- O. K. Grocery, A. A. Engleba & Co., Twelfth street.
- Wheeler's Store, W. D. Wheeler, Highland avenue.
- Yew Park Store, F. G. Bower & Co., Twelfth and Leslie.

TIME TO TAKE POLITICAL SOUNDINGS.

It might be wise for some of the political leaders in Oregon to take some soundings and LEARN THE DEPTH OF THE WATER THEY ARE SAILING.

They could take a few borings to good advantage before doing very much digging.

They have a machine that has worked very poorly with the materials they have had to handle for some years past.

Will they take a hunch and study their environment or will they dig away with an antiquated contrivance when they should employ more modern methods?

THEY COULD LEARN A LESSON AT PANAMA.

Engineers of the Panama canal have originated a method of determining the necessary construction of the dams that are to impound and guide the water supply for the big ditch.

THIS IS DONE BY BUILDING DAMS IN MINATURE.

In a wooden tank a section of dam is constructed one-twentieth the actual size.

Into the tank are pumped materials under conditions similar to those that will exist in the dam itself.

The miniature section is then subjected to water pressure. Records will be kept of the water seepage through the layers of soil, the degree of saturation and the erosion of the embankment.

When these are completed the engineers will know EXACTLY WHAT SORT OF MATERIAL IS REQUIRED.

the quantity and the method of construction for the big dams.

Studies of land slides—the most vexing of the canal problems—are being made in boxes in a similar manner.

When these and various other experiments are completed the canal zone will be the most thoroughly TESTED STRIP OF TERRITORY IN THE WORLD. It is now full of exploration pits and diamond drill holes.

The engineers will not only know the nature of the flow of surface streams, but of underground streams under each stratum of rock and in the various strata of earth.

Physicians operating a patient for an appendicitis operation could scarcely be more thorough than the men who are preparing to make the big incision in the earth's crust.

For instance, did the E. J. Dunbar machine do really good work for the people and the Republican party?

IT STANDS CHARGED WITH A JUDGMENT OF \$203,000 FOR FEES COLLECTED AND RETAINED.

Has the Ross-Steel political machine done anything creditable to the Republican party or beneficial to the people?

THE VERDICT AGAINST ROSS IS AN ANTI-MACHINE VERDICT.

Several more dilapidated machines could be brought out into view that have been doing no better work.

Is it not time for the coming state convention to demand A BETTER SET OF MACHINERY FOR OREGON REPUBLICANS?

ONE OF THE GREATEST CONFERENCES OF THE AGE.

From an industrial and economic standpoint, the conference called by

President Roosevelt to conserve the natural resources of our country, is one of the most important in history. It is a conference of governors and other public men called for a three days' session beginning May 12, and is GOING TO BE AN IMPORTANT GATHERING.

In the first place, every presidential candidate will be on hand—Taft, Bryan, Hughes, Johnson, Fairbanks, Gray Cannon, Knox, and all the rest.

Governor Frear, of Hawaii will make the pilgrimage from Honolulu with three delegates; the governor of Alaska has sent an enthusiastic acceptance, and then a host of plain American citizens will attend as delegates from all the national organizations which have to do with CONSERVATION OF THE COUNTRY'S NATURAL RESOURCES.

Forests, rivers, soils, mining, transportation, and agriculture are some of the big subjects that will be discussed.

President Roosevelt has long been deeply interested in the problem of how to get the most out of the earth while yet leaving THE GREATEST POSSIBLE STORE FOR FUTURE GENERATIONS.

The alarming increase in the devastation of a number of our natural resources, the wasteful cutting of timber, erosion of soil, river floods, etc., have brought them to believe that there should be some concerted action all over the country looking to their more conservative use and better protection.

Therefore, he has summoned the governors of the states to meet with him, and with the help of a large number of other public men, scientists, engineers and economists, try to thrash out a future course of action which shall result in a policy whereby it will be POSSIBLE TO EAT THE CAKE AND STILL HAVE SOME OF IT LEFT.

James J. Hill, president of the Great Northern railway, will make one of the opening addresses, dealing with the transportation problems. Andrew Carnegie will talk on ores and related minerals.

Former President John Mitchell, of the United Mine Workers, will speak on the coal question from the standpoint of the miner.

T. C. Chamberlain, one of the most foremost authorities on soil, will address the conference on the waste of the soil and ex-Governor George C. Pardee, of California, will dwell on the question OF LAND RECLAMATION.

There can be no greater undertaking than the preservation of the great wealth AND THE NATURAL WATER POWERS, and coal, oil and mineral wealth of the nation.

Only a great and progressive mind like that of our President could grasp such a situation in its entirety and act upon it as Roosevelt. Great good will come of it.

DOZEN FAMILIES DAILY

IS THE RECORD OF NEW ARRIVALS AT THE SALEM BOARD OF TRADE.

This is a busy time at the Board of Trade rooms, as from two to a dozen new families are arriving every day, and most of them show up at these headquarters. They call both as a matter of curiosity, to see the exhibit of products shown, and to size up the people who have induced them to emigrate to Salem.

This paper has published from day to day lists of newcomers who have registered there and shall continue to do so. In addition to the persons now coming in there is a large volume of correspondence, which indicates a continuous inflow of new people. Within the past few days letters have been received from many, and the Journal is permitted to give a little resume of this correspondence for the benefit of its readers, and it takes pleasure in thus presenting some of the fruits of the Salem Booster organization.

Mr. W. B. Milbery from a thriving Minnesota town writes under date of April 22nd: "I received your letter and literature about the Capital city of Oregon, for which please accept my thanks. Your description of Salem pleases me very much, and I will be there in August, with the intention of making my home in Salem. Two other families from here will precede us and I want you to send me some more literature and land lists as I believe by fall fully a dozen families in our neighborhood will be ready to leave this cold country for Oregon."

A gentleman from Munich, Germany, writes the secretary: "Dear Sir: Thank you for information. Prefer to write you again in English, as it is all the same to me and it makes it easier for you dictating the reply. I have now secured passage with the North German Lloyd and shall arrive in Salem about the beginning of July. Can you mention to me a cheap place boarding house where I can stay the first week after my arrival comfortably with my family, (wife and four children, aged 6 to 14). The proprietor should inform me as to prices for two adjoining bedrooms with or without meals, and he should send me a card or booklet showing some pictures and information about his establishment. I shall be very much obliged if, on my arrival at Salem, if you will give me such information as will help me to choose the right opportunity and avoid failure, which would be especially severe, inasmuch as I am going so far for climate and the benefit of the children. If I want again something which I cannot arrange myself I shall take the liberty to write you."

Mr. H. K. Cose, of Kentucky, writes for further information and adds: "If things are favorable it may be that two or three more families will come with us."

D. C. Pratt, from West Virginia, also asked a few more questions as to rents, prices of land, etc., and then says he is coming to start a high-grade poultry ranch. After he gets that on its feet he expects to come to town and enter some business occupation.

A German letter was received six weeks ago from Johan Petric, West Mineral, Kansas, asking for information. On the same day a letter was received in English from Frank Ferlan at the same place. These both answered and on the 18th inst. these two men, both sturdy Austrians, showed up at the Board of Trade rooms with bag and baggage. They apologized for not answering Secretary Hofer's letters, but made good with their presence. They left their little families in Kansas until they can locate on a small piece of land. They desired to be in a German Catholic community and were advised to investigate Mt. Angel and Sublimity, whence they have gone.

Adolph Westling writes from Idaho April 19th: "I have received your welcome letter and all the pamphlets you sent me. I have studied them over and I am pretty sure we shall come to your place."

Isaac W. Dasher, of Couer D'Alene, Idaho, wrote the Board of Trade March 6th for information, which was sent him. Again March 30th he wrote a letter manifesting further interest and on April 15th he wrote the following: "I will drop you a few lines this evening. I will leave Couer D'Alene the 22nd inst. for Salem. If you please, get me a house, a furnished one, as reasonably as you can." On the morning of the 21st Mr. Dasher and his family appeared at the Board of Trade rooms happy as children over their arrival in their new home. They are comfortably located and are now busy investigating some of their old neighbors in coming here.

A handsomely written German letter, dated April 9th was received from Theo. Keoberle from the Western Reserve in Ohio, in which the gentleman states, after asking a number of questions, that he will undoubtedly become a resident of Salem. He insisted upon having a reply in German, which the secretary proceeded to send him.

W. H. Norris, writes from Wichita, Kansas: "I expected to leave the first of April, for Salem, but have been detained on account of sickness."

The German correspondence all seems to be of a serious nature, and is bearing good fruits in the way of emigration. One of these Teutons writes from Hood River: "I would like about ten or twenty acres of land, and I would set it in apples

CENTRAL AMERICA TERROR

(United Press Leased Wire.)

Mexico City, April 23.—Advices were received here today from Tapachula and other points near the frontier of Guatemala that scores of political refugees have fled into Mexico from Guatemala during the last few days and that a state of terror exists among the people who have been identified with the element who are opposed to the Cabrera administration.

The recent execution of a number of prominent citizens in addition to eight students of the military academy who were alleged to have been implicated in the plot upon President Cabrera's life has intensified the feeling against Cabrera, and an open uprising is looked for within a few days.

The refugees who have arrived at Tapachula, include planters, bankers and men of wealth and high business standing. The Mexican government is massing a force of several thousand troops upon the frontier bordering on Guatemala. The Guatemalan government is mobilizing soldiers on that side of the border with the evident intention of repelling a possible invasion from Mexico.

A Knecker is a man who can't see good in any person or thing. It's a habit caused by a disordered liver. If you see things through blue spectacles, treat your liver to a good cleaning out process with Ballard's Herbine. A sure cure for constipation, dyspepsia, indigestion, sick headache, biliousness, all liver, stomach and bowel troubles. Sold by all druggists.

New Corporations—Telluride Gold Mining Company—Principal office, Grants, Paas, Oregon; capital stock, \$1,000,000; incorporators, A. E. Severance, H. P. Beery and Frederick B. Chandler. Union Carbide Sales Company—Incorporated under laws of West Virginia; capital stock, \$300,000; attorney in fact, Walter S. Dole, Portland, Oregon. Burnt River and Willow Creek Irrigation Company—Principal office, Portland, Oregon; capital stock, \$150,000; incorporators, P. A. Worthington, Geo. Stevenson and T. E. Gibbs.

Notice. To improve a portion of N. Cottage street, D street and Seventh street in the city of Salem. Notice is hereby given that at the regular meeting of the common council of the city of Salem, Oregon, held April 20, 1908, a resolution was adopted to improve North Cottage street in the city of Salem, Oregon, between the north line of North Mill Creek and the south line of D street; D street in the city of Salem, Oregon, between the west line of North Cottage street and the east line of Seventh street; Seventh street in the city of Salem, between the north line of D street and the south line of the Fair Ground Road, in the following manner:

By establishing a permanent grade on said streets between said points.

Said improvement shall include intersections and be continuous, extending from the north line of North Mill Creek to the south line of Fair Grounds Road, and said streets along the center thereof for a width of 16 feet shall be excavated to a depth of 10 inches below the grade of said streets, and when so excavated, shall be filled with clean creek or river gravel, so the surface of said improvement shall be level with the grade of said street. Said dirt so excavated shall be used in making a uniform grade so said street for full width will have proper drainage.

The cost of said improvement shall be assessed on abutting and adjacent property, as provided in the charter of said city.

Remonstrances against the above improvement may be filed within 20 days from the date of the first publication of this notice.

By order common council, W. A. Moores, recorder. Date of first publication of this notice, April 22, 1908. 4-22-108.

All Run Down

In the spring—that is the common thousands whose systems have been thrown off the impurities accumulated during the winter—blood humors are now causing pimples, skin eruptions, indigestion, and other troubles, dull headaches and tired, languid feelings.

Hood's Sarsaparilla removes all humors, cures all these troubles, vates, strengthens and tones the system. This is the testimony of thousands annually.

Accept no substitute for Hood's Sarsaparilla. Insist on having Hood's. Get it in liquid or tablet form.

SUMMER SCHOOLS. The first term of the Normal opens on May 1. Continues eight weeks. The second term opens June 29 and continues the August examinations. Classes will be formed in the branches for state and county papers. Tuition each term \$10. The course Primary Method begins June 15 and continues 30 days. Tuition \$7.50. Special work will be given in grade pupils. Address, J. J. KIRBY, Salem, Ore.

Dr. Stone's Drug Store. The only cash drug store in Oregon. Carries large stock of all counters and show cases with drugs, medicines, surgical articles, wines and liquors of kinds for medicinal purposes. Stone is a regular graduate of medicine, and has had many years' experience in the practice. Prescriptions free, and only regular price medicine. Dr. Stone can be seen in his drug store, Salem, Ore., in the morning until 9 o'clock.

TORRID ZONE FUNARCE. The above cut represents brick lined Torrid Zone. Guaranteed gas, smoke and proof. Economical and durable. A. L. FRASER, 250 STATE STREET, Estimates furnished on application.

HICKORY BARK Cough Remedy. Coughs, Colds, CROUP. Sore Throat. TYPICAL TRADE MARK. HICKORY BARK. PREPARED BY THE HICKORY BARK COMPANY, 111 N. 3rd St., Philadelphia, Pa.
