LITTLE GIRLS—14 years and under, remember our ad clipping contest. The little girl cutting out from our ad the largest number of Bucks above and range trademarks will be awarded the Bucks Junior range now on display in our south window.

Buren & Hamilton
HOUSE FURNISHERS

All ads must be turned in not later than the week following their publication. Do not carry one over. Get all the assistance you possibly can. This contest is causing a great deal of enthusiasm, so all must work very industriously.

even the nature of the patient's illness will be given out. It is believed that Dr. Jordan's illness is not as serious as first reports would indicate, but it is thought by many that the present turmoil at the university has more or less to do with his indisposition. He has been under an intense mental strain since the storm broke on the campus, and those who have observed him have felt that a break-down was inevitable. While it is denied that the university troubles have brought about a collapse, it is not unreasonable to believe that they have had considerable effect on his mental and physical condition.

This woman says Lydia E. Pinkham's Vegetable Compound saved her life. Read her story. Mrs. T. C. Willadsen, of Blount, Iowa, writes to Mrs. Pinkham: "I can truly say that Lydia E. Pinkham's Vegetable Compound saved my life, and I cannot express my gratitude to you in words. For years I suffered with the worst forms of female complaints, continually doctoring, spending lots of money for medicine without help. I wrote you for medicine, followed it as directed, and took Lydia E. Pinkham's Vegetable Compound. It has restored me to perfect health. Had it not been for you I should have been in my grave to-day. I wish every suffering woman would try it."

FACTS FOR SICK WOMEN
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been a standard remedy for female ailments and has positively cured thousands of women who have been troubled with displacements, inflammation, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?
Mrs. Pinkham invites all women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Palo Alto, Cal., March 26.—Chaos reigns at Stanford university today, and there is every indication at noon that scores of students would leave the campus before nightfall never to return. Realizing that the suspended men will be shown no clemency, and that further appeal to the student affairs committee is a mere waste of time, all of the participants in the parade will be asked by their leaders to request leaves of absence.

Failure to secure these is to be followed by a walkout, it is said. A petition to President Jordan, signed by the 41 suspended men and many of their sympathizers, asking for a rehearing, was circulated today, but it is not expected to bear any fruit, and in anticipation of adverse action on the part of the president, the students are preparing to take final action even before the petition can reach Dr. Jordan, who is ill at San Jose, and who cannot reach the university until tomorrow at best.

The petition declares that the punishment imposed is too severe for the offense committed. The students recognize that the committee has won the battle, and that nothing remains except unconditional surrender or complete severance of college ties. A number have made arrangements to enter other colleges. Many have written to their home newspapers, giving an account of the trouble, and denying that they are under the ban for drinking, but are being punished for standing up for their rights.

Formal disbandment of the boat crew and baseball and tennis teams was announced today. The boat crew lost its captain, L. R. Gray, of Pasadena; the baseball team its shortstop, Sampson, of Stockton, and the tennis team its captain, Delano, of Massachusetts. No action has been taken in the matter of disbanding the track team, but this is likely to come this evening.

The senior class met at noon and adopted a resolution to dispense with all commencement week class exercises, except the laying of the class plate. This function will be performed at midnight, as a rebuke to the student affairs committee. All the chairmen of the senior week committees have resigned, and

the funds of the class will be given to the president and treasurer to hold for orders, after taking enough money to pay for the team's class sweaters. It is expected that the remaining funds will be divided between "Dad" Moslow, trainer of the track team, and Murphy, the varsity boat coach.

"The Chapparel," the satirical comic weekly, issued today, contains a caustic editorial on the student affairs committee, says in part:

"Now that the committee come through the Chappale has been so mad in all of the stages of his career. Forty-one booted him out of college. The parade did not do an atom of harm could be remembered five years afterwards. No university rules broken, no property touched. Memorial court has been inside howling football rallies time again, the arcades by Washington birthday rallies, and as for Chappale, no one knows of a slight suit uttered there. The offense the infringement of university discipline and any encroachment such a vague, foggy and fishy quality as that should have been penalized by retraction."

Jordan Is Better.
Marked improvement in the condition of Dr. Jordan was reported by Dr. Hall, who is attending the doctor, after he had paid his morning visit. He said that, while Jordan was suffering from a pain early today, he is greatly relieved, and may be able to go home tomorrow. Dr. Hall said that he could not discuss the nature of the illness. He would neither affirm nor deny the report that Dr. Jordan has appendicitis.

Dr. Jordan will remain under the care of a physician at the San Jose Judge Leibe, and if the improvement in his condition continues he will be taken to Palo Alto tomorrow. He reached Santa Clara when a pain attacked him. He went to a drug store in the latter city for relief, and then boarded a street car and rode as far as Judge Leibe's residence.

Not for Drinking.
The Examiner report says: D. C. Boyd and H. G. Gray, D. C. Boyd and H. G. Gray, were participants in the parade, and presence there is taken by the committee as an argument to prove that the occasion was not a demonstration of drunkenness, but a protest against what was considered the arbitrary ruling of the committee.

Kodol is a scientific preparation of vegetable acids with natural salts and contains the same elements found in a healthy stomach. The dose will digest more than 100 grains of good food. It is a druggist's.

PRIVATE LACEY HAS DESERTED

San Francisco, March 26.—Secret officers all over the country are today on the lookout for a young deserter, said to be Max Jagerhuber, Jr., son of a millionaire New York merchant, and claiming relationship to Supreme Justice Fuller and Judge O'Godman, of New York. When he enlisted he gave the name of Chas. Lacey. According to a story in the Call this morning Jagerhuber was arrested shortly before the earthquake at the St. Francis Hotel here, on a charge of having passed a forged check, when his allowance from his millionaire father ran short. In the chaos following the quake he regained his liberty, and, his love of adventure, resulted in his enlistment. Recently tiring of the monotony and plain fare, Private Lacey deserted. He was captured, and for some time has been kept a prisoner in the guard house. Last Tuesday, according to his superiors, Jagerhuber, or Lacey, as they know him, feigned a sergeant to permit him to escape, and the two made off. Nothing has been heard of either since then, and today, hearing of picketing the men up in San Francisco again, alarm has been sounded.

TRUST COMPANY OPENS WITH CASH

(United Press Leased Wire.)
New York, March 26.—With \$2,000,000 stacked up ready to meet all demands the Knickerbocker Trust Company threw open its doors for business today for the first time since it was closed last October. At noon, the hour of the reopening, hundreds of depositors were in line, but many of them were there for the purpose of depositing savings. Officials of the institution declared today that sufficient money is available to pay every one of the 20,000 depositors should they all be anxious to withdraw their money. The bank has assets of over \$50,000,000, and the liabilities are slight by loss. Bankers and financiers generally say that the reopening of the Knickerbocker is perhaps the best sign of returning prosperity that has been seen since the beginning of the money panic. The plans for the rehabilitation were completed after four months of labor on the part of a committee of depositors. Under the present plan depositors will receive today 10 per cent, instead of their deposits in full. If they care to withdraw all of their money they can do so at intervals covering a period of two and one-half years.

TOBACCO WAR IS RAGING

(United Press Leased Wire.)
Cincinnati, March 26.—Closely following a report that a truce had been patched up between the independents and the tobacco trust, a band of "night riders" broke into the warehouse of the T. S. Hamilton Co., on the outskirts of Covington, Ky., shortly before daylight today, and fired the place. Half a million pounds of raw tobacco, valued at \$150,000 was destroyed. The fire spread and destroyed an entire block of buildings. When the flames reached a cottage adjoining the warehouse, the raiders went in and carried out a cot on which Miss Carrie Feeney lay seriously ill. A moment later the roof of the cottage caved in. Before starting their work the "night riders" cut every telephone wire in the vicinity. Eight young farmers, some of them of the best families in the county, are today under the surveillance. **Lovers** of good health should prevent sickness instead of letting themselves get sick and then try to cure it. So long as you keep your liver, bowels and stomach in a healthy and active condition you won't get sick. Ballard's Herbine relieves constipation, inactive liver and all stomach and bowel troubles. Sold by all dealers.

TROOPS ASKED FOR TREADWELL

(United Press Leased Wire.)
Juneau, Alaska, March 26.—Troops have been asked to be sent to Treadwell, where the striking miners are showing signs of disorder. The call for troops was sent last night to the Vancouver barracks by Acting Governor Estlin. The United States marshal's office here cannot maintain order, and it is very probable that the troops from Fort William H. Seward will be sent here today or tomorrow. Many of the striking Slavs have been arrested, charged with carrying weapons. Ten were fined \$20. This action has served to make them hostile. The strikers claim that the moment soldiers arrive on Douglas Island they will resort to the use of dynamite. Dynamite enough to blow up an entire city has been found in a cache. **PRESIDENT JORDAN**
(Continued from page one.)
sity, who was suddenly stricken in this city last night, and who is now confined in the residence of Judge J. F. Leibe, a member of the board of trustees of the university. Beyond the mere statement that Dr. Jordan had rested easily last night no information was vouchsafed by members of the Leibe household today. Not
