EVIDENCE AGAINST YOUNG HEATH STRONG

(United Press Leased Wire.) Kanab, Utah, May 1.—Accused of the murder of Mary Stevens, a school girl, Alvin Heath, 17 years old, was arraigned today and entered a plea of not guilty.

The body of the girl was found on April 20 under some rocks in the canyon, near Orderville. Three bullets had been fired in the commission of the crime. The prosecution says the circumstantial evidence against Heath is strong. It is said that his shoes fit the footprints leading to and from the scene of the murder and that two days before Miss Stevens was killed Heath exchanged a pack of cards for a revolver, which he loaded with six bullets. The empty weapon was found in his possession, according to the police who have located witnesses who will testify that they saw Heath coming from the vicinity of the canyon on the day the girl was murdered.
