## FIGHTERS READY FOR THE FRAY

(United Press Leased Wire.)

San Francisco, May 14.—"Boer" Unholz and Joe Gans are ready for the gong that will call them into the ring at the Coliseum tonight for their 20-round clash. Neither will be bothered by the ring-side weighing as they are safely within the 133-pound limit.

The few admirers that Unholz has insist that he is going to spring a big surprise on the San Francisco fight public and that Gans is going to have the toughest time of his ring career, but this sort of talk is not scaring the Gans followers, whose money is going begging at 3 to 1. Very few wagers are being recorded and the fight promises to be the lightest betting affair in years.

The match has failed to arouse any great degree of interest and the indications are that the house will be a light one.

## OLDEST SOLDIER LIVING

(United Press Leased Wire.)

Santa Rosa, Cal., May 14.—William O. Clark, who has the rare distinction of being the oldest living American soldier, is on a lecture tour despite his 91 years.

At present he is living with his nephew, Lewis Cooper, of this city. Clark, who is a resident of Dry Town in Amador county, was born in 1817. When still in his teens he enlisted in Uncle Sam's army and fought in the war against the Mohawks and Sacs in the volunteer service. After the war department learned recently that he was the oldest living soldier, he was granted a pension. Clark traveled around the world preaching temperance while General Grant was President of the United States. He is now devoting all his time in delivering lectures to young men.

## FEAR TAMPERING WITH ENGINES ON WARSHIPS

(United Press Leased Wire.)

San Francisco, May 14.—A special order has been issued to Admiral Thomas directed to the fleet captains directing them to take every precaution to prevent any strangers from gaining access to the engine or fire rooms of their ships.

The issuance of the order has caused a great deal of comment among the officers of the fleet, as a general order is already in force prohibiting strangers from visiting the engine rooms.

That the government is in possession of information directly connected with the issuance of the order is the general belief of the officers. A feature of the fleet's visit to this port which has passed without notice until the present order was issued is the fact that not a single

Japanese has been aboard one of the ships since the arrival of the fleet here.

Taken in connection with the order the sentiment is expressed by a number of the officers that the leaders of the local Japanese colony knowing that the government was in possession of information leading to the belief that an attempt might be made to injure some of the ships advised their countrymen to keep away from the ships.

No information concerning the issuance of the order, except that it is a natural precautionary measure, has been given out from the flagship. However, the most careful surveillance of strangers visiting the ships and closer guarding of the engine rooms has been instituted here than at any port the fleet has visited.
