SALEM VOTES FOR \$18,000,000 BONDS

(United Press Leased Wire.) San Francisco, May 12.—Citizens here are enthusiastic over the result of the bond election. The vote was 10 to 1 in favor of the bonds. The first step to be taken by the voters will be to estimate the cost of the improvements made possible by the sale of bonds and the amount of money to be expended. In a few months, possibly by the middle of August, work will com-

mence on the projects that will make San Francisco a larger and more beautiful city than ever. For an auxiliary fire system and lands necessary for it, bonds amounting to \$5,200,000 were approved; for a city sewer system, \$4,000,000; for school buildings and lands necessary for their sites, \$5,000,000; for public hospitals and necessary lands, \$2,000,000; for a new city hall and county jail, \$1,000,000; for a suitable garbage system, \$1,000,000.

Woman's Hat in History.

It is a little strange that such a common thing as that which occurred in the rooms of the Fortnightly club Tuesday afternoon do not take a wider range than that generally allowed them. Indeed, it is said offhand that the wider range the more interesting the subject, especially when the subject of discussion is "The History of the Hat," meaning, of course, feminine headgear—that is to women's hats. On the occasion to which we refer the creation known as woman's hat was traced back to the time of Eden, when it was a beautiful composition of leaves and tall feathers and from this time the evolution was followed closely, we are told, through Egypt, Assyria, Persia, Greece, Rome, Spain, France, Great Britain and America. In the present day, when it is being man into a financial corner on the one hand and off the side on the other. Not even Adam was not mentioned by name although he is entitled to the double distinction of being the first man to see a woman's hat and the first man to say whether or not it was on straight. In the present time, when the women are crying so loudly for larger rights and expecting them at the hands of man, it would seem as if it might be good judgment and good politics, to say nothing of common justice on their part to mention him in connection with a question involving a subject that has occasioned alternating peace and war, joy and sorrow, down through the ages. For example, while the leaders of the discussion were talking of the hat and legendary history of the hat, why could they not say as well, with the purpose of

pleasing the men and at the same time injecting a little human interest into the subject, have touched upon an incident like this:

Pharaoh was at his desk in the palace striving to devise some scheme for quieting the populace during the prevalence of the second plague, when his beautiful wife entered, radiant with smiles, in a new Merry Widow hat which sent the attendants and guards to the window recesses.

"How do you like it?" she asked, throwing her soul into the look which she gave her lord and master and lover.

"How much?" he asked, without looking up from the important 1 o'clock extra which he was engaged in perusing.

"Three pairs of oxen and seventeen quarters of wheat," was her confident reply.

"Ah," said he, aside, "this means that I must have my last summer's suit pressed over again," and then, aloud, "My dear, considering the general depression resulting from the uplift, it seems to me that they have stung you, but if you keep your promise not to invite your mamma to the place this spring I will admire the lid greatly."

Giving him a kiss which conveyed an assurance that the one desire of his heart should be satisfied, she gracefully swept a few pages out of the room with a turn of her head and departed.

The objection that such stories would not be true has nothing to do with the matter. The only question is, "Wouldn't they brighten the discussion and please the persons who pay for the headresses?"—Chicago Inter Ocean.

CASTORIA. The Kind You Have Always Bought. *Chas. H. Fletcher*

GRAFTER WANTS TO PAY BACK

(United Press Leased Wire.) San Francisco, May 12.—Evidence considered by the defense in the Ruef case, of the highest importance to the little ex-boss was adduced at this morning's session of court, when Ex-Supervisor Jennings Phillips, for the alleged bribery of whom Ruef is on trial, testified that he was not told and did not know that the money or offer of money for his vote in favor of the Parkside street railway franchise came from Ruef.

Phillips made some damaging statements against Ruef, but they have no bearing in the present case. Asked whether Ruef had ever asked him to commit a wrongful act, Phillips declared that Ruef broached the Bay Cities Water company project, the biggest thing yet.

The witness said Theodore Halsey, outside man for the Pacific Telephone company, had approached him.

Phillips amazed everybody in the court room when he stated that he is willing, even anxious, to get rid of \$2500 of the bribe money taken by him. The money that no longer looks good to him, he says, was given to him by the Pacific Telephone company, on his promise to vote against the granting of a franchise to the Home Telephone company.

JACK TAR IN DANCE OF 5000

(United Press Leased Wire.) San Francisco, May 12.—Excursions were the principal events on today's program of entertainment for the officers and men of the warships in the bay.

Under the auspices of the San Jose chamber of commerce 300 officers paid a visit to the pretty metropolis of the Santa Clara valley and the surrounding country. Five hundred enlisted men went over to Vallejo, where they were tendered a banquet by the ladies of the city.

This afternoon the inter-squadron cutter race will be rowed on the bay and army and navy baseball teams will play a game on the Presidio grounds.

Tonight, the first great function arranged for the enlisted men will take place at the Auditorium, when 2500 blue jackets will dance with women of social and naval prominence.

A blue jacket, chosen by lot, will lead the grand march with the ranking lady present.

SQUIRES TO MEET T. BURNS

(United Press Leased Wire.) London, May 12.—Tommy Burns, the American heavy weight, is going to pick up another bunch of easy money, the sacrificial offering being none other than poor old Boshter Bill Squires, whom the champion put out with a punch in San Francisco. The match between the fighters was arranged today, the syndicate that managed the Roche-Burns fight putting up a purse of \$7500. The contest will take place in Dublin the first week in July. A side bet of \$2500 has been deposited by the principals.

Squires, by his flig time victory over Roche, has acquired quite a following and despite the easy manner in which Burns disposed of him in their first fight, he will not lack backers.

PHONE STRIKE IS OFF

(United Press Leased Wire.) Butte, Mont., May 12.—The strike of the linemen and operators of the Rocky Mountain Telephone company, which has been on for more than a year, was declared off today on a referendum vote taken by the electrical workers' union. An agreement was reached by a compromise. The end of the strike means the end of the telephone war in Utah, Idaho and Wyoming.

TROOPS TO STOP REBELS

(United Press Leased Wire.) Teheran, Persia, May 12.—The shah is hurrying troops to Tabriz to help the newly appointed governor seize the town from which the inhabitants drove him after an all-day street battle.

The governor and his troops are awaiting the reinforcements' arrival outside the town. It is expected a severe example will be made of the rioters. Tabriz is meanwhile reported in a condition bordering on anarchy.

The Most Common Cause of Suffering.

Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all ills, and it is certainly gratifying to sufferers to know that Chamberlain's Liniment will afford relief, and make rest and sleep possible. In many cases the relief from pain, which is at first temporary, has become permanent, while in old people subject to chronic rheumatism, often brought on by dampness or changes in the weather, a permanent cure cannot be expected; the relief from pain which this liniment affords is alone worth many times its cost. 25 and 50 cent sizes for sale by Dr. Stone's drug store.
