

# SPRING STYLE EXHIBIT

Hundreds of people have visited this store; many of them have taken advantage of the advance showing of spring styles; it is not too early to choose. The very "cream" of spring's most fashionable effects are here now: women's ready-to-wear that has had no equal of its superb tailoring; men's spring clothes in handsome new patterns, cut and tailored like custom garments. The showing is complete in every detail. You may measure your spring clothing requirements by this exhibit, and more economically here, quality considered, than in any other Salem store.

## We Are

prepared to reveal to you the first expressions of vogue in women's suits for Spring; Japanese effects are very much in evidence while the new cutaway and pointed jackets are prominent and the style features were never more artistic or genteel than this season; not a point has been overlooked to give the graceful lines so becoming to the women of fashion and yet there is a simple elegance about each model that denotes refinement.

## Good Quality

in merchandise is really a valuable means of teaching economy. Lots of people go through life thinking they're economical when the fact is they're simply low priced. For men like that, one experience with our Hart, Schaffner & Marx clothes is liberal education; he learns how much economy there is in really good clothes. Some men pay too much for their clothes; these here any day; come in and learn about clothes quality.

## Shoes

Our new shoe department is growing and gaining ground. First, although it is our baby department in age, but not in size, there is much favorable comment on our successful selling of shoes; by courteous treatment, proper fitting and honest prices we expect to make this the largest shoe store in the state. Because we are selling honest made shoes, we could not build up this department if we were selling skinned shoes. We have shoes for every one.
