Why? Wink at the Grocer and learn.

Read It Before You Eat It

igation. Irrigated lands are all right. It rains when you want it to and you pay for it as so much per. In our valley it rains when you want it to and don't when you don't want it to. Lands cost only a fraction of what irrigated lands cost and you can raise just as much as you will.

"Inquiry is general as to Oregon. People want to know as to timber, wheat lands, fruit lands, business opportunities, etc. There is a general impression in the East that we are having hard times, whereas aside from the lumber industry we don't know that we have had a panic. Everything is normal except the lumber rate. Bank clearings are approaching the pre-panic volume. Activity in all lines marks progress. What Oregon most needs is 100,000 summer visitors, not for the money they would spend, but for discrimination of knowledge of the possibilities of our soil and climate, as also of our scenery and opportunities.

are usually necessary, the first just before the first worms are out and the second just before the maximum hatch of the first brood, 18 to 29 days after the first date, or June 2 to 5.

This year the cold nights have made the fruit crop more backward than usual, but has not checked the crop of codlin moths, which are out on schedule time, according to L. D. Harris, superintendent of the Lewis Orchard, who maintains a cage for the study and watching of all kinds of horticultural pests.

Medford Daily Tribune.

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merit, and made them medicines of known composition.

By this bold step Dr. Pierce has shown that his formulae are of such excellence that he is not afraid to subject them to the critical scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or retarding agents, and that they are made from native medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for women, nervous, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, some of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription, was known to the Indians as "Squaw-Weed." Our knowledge of the use of not a few of our most valuable native medicinal plants was gained from the Indians. As made up by Dr. Pierce's medicines, processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, an prolapsus, an inversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

OREGON MAN WAS WELL KNOWN

The following obituary on James C. Goodale published in the Chesaning Argus, of Chesaning, Michigan, the home of the deceased, may interest the many friends he left in this city:

James C. Goodale Dead.

Word has reached us of the death of James C. Goodale, which took place April 2, at Sawtelle, Cal., where he was on his way home to Salem, Oregon, from Savannah, Georgia, where he had been spending several weeks visiting. He leaves a wife and four children, four of whom reside in Oregon, and Mrs. Rose Goodale-Wallace, of St. Charles, Mich.

Mr. Goodale had been ailing for several months and went to Georgia with a hope of benefitting his health. Deceased, at the time of his death, was about 80 years old.

Mr. Goodale came to Chesaning from Monroe county, Mich., about the year 1859. He figured prominently in business matters here for several years. At one time he was proprietor of the old Chesaning House, located where Hotel Central now stands. For a time in connection with the hotel he ran a mercantile business. He built a store building on the east side the river and moved the store business into it. Some time afterward the store, together with several buildings, burned.

At the time of the incorporation of the village, April 12, 1869, Mr. Goodale was elected as one of the councilmen. He was also a charter member of the Chesaning Lodge, No. 103, I. O. O. F., and built for the order a hall on the location where M. L. Parshall's residence now stands. The building was first built three stories and before completion blew down. It was afterward rebuilt, two story, and remained on the corner up to a few years ago, when it was sold for a warehouse and moved near the M. C. R. R. track, and a year or two after burned. During his residence here, Mr. Goodale was the proprietor of a sawmill located on the west side of the M. C. R. R. track from the Cantwell warehouses. The year 1879, Mr. Goodale left Chesaning and located in Grayling, and engaged in the lumbering business. A few years later he left Grayling for Oregon to seek a new home and soon became interested in the lumber business.

His first wife died before he left Chesaning, and he was married again. The second wife died in Oregon a few years later, and for his third wife he married Mrs. Mary Merrill, a sister of his first wife.

The funeral was held by the Masonic order at his late home in Salem, Oregon, Sunday, April 5, from the First Presbyterian church, Rev. Babcock delivering the sermon.

Spray For Codlins.

Codlin moths are out. The first of the season. They began hatching Sunday, May 3. The first brood of worms will be out May 15. Spraying should be done in advance of the first worms just previous to the latter date to be most effective.

Codlin moths are the bane of the orchardist, or were before the right kind of spray was found and used. Orchard after orchard has been rendered worthless by them, and car after car of fruit made unsalable.

The spray used most effectively is three pounds of arsenate of lead to 50 gallons of water. Two sprayings

LAFKY RETURNS TO OREGON MORE THAN PLEASED

PATIALIST RETURNS AND TELLS OF CHANGED CONDITIONS IN EAST AND BETTER CONDITIONS ON COAST.

Those in doubt as to the value of Willamette valley lands compared with land in other states should see J. Lafky, who has just returned from an extensive trip in the Dakotas and Minnesota, and, although he has only been a resident of Salem for less than two years, he comes back with a spirit of loyalty and devotion to our climate which is worshipping of a native son. Mr. Lafky says there is greater feeling of unrest here ever before in the history of the region and everybody seems to be anxious to know about the great northwest, and especially Western Oregon. He thinks the flow of immigration will continue to increase to a wonderful degree. He has the

Difficult Breathing

Short breath, fluttering, palpitation, sinking spells are symptoms of a weak heart, struggling to do its work. It must keep the blood in circulation to carry nourishment to make flesh, bone and muscle, and remove the worn-out particles. When it cannot do this, it must have help. Dr. Miles' Heart Cure gives strength to the heart nerves and muscles, and increases the heart action.

"I am glad to say that I am so much improved in health. Dr. Miles' Heart Cure cured me when several doctors failed. I think no other medicine could do for me what Heart Cure has done. My case was bad; had as it would be at times, I had difficulty in getting my breath, my heart beat so fast at times that I thought it impossible to live without relief; the pain was very severe in my left side, and my nerves were all unstrung. I had almost given up all hope of being cured, and I am sure I would not, if I had not taken the Heart Cure. I take great pleasure in recommending Dr. Miles' remedies to all who suffer with heart disease."

MRS. MARY C. HAHLES, Sullivan, Mo.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

Miles Medical Co., Elkhart, Ind.

utmost faith in Oregon, and has shown it by his investments in Salem real estate and large holdings along the Portland Electric. These latter will gradually be cut up to accommodate the incoming home-builders. Mr. Lafky's judgment is that the Willamette Valley, while still in its expensive infancy, is going to have a substantial growth such as none of the Western states have ever known, and his further judgment is that the people who come here to invest are not getting sand piles and water ditches for their money but something in the way of property that will be abiding and constantly growing into greater wealth. When seen by a Journal reporter Mr. Lafky said in part:

"Our Eastern trip of six weeks gave us a view of the Sacramento valley, and some irrigated valleys of Nevada and Utah. We had five snow storms with 90 degrees of warm weather between times. This in eastern South Dakota and southern Minnesota. Some sections of Southern Minnesota and southeastern Dakota have had too much rain the past six years. It was dry last winter and this spring, but the tornado accompanied storms and flooded everything while there.

"A snow storm cut short a visit to friends and our former home. Our third attempt to start evergreens was successful as 90 out of the 100 planted three years ago, showed a good healthy growth, and looked good during a fierce snow storm. The horses we formerly owned were paid a visit. A good, progressive farmer now steers the helm, and we found him busy at the steer shed. Seeding is in progress.

"A city election did not decide the saloon question, as they are still counting. The official got rattled and recorded the results in the wrong column. A township inhabited by Germans voted no license two to one and we don't know of any total abstainers there either.

"Many were the inquiries as to our opinion of Oregon and how we liked it out there. Not buying until six months, and then only a home was the best answer. Buying heavily after a year's residence confirms the opinion.

"The parental roof came into view after a ride of twelve miles from Winona up the narrow valley. We wore that fur coat and it was buttoned up, too. Mother's rheumatism straightened it all out yet, but we hope the porter has. Woke up at 5:30 and disappeared on our arrival as by magic, and 75 years' of busy toll rested lightly on her. Eighty years rest easily on father. Their anxious care and forethought is with the next generation. Parental firmness has given way to kind indulgence.

"A new generation of neighbors has grown up and greet you as a returning prodigal. You are a stranger at home. Back to Salem per Milwaukee extension and Northern Pacific was the watchword at Aberdeen, South Dakota. But colonial tickets are only good through Omaha and St. Paul. So back East you go three hundred miles to enjoy another snowstorm and the Minnesota capital at St. Paul, May 1st.

Both were fine. Not even an upper in a tourist added twelve hours keen (?) enjoyment to the trip. North Dakota by day showed something bleak. Seeding is nearly done, and the country looks prosperous, but while the government report of the death rate is the lowest, we met none who had gone there for their health. Montana is no better except from Helena west. Eastern Washington's Big Bend was made in an upper tourist and we have not Prosser and the irrigated valleys with a background of bleak, barren hills. It is certainly fine, that is when the other fellow does the irrigating. Western Washington looked good. Hops are being supplanted in both districts by fruit. Summer and Puyallup are berry growers. The brush land sells at \$200 per acre.

"The depot at Tacoma affords nearly as good facilities as the Union stock yards at Chicago. We understand that Swift intends to build terminals at North Portland to excel Tacoma's in value and excellence by about \$3,000,000. The lone man at the gate turned the three hundred passengers loose. One by one into the four coaches already party loaded out of Seattle. No wonder there are so many people in Tacoma. They don't give them a chance to get away. Ladies stood in cars, and made for the smoker. We balanced our tired feeling against our fellow-feeling towards the yellow race, and we found them heavier, so we shared a seat with a Jap. Others had balanced theirs the other way, hence the chance came to sit down.

"The Willamette valley looks better than ever now. Better than in

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a **Swamp-Root** pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, **Swamp-Root**, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Sold in Salem by Dr. S. C. Stone

This woman says she was saved from an operation by Lydia E. Pinkham's Vegetable Compound.

Lena V. Henry, of Norristown, Ga., writes to Mrs. Pinkham:

"I suffered untold misery from female troubles. My doctor said an operation was the only chance I had, and I dreaded it almost as much as death.

"One day I read how other women had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it. Before I had taken the first bottle I was better, and now I am entirely cured.

"Every woman suffering with any female trouble should take Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.
