ALUMNI MAY SAVE STUDENTS

(United Press Leased Wire.) Stanford University, Cal., March 21.—Intervention by the alumni to save the 12 suspended students is today pinning its hopes. There is a strong belief here that the alumni committee may succeed in patching up the trouble, where the students themselves failed.

There was a calm on the campus today, and much less revolutionary talk. That the determined stand of the student committee, in refusing to reinstate the suspended students, even after an apology had been publicly made, came as a complete surprise to the undergraduate body, there is no doubt. The action seems to have cooled the rebellious spirit to a considerable extent.

Radicals are still at work, but the conservative element in the student body, headed by President Murphy, has determined not to call a meeting until the last of the petitioners and "confessioners" has appeared before the Students' Affairs Committee. These hearings will probably continue throughout the day.

It is possible that some action will be taken by the students tonight.

The first real note of encouragement to reach the student body today came from Chairman Clark, of the student committee, who, in a verbal statement to some of the leaders, declared that, in all probability, there would be a reconsideration of the cases of the 12 students now under suspension at the conclusion of the examination of the other 246, who have voluntarily pleaded to equal guilt with the 12 suspended.

It is believed that the original 12 and the other 246 students will be adjudged alike. Whether all will be suspended or all reinstated remains to be seen.

Stock Market Firmer.

New York, March 21.—The active bidding that characterized yesterday's final hour was carried over into today's trading with even renewed vigor. Under this stimulus prices made another very satisfactory gain. This is illustrated in the report of the steel corporation, which showed the number of shareholders to be nearly 96,000, which is the largest in its history. This army of small investors is made up of the very best and thriftest people, and it is the absolute refusal of these holders to be stampeded into dumping their stocks, that makes the steel issues immovable in the stormy financial sea. The bank statement made a excellent showing.

Painting Time

IS your home or other building taking on that faded, "seen-better-days" appearance that reminds you that a new coat of color is due?—Time to call in a painter and arrange for repainting.

But this time get a *lasting* painting—a paint that will keep its brightness and beauty years longer than ordinary paint, and that will fall gradually, leaving a smooth, even, "paintable" surface.

Low Brothers "High Standard" Paint Gives Best Results

It is ready-to-use, thus saving painter's time and making sure that the mixing is mechanically right.

"HIGH STANDARD" PAINT is made of materials a third-of-a-century of paint-making experience has proven to be right, scientifically mixed and ground to a wonderful fineness. Unequaled in covering power, spreading capacity, beauty, wearing quality—and proved to be most economical.

There is a Low Brothers paint for every requirement. Besides "HIGH STANDARD" LIQUID PAINT, there is a Low Brothers Interior Enamel for woodwork and walls; Hard Drying Floor Paint for floors; Vertical Stain for doors, woodwork; "Little Blue Flag" Varnish, etc.

JAP-A-LAC

ANARCHIST SHEET IS SUPPRESSED

(United Press Leased Wire.)

Washington, March 21.—Question Sociale, an anarchistic newspaper published at Paterson, N. J., and declared by the authorities to be the most inflammatory publication in the United States, was today forbidden the use of the mails by Postmaster-General Meyer.

It was in the columns of this publication that Adia, the condemned murderer of Father Leon, the Denver priest, is said to have found his inspiration. In a copy of the publication secured by the postal department are found articles denouncing the government, and openly advocating a campaign of assassination and arson against the heads of all governments. One screaming article urged the friends of liberty to seize the state armories, arm themselves, murder the police, fire the great cities of the country and overturn the government.

Postmaster-General Meyer today took a bold step in order to suppress the paper, and assumed a responsibility no predecessor dared. The paper is credited with a circulation of 20,000. By his action today Mr. Meyer barred the sheet from the mails as second-class matter, and the cost of mailing it under the third-class rate would be too great to make its existence possible.

"The case is clearly one of malicious intent," said the postmaster-general, "and we are serving the best interests of the people in barring it out. This sheet has been a revelation to us, but we will now make a crusade against all of its kind."

UTOPIA FOUND FOR HOBOS

Chicago, March 21.—The utopia for tramps has been found. It is situated in Lyons, Summit and Gary, where a fierce local option war is raging. Eleven drinks a day, a place to sleep, and nothing to do but play cards and remember when election day comes around, is what "colonized" tramps of the suburbs have been enjoying, according to testimony adduced before the grand jury.

"The men are given a drink of whiskey in the morning and ten beer checks a day," said one of the witnesses, "and all they have to do is to remain in the saloons all day."

Indictments are expected against those persons responsible for the establishment of the colonies.

Mit Miller of Lebanon has come out for Statement No. 1. Shows his natural goodness of heart and he will probably have to vote for a Republican for United States senator.

TARIFF REVISION POSTPOND

(United Press Leased Wire.)

Washington, March 21.—The leaders of the senate and house today agreed to President Roosevelt's proposition for a special session of congress to be called after March 4, 1909, to revise the tariff.

There will be no dabbling with the tariff question until after the Presidential election. A decision on the matter was reached by the President following a star chamber session with the leaders. It was finally agreed that any action taken by the present session might reflect on the coming election, and for this reason it would be best to defer all action for the time being.

The proposition of President Roosevelt, that the matter come up for consideration before a special session, to be called after the inauguration March 4, 1909, was agreed to.

Late this afternoon it was learned that all agreed it would be inadvisable to attempt a revision of the tariff until a commission could review the schedules. It was suggested that this commission consist of members of the house ways and means committee, and the senate financial committee, and that experts on commercial conditions should be employed in the investigation.

On the matter of railroad rates, the President stated that he believed the roads should be permitted to agree among themselves on a uniform tariff, according to the supervision of the Interstate Commerce Commission. It was pointed out, however, that unless organized labor could be made to see the justice of this plan it would be poor politics to attempt to get such a provision through as it would be claimed immediately that the provision was beneficial to the corporations only. No decision was reached in the matter.

FISHERS WAGES

Decide Whether a Big Fleet of Fishermen and Men Go North to Alaska Waters.

(United Press Leased Wire.)

San Francisco, March 21.—Whether 10,000 fishermen and 23 vessels go north to engage in Alaska fishing or disband in San Francisco depends upon today's decision at a conference between the Fishermen's Union and the Fish Packers' Association.

A demand of the fishermen for increased pay is the bone of contention. The packers have asked the fishermen to work for a slight reduction in their wages, while the fishermen say they are willing to pay the packers a slight reduction in their wages, but they are not willing to increase the schedule. The trouble started several weeks ago, when the packers, after a conference, announced a reduction. This was immediately rejected by the fishermen, and the present controversy resulted.

The warring parties failed to get together at conferences yesterday. The fishermen held a big mass meeting last night in order to prepare for today's conference. The fishermen say that, in spite of the fact that salmon is bringing higher prices than it has brought in years, the packers insist on a reduction, and the fishermen insist on the advantage of the overstocked market of the labor market.

RAIL RATES TO WOODBURN HORSE FAIR.

To be held at Woodburn, March 21. For the above occasion, a rate of one-third on the certificate plan is authorized to Woodburn, Ore., via S. P. Co.
