Chas. Platts—Hubbard, Champog, St. Paul.  
H. A. Snyder—Aurora, Butteville, Lloyd Reynolds—Brooks, Chema-wa.  
J. M. Poorman—Woodburn.  
Wm. J. Clarke—Gervais, Fairfield.  
C. F. Hicks, F. J. Van Valkenburg—Silverton, South Silverton, North Silverton.

### GRAVE REVEALS A SECRET

(United Press Leased Wire.)  
Stanford University, Cal., April 22.—In the discovery of an exposed coffin, containing the remains of a woman, on Cemetery hill, near San Francisco creek, may lie the solution of the mystery of the disappearance of Eugenie Clogenson, a French woman who acted as confidential adviser of Peter Coutts, a French exile, many years ago.  
The gruesome find was made yesterday by a party of students while they were out walking. By whom the grave was opened is not known. The dirt had been removed and the lid on the top of the casket was turned back. Through an aperture in the casket the face of the corpse, fresh and well preserved, was visible, though it was evident that the burial took place many years ago. The casket was of marvelous workmanship and the remains were those of a strikingly beautiful woman.  
Of all the theories advanced by the antiquarians of Stanford University to account for such a rich sepulcher in such a place the most plausible is that the body is that of Eugenie Clogenson. Coutts, who was paymaster of the armies of France at the time of the Franco-Prussian war, is said to have stolen \$5,000,000 from the French government.  
Coutts bought Matadero ranch and deeded it to Eugenie Clogenson. Under her direction the works, which have made the Frenchman's name famous about Stanford university, were carried on. Madame Coutts was insanely jealous of her. To break Eugenie's power Coutts' wife conspired with the French consul at San Francisco. As the result of this conspiracy a plan of restitution was made whereby Coutts was permitted to return to Paris, where he died. At about the time he left, Eugenie Clogenson disappeared. She was never seen by any one who knew her after that.

## GREATEST SUCCESS OF SEASON

"Faith Triumphant" to be repeated tonight at the First Christian church, met with decided approval of those that heard it on the 10th. The costumes and electric light effects are simply gorgeous. No pains or expense have been spared in the preparation of this grand cantata and those that see it tonight will have no cause to regret the time spent. The Christian church chorus is one of the best in the city and special parts are rendered by splendid voices, and with Mr. E. W. Pierce, with his superb tenor voice in the part of Iran, makes the production all that could be desired. Ask those that heard the cantata on the 10th what they think of it. Go and enjoy an evening of melody at the Christian church tonight.

## BRITISH OPINION OF NAVY

(Continued on page twelve.)  
Boston, Mass., April 22.—Next to the British navy, the naval forces of the United States are the best in the world in the opinion of Sir William Henry White, who for 20 years was the responsible designer of all of England's warships.  
Sir William made this statement here while praising the American navy. He says he speaks with the knowledge he gained while watching its growth from the very start.  
"Your shipbuilding yards," he continued, "are quite equal to any we have in their equipment and management. The result is that, in my opinion, you have a fleet that, ship for ship, comparing the ships designed at a given date—this being the only fair comparison—is equal to anything the world contains. Except in the British navy, your navy is the best in the world."

### EX-PRESIDENT IN POOR HEALTH

(United Press Leased Wire.)  
New York, April 22.—Grover Cleveland's condition was such that he could not be removed from the Lakewood hotel today when the hotel closed.  
Mr. Cleveland went to Lakewood to spend his 71st birthday anniversary, March 18, among the pines.  
As recently as last Friday a dispatch from the resort said he was greatly improved in health.

The Elgin Leader looms up as the bright paper of Union county by Snyder & Palmer, with H. H. Palmer, "Pop" Palmer of the Aurora Borealis, as editor. No. 1 is an ideal local paper and will put a great deal of new life and hope into that section.  
The people have ordered a house cleaning and the old chambermaids in the Republican livery stable might as well realize the fact.  
DeWitt's Carbolyzed Witch Hazel Salve. It is especially good for piles. Sold by all druggists.

## BANKER IS HELD

(Continued from page one.)  
the transaction. He remembered that he had directed his head assistant, W. T. Perkins, to write a letter to the bank on June 3, 1907, directing them to segregate the general and educational accounts in accordance with the law of the last legislature.  
Charles H. Kopf next identified the credit slip given the state treasurer for the deposit of the educational fund. He was unable to testify in regard to any of the particulars attending the changing of the accounts.  
F. L. Decker identified the writing on the slip as that of the receiving teller of the bank.  
Claude C. Byers, formerly a bookkeeper in the defunct institution, was called and testified regarding a few small matters necessary to make the chain of evidence complete. This was true throughout the morning proceedings; every small detail necessary to perfect the chain, which is drawing closer and closer about the indicted official, was brought into the record so that on appeal technical claims of omission of relevant testimony will be useless.  
Assistant State Treasurer W. T. Perkins testified to writing the letter on June 3, to the bank ordering the segregation of the accounts. He stated that deposits were made with no exceptions in notes, checks and drafts, but never in gold.  
In cross-examination McCamant, attorney for the defense, asked Perkins if it was not the custom, during the terms of both treasurers he worked under, to deposit moneys in banks over the state. This was objected to by Judge Pipes; for the prosecution, on the ground that previous treasurers might have been lax and that what previous treasurers had done was no proof that it was right. McCamant stated it would save witness fees of five men who would be placed on the stand, if Perkins were allowed to testify. The objection was overruled and Perkins allowed to testify that it had been the custom to so make deposits.  
J. W. Ferguson, in charge of the banking department of the Title Guarantee & Trust company up to August, 1906, afterwards expert em-

# OUR SPRING LINES

In all department are now complete. You'll find all the latest novelties in solid color fancy weaves in our dress goods section, and they're marked at prices you can afford to pay. The PLAIN SERGES, WOOL TAFFETAS, TAFFETA BATISTES, CORDURA CLOTH AND POPLINS, which we are showing in full range of popular shades, are the leading sellers, as this is to a great extent a plain goods season.  
In the Silk Department there is a decided change in colorings. Everything in Pongees is good, but the new rich cream shades in stripes and embroidered dots are the novelties. The blue series is also prominent.

## We Sell Summit Shirts

Because they are made in full liberal dimensions. The double sewed, flat felled seams can't rip. The fabrics are selected with regard to service as well as for neat appearance.  
We show an enormous variety of the newest colorings.

### WILL GROW CRAN-BERRIES ON SUISSLAW

Jesse Bounds and L. B. Canfield Have Purchased Marsh Near Florence and Will Engage in New Industry — Will Plant Part This Spring.  
Jesse Bounds, of Eugene, and L. B. Canfield, of Cottage Grove, have just purchased 160 acres of land on the North Fork of the Siuslaw river, two miles from Florence, from Mr. Bounds' father, J. A. Bounds, and they will engage in the business of raising cranberries on the 20 acres of marsh land on the tract. Mr. Bounds returned this afternoon from Corvallis, where the deal for the land was closed with his father, who resides there.  
Mr. Bounds stated to a Guard reporter that he and Mr. Canfield will begin setting out cranberry plants at once and they will be bearing within two years from the time they are set out. They will not set the entire marsh to the berries this year, but will gradually increase the acreage until the 20 acres are covered with the vines.  
This marsh is very similar to those on Coos Bay and in Tillamook county, where the berry is extensively grown and profitably marketed, and the promoters of the enterprise on the Siuslaw see no reason why they cannot make a success of the venture.  
There are many who seem to be apologizing to the devil while pretending to be serving God.  
The better shape the tools, implements and machines are in the easier to do the season's work.
