DEMOCRATS COMPLETE TICKET

FULL LEGISLATIVE TICKET HAS BEEN PUT IN FIELD—MAY BE AN INDEPENDENT CANDIDATE FOR COUNTY JUDGE.

The Democrats presented at the meeting of the county central committee yesterday afternoon succeeded in partly straightening out their very much muddled and tangled ticket, there having been many nominated through accident, or just who will not run for the offices for

Our Suits are beautiful and our prices are the lowest on the Pacific Coast.

WARFARE AGAINST CANNON

FULTON FORCES SEEK TO KEEP HIM OFF THE DELEGATION—ALICE LONGWORTH TOO BIG A PERSON TO BE ARRESTED.

(United Press Leased Wire.) Washington, April 30.—Open rebellion against Speaker Cannon was declared today by a number of Roosevelt Republican members of the house, under the leadership of Representative Townsend of Michigan, and from noon until the close of the session, there will be a battle-royal between the gavel and the big stick.

A petition for a conference of the Republicans to be held tomorrow evening was drawn up today, and 20 signatures were secured in short order. One of the first men to affix his name was Representative Heburn, chairman of the caucus and a big leader of the majority, who has long been disgruntled with the so-called gage rule of the speaker.

Battle for Prestige.
Portland, Or., April 30.—Open war in Oregon between the factions in the Republican party, headed by Senator C. W. Fulton and Senator Jonathan Bourne, is predicted in the Portland Journal tonight as a result of the meeting of the Republican state central committee Wednesday.

The Fulton men, declares the Journal, will not allow Bourne to head the state delegation to the Chicago convention. This is an honor due to Fulton, say Senator Fulton's friends, as he is a Taft man.

Likewise, Fulton men predict that Bourne will be defeated at the polls in 1912 and that Fulton will succeed him in the senate.

Chamberlain, it is hinted, will receive the quiet support of Fulton men in the coming campaign for the senatorship.

No Wa-want for Alice.
Washington, April 30.—Police-man Morris, of the Pennsylvania avenue squad, has asked for a warrant for the arrest of Mrs. Alice Longworth, daughter of the President of the United States, and has been turned down.

The offense committed by her was not serious—only automobile speeding—but Morris was told by Assistant Corporation Counsel Pugh, to whom he applied for the paper, that he did not have enough evidence against Mrs. Longworth to fill the corner of his eye. Morris is satisfied that he did his duty and can do no more.

Mrs. Longworth has a high-powered electric automobile all her own, and Policeman Morris says she appears the happiest in it when she is preceding great clouds of dust. He says he watched her on various occasions until he became convinced that she was violating the speed ordinance, but now he knows it is more difficult to get a warrant for the President's daughter than he thought it would be.

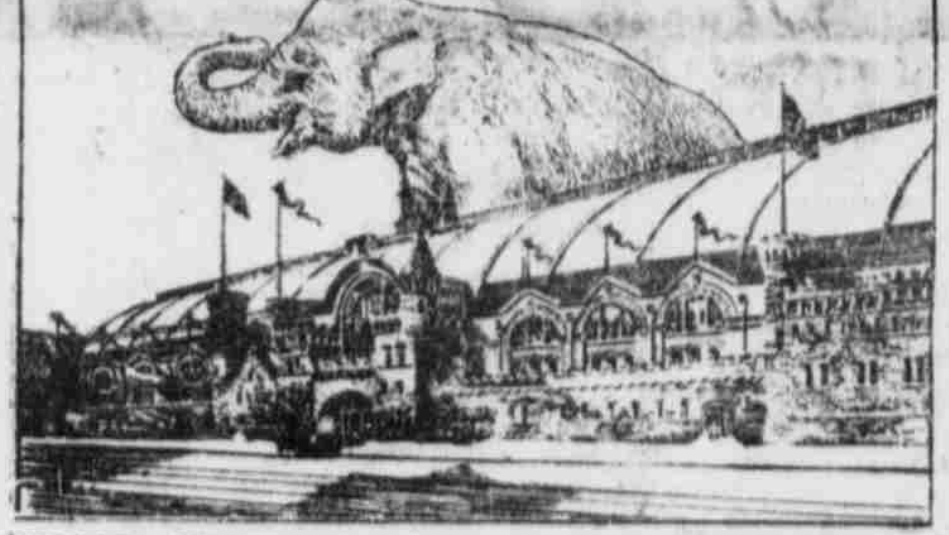

The oldest paper in the world, the famous Peking Gazette established 111 A. D., is today succeeded by a more modern government publica-

PRESIDIO THUNDERS WELCOME

HONORS RESERVED TO FOREIGN POWERS NONE TOO GOOD FOR AMERICAN VESSELS—SUSPECT ARRESTED.

(United Press Leased Wire.) San Francisco, April 30.—Army regulations will be waived to give the Atlantic fleet a salute from the big 12-inch guns at the Presidio and Fort Baker when it files through the Golden Gate.

The regulation provides that only foreign ships shall be saluted by these big guns, but Brigadier General

CHICAGO COLISEUM, SCENE OF THE REPUBLICAN NATIONAL CONVENTION, JUNE 16.

Frederick Funston has told the reception committee that a point would be stretched in this case and that the guns will boom a welcome.

"In this salute," he said, "we will use the 12-inch breech loading rifles, the finest guns our defense service has built. We will use black powder because it makes the most noise and the most smoke."

The committee expressed the wish that the battleships will reply to the salute.

After Big Gun Secrets.

Army officers at the Presidio are still puzzled over the order from Washington dismissing John Treadwell, a private in the Seventeenth company, coast artillery, from the service. However, it is known that the soldier was suspected of having attempted to learn the secret formula of explosive D, which is used in the big defense guns.

It is further reported that secret service men have been keeping a close watch on Treadwell and that this dismissal is the direct result of the report they made at Washington. It is said that he has been under surveillance ever since he entered at Denver four months ago.

Man Was an Expert.

Captain Long, of the 79th company, coast artillery, said today that he regarded Treadwell as a valuable man because of his knowledge of explosives and of the handling of guns. Captain Long and Treadwell made futile efforts to learn why the order of dismissal had been issued. Captain David Ketchum, post adjutant,

MERRY WIDOWS BANISHED

DECREES OF POLICE THAT THEY MUST GO—SHALL NOT HIDE VIEW OF THOUSANDS WHEN NAVAL PARADE TAKES PLACE

(United Press Leased Wire.) San Francisco, April 30.—Traffic to the "Merry widow" hat—so far as the board of public works, other city officials and the streetcar company are concerned.

This style of headgear has been doomed to exile sure enough. The theaters have already made their complaints, and now the streetcar

and railroad companies and the city officials are having their inning. This is the cruelest cut yet. The board of public works has put its foot down with much firmness and declared that it positively would not enlarge the doors of the city hall to admit blushing prospective brides wearing "Merry Widows." This is not all. The railroad and streetcar officials are said to have joined hands, and very willingly too, to establish a new rule classing the hats as dogs.

And more. Conspiring legislators are considering the advisability of enacting laws making the wearing of a "Merry Widow" a misdemeanor, its manufacture a crime and the sale of it a felony. One instance of the hat serving a good purpose—considered good by the man it served—was recorded when a burglar, caught red-handed, tried to hide behind one of them.

TRIED TO WRECK N. Y. FLYER

BUT WAS UNSUCCESSFUL

Cleveland, O., April 30.—An attempt made today to wreck the New York flyer on the Erie railroad was partly successful. A foreigner whose name is unknown threw a switch causing the train to crash into a string of empty passenger coaches on a siding. Twelve of the 75 passengers were slightly injured. The man was arrested.

Chicago Grain Market.

(United Press Leased Wire.) Chicago, April 30.—May wheat opened 95 1/2c; highest, 99 1/2c; lowest, 92 1/2c; closed 99 1/2c.

May oats opened 52 1/2c; highest, 52 1/2c; lowest, 52 1/2c; closed, 52 1/2c.

EXPLOSION SINKS A TRAINER

TWO HUNDRED OF CREW AND NAVAL CADETS PROBABLY WENT DOWN WITH ILL-FATED VESSEL OF THE MIKADO.

(United Press Leased Wire.) Tokyo, April 30.—A supplementary report received from Admiral Moshiamtsu, of the sunken Japanese training ship Matsushima, says that only 141 men on board the vessel when she went down early this morning off Pescadore islands were rescued. The admiral believes that all of these not accounted for perished. If this is so the number of dead will exceed 200.

Among the missing are the sons of Field Marshal Oyama and Vice-Foreign Minister Qinoda. The young men were cadets, of which the ship carried 800. Among the 141 known survivors are 58 cadets.

The disaster was caused by the accidental explosion of a projectile in the stock magazine. The entire magazine was blown up and before any of the boats could be launched the ship went to the bottom like a plume. The men in the vicinity of the magazine were torn to pieces by the explosion and others were hurled into the water by the terrific shock. Those below had no chance to escape and went to the bottom with the ship.

The cruiser Hashadate and Itakushima, which were accompanying the Matsushima, quickly stood by and picked up the survivors.

The captain and most of the other officers are among the dead. None of the survivors are able to explain the cause of the explosion and as all of the men in the magazine perished it is probable that it will never be known.

The Matsushima was the flagship in the battle of the Yalu and carried 50 officers and seamen besides the cadets.

Washington, April 30.—Acting Secretary of the Navy Newberry today sent the following cablegram to Commander Daugherty, American attaché at Tokio:

"Express to the minister of marine the deep sorrow and sympathy of the American navy over the accident to the Matsushima in which many gallant Japanese officers and men are reported to have lost their lives."

A Later Report.

Tokio, April 30.—A supplementary report received from Admiral Moshiamtsu regarding the sinking of the Japanese training cruiser Matsushima, says that 175 of the men on board when the vessel went down off the Pescadores were rescued and that 159 perished.

The accident is now believed to have occurred late Wednesday instead of early this morning, the dispatches being delayed in transmission.

Only the bridge of the sunken cruiser remains above the water. The rescued are three officers, 24 cadets, 7 non-commissioned officers and 141 members of the crew.

The dispatches received at the admiralty are conflicting and it is believed that the final figures will show a number of changes.
