## GLOVE WEEK--DON'T MISS IT

## POSTING FREE LOCKS

(Continued From Page 1.)

will ask that there be appropriated a sufficient amount to be used in connection with the \$300,000 appropriated by the State of Oregon for the acquisition and operation of the locks at Oregon City by the general government. In formal showing the value and importance of government ownership and operation will be invaluable. Will, therefore, have a committee appointed which will take an active interest in the matter and which will ascertain the amount of commerce passing in Marion county tributary to these locks, the amount of lockage fees paid, the increased cost of transportation by land due to the private ownership of these locks, the probable development of commerce, any resulting from government ownership, and all other matters in support of such appropriation. I request that this committee report to me in writing on October 1, 1908. The materials and evidence so obtained will be invaluable and I shall greatly appreciate this assistance and co-operation.

On motion a committee of three was appointed to place the necessary statistics before the congressional session. H. B. Thielsen reported on arrangements for special train to Newport to see the fleet pass. President Albert and Mayor Rodgers wired Secretary Metcalf when the fleet would pass at Newport and they had been made by the secretary up to last night. News would be had in time to enable all who wished to see the fleet to go to Newport the night before. Railroad rates will be made.

A report was submitted by T. C. Smith, Jr., Clarence Bishop and G. G. Brown, showing that as a result of their labors the express delivery limits had been extended to 25th street, and south to Belle street.

C. L. McNary reported on the question of incorporating the Board of Trade. It was referred to board trustees with power to act, the president to name incorporators. Amendments to the bylaws were reported from the trustees, read and adopted, to be voted on at next monthly meeting.

The Rose float, J. L. Stockton reported from the Business Men's League that the sentiment of the merchants was unanimously in favor of a float. He hoped

Salem had enough life, energy and enterprise to be represented. In the spirit of progress and loyalty the Capital City should go forward and be one of the cities in that display. He suggested that part of the \$500 set aside for the Cherry fair be used for the Rose show. Mr. Powers said if the business men would put up the cups the Cherry fair could be run for \$150. A motion was made that the Board of Trade take up proper representation at the Portland Rose Show, and the executive committee proceed to provide exhibit at a total cost not to exceed \$600. Mr. Thielsen moved to amend that the committee use as much as they could provide funds. Frank Derby said all the committee were in favor of the float at the Portland Rose show.

Mr. Albert called Judge Scott to the chair and took the floor and showed that it was possible to have a part in the parade in some other way—in a manner that would be satisfactory. Salem would be in the parade at the Rose show. If left to the executive committee there would be a creditable exhibition. The amended motion was adopted.

On motion of J. L. Stockton it was voted that the city celebrate the Fourth of July. President Albert was authorized to name a committee. The Bankers' convention is to meet at Salem May 27 and 28.

### Rain in California.

(United Press Leased Wire.) San Francisco, May 14.—The bay section of California was visited early this morning by heavy showers. Reports from the interior show that Santa Rosa and the lower end of Sacramento valley have also received good drenchings. The weather bureau forecasts showers this afternoon and tonight. The present rain is doing a general good, although there will be a little damage to hay and berries.

## TOO MANY BEARS IN NEWPORT

(United Press Leased Wire.) Newport, Or., May 14.—Bears have become so numerous in the vicinity of Newport, Or., that the ranchers of that community have organized to exterminate them. During the last week a number of fine cows were killed within a few hundred feet of the farm house belonging to William Guillaume, six miles from Newport. Other ranchers are suffering in the same way.

## DAYS OF MEDIUMS LIMITED

(United Press Leased Wire.) Portland, Or., May 14.—It may soon be a violation of a city ordinance to pursue the profession of clairvoyant, trance medium, test, second and crystal gazer in Portland. Probing into the shadowy mists of the future or handling the business and love affairs of the uncertain by the aid of "little bright eyes" or "Dr. Coleman" will be strictly tabooed by the Portland police and the seer and seeress of the occult and the dabbler into the mystic for sordid dross will have to leave for richer and more verdant fields to conquer. The ordinance has been introduced by Alderman Dr. Cottell and is receiving the support of the regular members of the medical profession and the ministers.

## DIVORCE GRANTED M'KEES

(United Press Leased Wire.) Paris, May 14.—The famous McKee divorce suit, which has been attracting so much attention here for several days, was finally disposed of today when the court granted a decree to both Hart McKee, the Pittsburgh millionaire, and his wife, formerly Mrs. Hugh Tevis. The court ruled that the costs of the hearing must be divided between them and gave Hugh Tevis, McKee's stepson, into the custody of Mrs. McKee. The latter is not granted any financial allowance, but McKee is required by the decision in the case to contribute \$200 monthly toward the support of the child. McKee has dismissed the libel suit he started against his now former wife and her father. In announcing the decision the court declared that it had been shown that McKee yielded to the most vicious impulses, and that the charges of immorality against McKee were not proved.

## MAY GIVE UP EXPORT BUSINESS

(United Press Leased Wire.) Chicago, May 14.—Owing to the interstate commerce commission decision, the trans-continental railroads are threatening to go out of Asiatic and Oriental export business from which they derive between \$2,000,000 and \$3,000,000 revenue annually. For more than a week the trans-continental freight bureau has been in session here, with a view to determining what can be done in the crisis which confronts its members. One of the decisions which bothers the railroads was given with respect to the port carrying trade and other with respect to the rates on cotton piece goods. The commission has decided that the railroad must publish the inland proportions of export rates.

People should take a hand in trying to make crooked politics straight.

We Undersell "Regular Stores" On Reliable Merchandise

## WARNING SOUNDED BY HILL

(United Press Leased Wire.) Washington, May 14.—James J. Hill, the railroad king, sounded a note of warning at today's session of the governors' conference, when, in a carefully prepared address, he declared that if immediate steps for the conservation of the forests on the Pacific coast are not taken, some varieties of timber will be exhausted within 10 or 12 years. "The Pacific coast," he said, "has a considerable body of merchantable standing timber, but we are consuming yearly three or four times as much timber as the forest growth restores. Our supply of some varieties will be exhausted with 10 or 12 years. Without re-foresting the present century will see the complete wiping out of these forests. "The exhaustion of the coal supply is not in the definite future. Fifty years ago the annual per capita production was a little over a quarter of a ton while now it is five tons." Regarding the unsettled lands in the west, the speaker said that practically the whole interior had been settled within the past 50 years and asked what the country will offer next. "It is no longer possible," he declared, for us to say that 'Uncle Sam has a farm for all of us.'"  
Mr. Hill closed with a strong plea for the conservation of the minerals. Washington, May 14.—President Roosevelt opened the morning session, and after announcing that Governor Charles S. Deneen, of Illinois, would preside at the afternoon session, introduced Mr. Hill.

**EXPECT TO FIND BIG ELDERADO**  
(Continued From Page 1.)  
Seattle, Wash., May 14.—Prepared to plunge into the icy fastness of the Arctic circle in search of a fabulously rich pay streak which is said to exist in those regions and to be the mother lode for all the rich pocket deposits found along the Alaskan coast, three miners, James Burfield, John Blos and J. M. Lauderbach, have left for Herchel Island. They have invested \$20,000 in their outfit. A year ago the father of Lauderbach died. Just before passing away he gave his son directions for finding the mother lode.

### Seed Corn

This is a specialty with us and we have a large stock of selected corn. Our Oregon grown stock is very fine.

### Summer Spray

We have the prepared Arsenate of Lead, ready to use. No danger of burning your trees when you use it.
