CAKE SAYS THE PRINCIPLE WON

One of the cleanest political campaigns ever conducted in this state that of Mr. Cake, the successful candidate for Republican nomination for United States senator, says Oregon Daily Journal: From Mr. Cake's headquarters the campaign has been conducted along absolutely personal lines, the issue at stake being the cause of Statement No. 1. Mr. Cake for more than two years has been recognized as the Republican advocate of the popular election of United States senators. He attacks his nomination absolutely the cause of the popular election of United States senators.

Mr. Cake attributes the victory absolutely to the determination of the people to vote for the rights which they have labored to gain. My firm conviction with reference to the popular election of United States senators is that the cause of my selection by the Republicans of this state.

The defeat of Senator Fulton was in no sense to his personality, or to anything that he has done. In my estimation it is simply, as I said before, to the fact that the people demanded that the senators should be elected by popular vote, and that Mr. Fulton's election was not sufficiently positive to carry the people with him. A powerful cause of yesterday's victory, together with the sentiment in favor of Statement No. 1, was the support throughout the state of Oregon. There could be no more convincing illustration of their power. They are fully 80 per cent of the newspapers of the state which are the advocates of the popular election of senators and Statement No. 1. As exponents of that cause they supported me—not personally, but the one who was advocating the people's rights.

President Roosevelt Says.
That outdoor exercise is needed by American people. That's all that matters follow that advice. The answer is simple—use Ballard's Liniment, and the rheumatism goes, leaving you as spry as a fawn. Gives quick and permanent relief from rheumatism, neuralgia, back and all pains. Sold by all druggists.

REAL QUARREL
OF TWO BROTHERS
Lewis, Ida, April 23.—In a quarrel between two brothers, A. S. Henry Francis, the latter was probably fatally wounded. He quarreled over the possession of a ranch on which the shooting occurred. The wounded man was on his honeymoon. Both are wealthy men.

BIKE NEWS

By Frank Moore.

Frank L. Grant, of New York has been looking at Southern roads, with the idea of promoting some motorcycle races there this fall. He has been particularly interested in the roads about Savannah, owing to the possibility of big motorcar races being held on the proposed course near that city.

South Puts the Wheel to Work.
A number of Southern cities are taking the lead in adapting the bicycle to commercial use, and the excellent results secured will be of interest to merchants all over the land. In Atlanta a leading drug house utilizes some fifteen bicycles, and makes all its deliveries by wheel. This method has been found much more efficient as well as more economical, than the use of any other sort of vehicle.

In Birmingham the bicycle is also being put to work to good effect. Drug, grocery and shoe houses, and several other sorts of establishments whose wares are easily conveyed by wheel, are now employing bicycles fitted with carrier and their customers are much pleased with the celerity and promptness with which their orders are filled.

Jacksonville, Fla., is another southern city in which the commercial bicycle has come into its own. A large retail fish house makes all its deliveries by boys and wheels. In this case a special form of carrier is employed, which allows the fish to be packed with ice, and in that form this perishable merchandise is distributed all over the city.

President Elliot an Ardent Cyclist.
The establishment of a cycling club among some of Harvard's most aristocratic students has created more interest in the college than anything in the athletic line that has been developed in years. But as a matter of fact, the young gentlemen have had for years a notable example of the value of the wheel.

In the excellent physical condition of President Elliot. Although he has just celebrated his 74th birthday, he is doubtless the most active, the most athletic and the most strenuous college president in the country. For a man within a few years of the four score mark to rise at five in the morning and take a three or four mile spin on his wheel, to take in hand a spirited pair of bays and guide them through the crowded streets, to rush by train, auto, stage and on foot from state to state and through Canada as he has frequently done, stamps Harvard's head as a marvel of physical and mental activity.

But what really keeps President Elliot in good trim is his fondness—almost craze—for bicycle riding. College presidents in general do not ride bicycles, but President Elliot does. We usually start out about 7 in the morning nowadays, although it was only a few years ago he started for his morning ride punctually at five, when it was light enough to do so. A favorite jaunt is to Fresh Pond, but frequently he rides out into the country, where no doubt the calm of the woods and fields serve more than any other course to relieve the strain of his ever active mind. He seldom reaches his home later than eight o'clock so that he may be sure to have breakfast with other members of the family. Mrs. Elliot is also an enthusiastic cyclist, and frequently takes the morning ride with her husband.

QUEER TANGLE IN THE LIQUOR LAW

Judge's Ruling on Local Option Election Does Not Affect County Contest.

A Marshfield special says: More details received to day by Judge Hall regarding Judge Hamilton's ruling on the petitions of E. A. Becket and other Coquille liquor men to have the proposed local option election in June set aside, show that the ruling only affects the certain districts and not the county as a whole. The question for the county as a whole will be voted on June 1st, but a temporary injunction has been issued restraining the submission of the question to certain districts. The hearing on this injunction will be sometime during the present term of court and it is not unlikely that it will be made permanent.

Judge Hamilton upheld the liquor men's contention that the prohibition question according to the state law could not be submitted in certain districts more than once every two years. Now, it happens that the question was submitted about a year ago in certain districts that are now "wet," so unless arguments and law are presented to make Judge Hamilton change his ruling, the question cannot be submitted to these sections as districts again. However, the law permits these districts, as part of the county, to vote on the question again in June.

Under the law, all precincts in the county that gives a majority for prohibition shall remain "dry" for two years even if the total vote of the county is against prohibition. However, if the county as a whole, gives a majority for prohibition and even though the vote in certain precincts is against prohibition, these precincts as part of the county must remain "dry."

The liquor men claim that the law, owing to the above peculiarity, is one sided, and it is possible that they may attempt to make a test case against it. The prohibition workers, under the direction of the recently formed Coos County Anti-Saloon league, are preparing to make a strenuous campaign for their side.

"One Touch of Nature Makes the Whole World Kin."

When a rooster finds a fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write letters to the manufacturers for publication, that others similarly ailing may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by Dr. Stne's drug store.

C. A. Smith Co. Mortgages Timber Land for \$3,000.00.

Involving the sum of \$3,000,000 and covering immense tracts of timber in southern Oregon and northern California, the largest mortgage or deed of trust ever filed in the office of the county clerk of Douglas county, has just been presented to Clerk C. A. Smith. The mortgage is the C. A. Smith Timber Co., which is operating an immense sawmill at Coos Bay, and the mortgagee is the Central Trust Co., of Illinois. The consideration is secured by first mortgage at 6 per cent gold bonds, issued on a sliding scale, the last batch maturing April 1, 1917.

The stated purposes of the bond issue are to meet obligations aggregating a total of \$1,000,000 and to finance lumber manufacturing plants. The lands embraced in the transaction are situated in Eldorado and Humboldt counties, California, and in Coos, Curry, Douglas and Lincoln counties, Oregon. Those in Douglas county are in the following townships: 26 and 27-7; 23, 24, 26 and 27-8; 20, 21, 22, 23, 24, 30 and 31-9; 19, 20 and 21-10; 20 and 21-11, and 21-12.

Rheumatism.

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp weather or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. Price 25 cents; large size, 50 cents. Sold by Dr. Stne's drug store.

FRANK C. KELSAY GETS A CONTRACT

After a discussion lasting for nearly two hours, the city council, in regular session, by a vote of 6 to 5, granted a contract for engineering the proposed street paving and new bridges over Deer Creek to Frank C. Kelsay, of Portland, Ore. The compensation to be fixed on the basis of 4 1/2 per cent of the contract price of both projects combined.
