SHALL OREGON SEND A TAFT DELEGATION ?

The Great Struggle Is On In California--Wether the Herrin Machine Shall Send a Delegation To the National Convention--Or Wether It Shall Be For Taft--The Same Fight Is On In Oregon

The opponents of Taft for the presidency cannot claim that the big corporations are working for his no mination,

In California the Southern Pacific machine has fought Taft to a finish and will not allow him to have a delegate, Yet it appears that the Lincoln-Roosevelt organization has won out

and will be in control of the state convention, It is well known that if the Southern Pacific political machine in Ore-

gon can have its way Taft will get no delegates from this state, The un'awful convention that was held in Salem and presided over by a Southern Pacific attorney would not allow Taft's name to come before that convention,

The Capital Journal, has been for Taft because it believes he is the cleanest, ablest and most free from corporation influence of any man yet named except Roosevelt himsel f.

well that Murat Halstead gave him a job on the Commercial Gazette at six dollars a week.

Though Halstead offered to give him a raise if he would stay-to graduate him from reporting something higher-young Taft said he would do the graduation this time by himself and so leaving newspaper work with his testimonial of efficinecy as a law reporter he went over to his father with his three sheepskins and enough prizes to fill a cabinet, and became clerk in the office of Taft and Lloyd.

From this office he was graduated into assistant prosecuting attorney and filled the position so well that crime became unpopular in Cincin-He insisted that the guilty should go to the pen but he was so fair in his methods that those who inffered for their transgressions one and all respected him.

Again he was graduated. now became collector of internal revenue, with an annual production of whiskey and tobacco amounting to some \$10,000,000 to collect upon. He studied the business thoroughly and mastered it, but collecting was not congenial work and he was glad when once more the time to graduate arrived and he became assistant county solicitor.

He had not served the state under this diploma long, however, when a higher title was bestowed on him. He was graduated again. This time by the governor of the state to fill the unexpired term of a judge of the superior court of Ohio. At the end of the time he was to serve, he allowed his name to be put on the ballots as a candidate for re-election and he won. So was his degree confirmed and his graduation endorsed by the people of his native state. It is also the only time he has run for office in the many years he has been a graduater.

Graduation was surely a habit now. He raised Taft, now only 33 years of age, to the position of solicitor general of the United States with a salary of \$7000 a year, is better than even Halstead would have been able to supply. The appointment was the more gratifying inasmuch as the graduater had not even hinted that he wished for it.

In this position he won against Choate on the seal fisheries' dispute with Great Britain and in other cases of almost equal magnitude. In fact he always won though he had every executive department of the national government to advise and counsel.

Naturally such a record as this ed again to graduation and Taft, the graduater, returned to Cincinnati a judge of the United States circuit court having jurisdiction over Ohio, Michigan, Kentucky and Ten-

President McKinley noted work in this position and when the time arrived graduated Taft into the governership of the Philippines. Here the graduater made good magnificently. The Philippines for the Philippines was his motto and consistently did he live up to it that the Filipinos themselves came to re other man had been. When he left after his great achievements, they made him promise to return. year he did so, opening their diet-to

From the Philippines Taft was graduated to the war secretaryship by President Roosevelt, who has since said of him:

"His is a standard of absolutely unflinching rectitude on every point of public duty, and a literally dauntless courage and willingness to bear responsibility, with a knowledge of 160 Acres-Fine valley pasture land, men and a far reaching tact and kindliness which enable his great abilities and high principles to be of use in a way that would be impossible were he not gifted with the capacity to work hand and hand with his fellows."

The whole country, one might say the world, knows how he has made good in his present office. How he has quelled rebellion in Cuba, made the dirt fly on the Panama ca nal, cleared up things in Porto Rico and seen his proteges in the far distant Pacific well on the road to free and independent management

of their own affairs. There is only one step higher possible to an American and to Taft, the graduate; this will come in November of this year. With the inheritance, the training and the momentum of our secretary of war, on ly one result is possible and that is the election of William Howard Taff to the presidency of the 'United

Billousness and Constipation. For years I was trobuled with billousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and catharties only made mat ters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally. Mrs. Rosa Potts, Birmingham.
