is but coal in the making, has at last proved since the early ages to be

been turned into other channels of successful manufacture. The peat bog furnishes the latest substitute for wood in the making of wrapping paper and box board, and in Michigan the first peat paper mill in all the world is producing a superior quality of those grades on a commercial scale.

It has been demonstrated that a ton of paper, worth from \$25 to \$30 can be made from peat at a total cost of a little more than \$8, while the usual grade of straw board costs nearly \$20 to produce.

The entire operations, from the peat in the bog to finished product, cut wrapped in bundles and loaded on cars, are all accomplished in two hours.

Besides this advantage, it is lacking in the odor which strawboard or wood pulp paper possesses, and is extremely tough.

DR. D. JAYNE'S EXPECTORANT... This old and reliable remedy has been relieving and curing coughs and colds for 77 years.
