SIX FEET UNDER GROUND

(United Press Leased Wire.)
San Francisco, April 18.—What the police believe to be traces of a murder committed 20 years or more ago were found this morning by men excavating for a new building on Sutter street, just west of Grant avenue, when they uncovered a human skeleton. The skeleton was found about six feet under ground and as there has never been a grave yard in that vicinity the police and coroner's office officials hold the opinion that the skeleton is that of some person who was murdered in one of the deal falls which abounded in that section 20 years ago.

SHOES FOR TENDER FEET

While we carry all the latest and swellest shapes in footwear, we have not overlooked the shoe needs of the man or woman who want plain, solid comfort. We have a big trade in good, sensible soles—every line and every curve speaks for comfort. And style isn't sacrificed either, for they are shapely and graceful in outline. The soles are made of best oak-tanned leather, and every pair is hand-sewed throughout.

We invite your attention to a special line of these Comfort Shoes, Dr. Reed's Cushion Soles. Wear one pair of these shoes, and if you appreciate real comfort, we are sure you will be back for another pair when they are gone. We have also the celebrated Walk-over Shoes in blucher, vals, Oxfords, in kid, tan and patent, all styles, all prices, all sizes. Also C. P. Ford's Ladies' Shoes in all styles.
