## READY TO FIGHT ON RACE ACT

(United Press Leased Wire.)  
Albany, N. Y., May 11.—Interest, so far as the legislators of the Empire state are concerned, centers today in Albany, where tonight the special session of the legislature called by Governor Hughes will convene. Lawmakers are arriving from all parts of the state and many are already here to wage the fight for and against the governor's anti-race track gambling bills. Governor Hughes think he is going to win, believing that public sentiment is strong enough to pass the bills.

## PORTLAND MAY GET MEETING

(United Press Leased Wire.)  
Boston, Mass., May 11.—The convention of the national retail grocers association which convenes here today is contesting over the selection of a city for the next meeting. Portland and Seattle being pressed closely by other western cities, will make the hardest fight for the next convention, and the chances of it going to the west are exceedingly bright. There are indications that a lively contest will be waged over the election of a president, as candidates from several states are in the field. The convention will adjourn Thursday.

## SOCIALIST CHAIRMAN IS NAMED

(United Press Leased Wire.)  
Chicago, May 11.—John F. Carey, of Massachusetts, was this morning elected chairman of the Socialists on the national convention. Indications are that the convention will nominate its candidate for President on Thursday and will finally adjourn the following day.  
Gay Miller of Teuliride, Colo., will today extend to the convention the greetings of Ernest Miller, secretary of the Western Federation of Miners, which congratulates the Socialists on their splendid battle.

## NATIONAL DRAINAGE CONGRESS

(United Press Leased Wire.)  
Washington, May 11.—At the same time that President Roosevelt is conferring with the governors of the states and other prominent men at the White House on the preservation of the country's natural resources, an other representative gathering will meet here to consider an allied subject—drainage. The annual meeting of the drainage congress begins tomorrow and a large attendance is expected. All the governors have appointed delegates, and the boards of trade and commercial organizations of all the large cities will send representatives.  
Probably the most important question to be discussed at the conference of governors is that of forest utilization and preservation.

## SAILORS VIEWING 'FRISCO

(United Press Leased Wire.)  
San Francisco, May 11.—The sixth day of the fleet's stay in San Francisco bay broke cold and cloudy, but the unfavorable weather conditions did not deter hundreds of officers and men from coming ashore for sight-seeing trips. The officers were taken about the city in automobiles, while the men boarded the observation cars.  
Headed by a detachment of mounted police, 150 gaily decorated machines started out Market streets, thence over into Chinatown and the Latin quarter. In the party were Admirals Sabree, Swingurne, Dayton and Sperry, Mayor Taylor of San Francisco and Mayor Mott of Oakland.  
From the Latin quarter the machines whirled out to Golden Gate park and the beach. A stop was made on the beach for luncheon and the party then returned to the city by way of the Presidio.  
The first function for the chiefs and warrant officers was given today, when a party of 100 was taken up Mount Tamapais.  
This afternoon the preliminaries in the army and navy baseball championship are being played, and tonight the boxing tournament opens.

## CASE OF RUEF IS RESUMED

San Francisco, May 11.—The cross-examination of James L. Gallagher in the Ruef trial was resumed today. Gallagher testified that he was never arrested in the Parsidecase and had been granted immunity. He failed to remember having been called a "good dog" by Prosecutor Heney. He believed that the Parksidge matter was first broached to him by former Supervisors Boston and Wilson.

## ROYAL MURDER UNEXPLAINED

Berlin, May 11.—Friends of Baroness Udo von Ruexleben and her husband are still greatly puzzled over the former's rash act in shooting her husband to death in their chateau at Buddenburg, near Dortmund, and then attempting to commit suicide with the same pistol.  
Baron von Ruexleben was preparing to retire when the shot fired by his wife snuffed out his life.

## ENGINEER SLEPT EIGHTEEN KILLED.

London, May 11.—That the driver had fallen asleep on his engine for a few minutes is the remarkable and startling theory put forward by Lieutenant-Colonel Yorke in his report to the Board of Trade, to explain the terrible disaster which occurred on October 15 last at Shrewsbury, on the London & Northwestern and Great Western Joint Railway, when 18 persons were killed, 31 were injured severely and about 30 others slightly.

## GUNNESS VICTIM FOUGHT

(United Press Leased Wire.)  
La Porte, Ind., May 11.—Evidence came to light today indicating that Andrew Helgaline, one of Mrs. Gunness' alleged victims whose mutilated body was found in a sack on the Gunness farm, was murdered while making a desperate fight for his life. Dr. J. H. Meyer, who examined the corpse, reported to the coroner that he found several brown curl hairs clenched in Helgaline's right hand. It is supposed that in the death struggle he pulled this hair out of the scalp of his slayer. The police authorities are now willing to accept the original theory that Mrs. Gunness was burned to death in the fire which destroyed her home.

Chicago, May 11.—George Anderson of Tarkio, Mo., today related an experience he had in the Gunness home in La Porte after he had gone there answering one of the woman's matrimonial advertisements.

Anderson is now congratulating himself, as he thinks Mrs. Gunness made an attempt to kill him. He says that two years ago he noticed the "ad" in a newspaper and went to the Gunness farm. One night shortly after he arrived there he was awakened in the middle of the night by a noise. As he looked up he saw Mrs. Gunness bending over him. He cried out and the woman fled from the room. Anderson thought nothing of the incident at the time, but since all the bodies have been found in the back yard of the Gunness home he is sure that she entered his room to kill him that night.

Topeka, Kan., May 11.—Leon Townsend, a farmer and horse dealer, who lives five miles from Topeka, has received several letters from Mrs. Gunness inviting him to pay her a visit. He said today that he had read the woman's matrimonial "ad" and had intended to go to La Porte as soon as he had finished his spring work. He is wealthy.

days when they fought in battle together, Martin Gilbert walked 50 miles over the Nevada hills to see the old sea warrior when he arrived here on his way east.

Gilbert was standing in the front ranks of the 2000 persons who gathered at the depot when the train reached Reno Sunday morning. Evans raised the blind of his car and saw him.

"Hello there, Gilbert," shouted the former commander of the Atlantic fleet. "Come in and shake."

Gilbert climbed aboard. It was the first time the two men had met in 15 years, the first time since Evans, then commanding the Yorkton, threatened to blow up Valparaiso unless the Chilean government paid indemnity for the death of two Americans. Gilbert was then a coxswain under Evans.

**Thomas Weil.**  
Rear Admiral Thomas, the new commander of the Atlantic fleet, who was reported to be so ill Sunday that he had to take to his bed in the Fairmount hotel, was up and around early today and left for his flagship at about 9 o'clock this morning.

**Rich Man Run Over by Auto.**  
(United Press Leased Wire.)  
San Francisco, May 11.—William Dolan, a capitalist, while walking in Golden Gate park today with his wife, was run down by an automobile said to have been driven by Police Sergeant Gorman. Dolan was taken to the Park Emergency hospital, where he was treated for numerous lacerated wounds of the scalp and was removed to his home.

**Fire in Smith's Home.**  
A fire, which broke out in the residence of Dr. J. N. Smith, 1000 Broadway street this morning caused considerable property loss, and a number of persons were injured. The fire was averted only by the quick action of the neighbors. At 10 o'clock Mrs. Westcott, who lives next door, noticed a large volume of smoke rising from Dr. Smith's house. Rushing out upon the roof of the Smith residence she saw that nearly the whole of the Smith residence was ablaze.

When the great started Mrs. Smith's mother was the person in the house. Mrs. Westcott warned her that the house was on fire and then turned in an alarm.

When the fire started Mrs. Westcott had a fire extinguisher in the upper story of the house, and turned a stream of water on the blazing roof and down the side of the house. The fire was extinguished by this time the fire department had arrived, and the fire was directed to a well directed stream of water from the engine.

It seems that the fire was caused by a spark falling from the chimney as no leak can be discovered in the flues. One of the beams almost completely destroyed, most of the east roof will have to be replaced. The loss, which is estimated by insurance, has not yet been estimated, but it will probably be over three hundred dollars.
