NEW WILLAMETTE RIVER STEAMER

Being Built At Corvallis---Cost Ten Thousand---Owned Here--- Will be Light Draught---Also Building Big Gasoline Row Boat In Corvallis

With her other enterprises and will be in all respects a complete stamboat. It will be ready to go into service in three or four months. It will be operated independently of other boats on the river, and as a competitive line. As planned at first, it was to be 60 feet long and 15 wide, but in calculating the chances of profitable operation, it was determined to lengthen the craft to her present proportions. Another boat of importance is a bog tow launch that is being built by J. F. Tyler, of the firm of Kemp & Tyler. It is to be 40 feet long, and 11 feet wide, and will have a capacity of about 15 tons. It will have two 20 horse power engines with tunnel propeller, which means draught of only about 12 inches. It will have great power, as well as great speed, and is designed for use in towing logs, and for other work on the river. In connection with it, Mr. Tyler is building a huge scow and will use it in the transporting of wood, hay or other commodities. He already has enough work engaged for his boat to keep it busy for a year. The keel has been laid and the materials are on the ground. The construction work is going on at Mr. Tyler's home at 558 North Fourth street.

PILES

Every Sufferer to Test This Cure at Our Expense—Send Name and Address for a Free Package. Want to send you a free trial Great Pyramid Pile Cure as you can see with your own eyes. It can do. SOME HORSE SENSE ON PUBLIC LANDS

(Coos Bay Times.) The American people are disgusted with the great railroad companies and private speculators, which hold vast areas of valuable timber land and refuse to comply with the terms on which they received the grant. What do the American people want to do with these lands in case the grants are annulled? Do they want them to go back to the public domain to be purchased at \$1.25 per acre by "homeseekers"? Is not that foolishness? Will a man make his home on one hundred and sixty acres of land containing five millions feet of timber? Will he clear it? Or will he sell the tract as soon as he has title to it to some syndicate? If the latter, then where have the American people been benefitted? The fact is this land is not speculative land and will not be converted into farms unless the timber is cut off and wasted. That would be a misfortune, too. Now the truth is plain. For example, it is said the value of timber holdings under grants which the grantees are in duty bound to sell out in lots of one hundred and sixty acres to a settler at \$2.50 per acre is \$35,000,000 in Oregon alone. Undoubtedly, if the railroad and land companies lose them they will all be syndicated again and absolutely withheld from general settlement. There is probably no other way to handle these forests to the best advantage than to syndicate them and

let large aggregations of capital establish sawmill plants. But why should the government sell a tract worth fifty dollars an acre to a gentleman just from Syria for \$2.50 and then feel charitable because the Syrian has made \$46.50 per acre or \$7,440 net profit? True the gentleman of the syndicate must pay out the money, but why to the Syrian, who does nothing but allow the title to filter through his name from Uncle Sam to some corporation? That chance to get such a tract would be a lottery as corrupt as that of Louisiana seems clear enough. Why doesn't Uncle Sam cancel the grants if the law decrees it, and then sell these lands for what they are worth? Better still, why not turn over the lands in Oregon to the state for \$2.50 per acre adding interest and such taxes as have been paid, returning those sums to the companies and requiring Oregon to sell them for what they are worth? Then, why not require the state to place the money in a fund which shall be used to make good roads in the state. It would be a great scheme to get some \$30,000,000 to make good roads in a state where such roads are badly needed. The public needs roads more than it needs to have a lot of money wildly distributed through the country. This habit of throwing away opportunities is a silly one. Why put a claim which a man can neither cultivate, improve nor clear in the hands of a man without means and let that man make from \$5000 to \$10,000 without doing a stroke for the public or the state and, in a majority of cases have even that stake carried out of the state when it would be so easy to divert the flood of money to making the country fit to live in, and giving thousands of honest men honest work to do? It is submitted that this is simply common sense. Has any senator, Fulton or Bourne, courage or patriotism enough to suggest it? The Dutch in Holland are not so foolish as the Americans. They are reclaiming through drainage a large part of an interior salt lake called the Zuyder Zee—and they do not give it away—but they sell it for \$3000 per acre and use the money to improve the country.

Catarrh Cannot Be Cured.

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

New Saw Mill.

Kesterson & Hinkle of Grants Pass have commenced work on a new 25,000-capacity mill on Totten Creek three-fourths of a mile from the railroad. They own eight 40s of timber in that locality, mostly yellow pine. One carload of machinery arrived at Lystal Wednesday for unloading. Mr. J. H. Kesterson went to Portland to purchase a new engine and also some other new machinery. The firm are figuring on building a tramroad from the mill to the railroad track.

President Roosevelt today sent to the senate the nomination of John S. Leach, of Illinois, to be public printer, and Robert Walker to be postmaster at Bandon, Or.

SPLENDID SIMPLE MIXTURE

Says Everybody in Salem Should Know of This Prescription

Here is a prescription that any one can mix at home. Any good prescription pharmacy can supply the ingredients named at little cost; being composed of vegetable extracts, it is harmless and inexpensive. Best of all it does the work well, relieving even the worst forms of bladder trouble, frequent urination, backache, kidney complaint, and by its direct action upon the eliminative tissue of the kidneys, makes these most vital organs rid the blood and system of waste material and uric acid which causes rheumatism.

Here it is: try it if you suffer. Fluid Extract Dandelion, one-half ounce; Compound Kargon, one oz.; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime. A well-known local druggist is authority for the statement that one week's use shows good results in nearly every instance, and such symptoms as lame back, frequent desire to urinate, pain in bladder and even chronic rheumatism are generally relieved within a few days, the pain and swelling diminishing with each dose.
