The Latest Croat Ties for Ladies

Railroad Commission—
The railroad commission is in receipt of a complaint from the Eugene Mill — Elevator company stating that the rates on lumber to that city is enormous. Before where they paid 14 and 15 cents, they now have to pay 23 and 31 cents. The railroad commission has also authorized the attorney general to force railroads which have been negligent in sending in their casualty reports to turn them in promptly hereafter.

Kennedy's Laxative Cough Syrup acts promptly yet gently on the chol, through which the cold is forced out of the system, and at the same time it allays inflammation. Sold by all druggists.

Had a House Warming.
The Corvallis Commercial club has dedicated elegant club headquarters in the new National Bank building.

Senior Class Play—
The modernized "Merchant of Venice" which the seniors of the high school will present at the opera house April 28, promises to be the best along the home talent line that has been given here for some time. It is the first time that a class from the high school has put a play at the opera house and they are doing their best to make it a success. The play deals with high social life throughout and is a complete burlesque on the original "Merchant of Venice." There are in the cast and two football teams. The costumes will be furnished by the Chicago Costuming

company and the music by the high school orchestra.

The Circus.
Acrobat finds it necessary at all times to keep his muscles and joints supple. That is the reason that hundreds of them keep a bottle of Ballard's Snow Liniment always on hand. A sure cure for rheumatism, cuts, sprains, sore throat, lame back, contracted muscles, corns, bunions, and all pains. Price 25c, 50c and \$1.00 per bottle sold by all dealers.

Skating, skating, skating tonight. 7.30 to 11.

There Is Nothing

in which delay is so dangerous as in Eye Trouble. When you consider that you can get along fairly well without any sense except sight, you will understand how important it is to take no chances with your eyes.

CALL IN AND LOOK THEM OVER

L. U. JOSSE, 367-371 Court Street

The New Iowa Dairy Separator

It pays to invest in the best machine you can buy. The best is none too good and is always the cheapest. The farmer who buys the best gets a machine that gives the least trouble, does the best work, lasts the longest and makes him the most money. That is why it pays to buy a "New Iowa." It is the perfect cream separator. There is no machine used on the farm today that approaches the perfection in construction of the "New Iowa." A trip through our factory would prove this statement absolutely. We give you here a few facts to back it up. We claim perfection for the "New Iowa" on these points:

The "New Iowa" bowl makes it practically twenty to thirty separators in one. We guarantee it to be the closest skimming cream separator on earth. We prove this. It is the cleanest skimmer, also, and leaves the butter fat particles in just the right condition for churning into the best butter.

The "New Iowa" will outlast any separator made. We make this part of our guarantee.

So easy running is the "New Iowa" that simply the weight of the handle is sufficient to start it. We will guarantee it to be easier running than any other separator made. Just waist high.

Easy to fill and no danger of spilling the milk. No back-breaking lift for any owner of a "New Iowa." Only four parts to the bowl of the "New Iowa." All cleaned in a few minutes' time. Not a gear in sight. Everything encased in a frame. Perfectly safe.

The "New Iowa" is the most sanitary machine manufactured by any firm. There is a lot in owning a neat looking, well finished separator. It will make the dairy a pleasant place as well as make the machine always salable.

When you consider the investment in a cream separator the original cost counts for nothing at all. It is the life of the machine, the satisfaction it will give you when in use and the possibility of disposing of it at a good price in case you ever want to sell it that counts.

The "New Iowa" is the standard machine, so can be disposed of profitably at any time. It is absolutely the best investment possible in the cream separator line.

It Pays to Buy a "New Iowa"

The "New Iowa" is built with an understanding of the tremendous force and strain caused in running the bowl weighing nine or ten pounds faster than a mile and a half a minute; consequently the concentrating of the weight low in the frame gives it wonderful strength and durability. It is simply another strong feature which makes the "New Iowa" the longest life cream separator manufactured.

The gearing in the "New Iowa" is arranged in much the same way as are the works in a watch. It is set close together and in as compact a space as possible. All the gearing except the crank shaft is firmly caged up in one single iron bracket, shown very accurately in the illustration on this page. Every shafting is set in heavy phosphor bronze bushings, which in combination with steel cases the least possible wear. In the case of the bowl spindle, which carries the greatest strain, the bronze bushing is set inside of a steel bushing, giving it an extra strength.

OUR GUARANTEE

We guarantee the "New Iowa" to be the closest skimming, most durable and easiest running Cream Separator manufactured.

We guarantee to our customers fair treatment and a square deal at all times.

We agree to make any reasonable adjustment at any time required to make up for any defective material or workmanship in the construction of the "New Iowa."

Buy a "New Iowa" under this kind of a guarantee. The kind that never wears out. Always remember that the "New Iowa" IS THE MACHINE TO BUY.
