

## Don't Heat the Kitchen

All the necessary family cooking may be done as well on a New Perfection Wick, Blue Flame Oil Cook-Stove as on the best coal or wood range.

By using the "New Perfection" Oil Stove, the annoyance of an overheated and stuffy kitchen is entirely avoided, even in midsummer. The construction of the

## NEW PERFECTION

### Wick Blue Flame Oil Cook-Stove

is such that the heat is thrown directly upward against the kettle or pan upon the stove top, without affecting the atmosphere of the room to an appreciable degree.

You can at once see the advantage of this stove over a great range which throws heat in all directions—it is the ideal summer stove.

If your dealer does not have the "New Perfection" write our nearest agency.

The **Rayo Lamp** is substantially made of brass, finely nickelled and very handsome. Gives a powerful light and burns for hours with one filling. Portable, safe, convenient—just what every home needs.

If not with your dealer, write our nearest agency.

### Salem Musical News.

This evening at 7:30 after rehearsal all the members of the Methodist chorus choir will be highly entertained at the home of Mrs. John H. McNary, corner of Center and Summer streets. Refreshments will be served and no doubt the singers and musicians will all spend a very pleasant evening.

Miss Mabel Lance, a pupil of Miss Magers, is singing solos at the First Church of Christ, Scientist, very acceptably.

The last concert recital of the year will be given next Wednesday evening in the Willamette University chapel by the students of the college of music. They will also be assisted by other members of the college of music.

The music lovers will be glad to learn that the Beethoven Trio which is composed of the following artists: Leroy Gesner, Edward Capper and Arthur von Jessen, will make their initial appearance in public on that evening.

Miss Edna Browning and Mr. J. Frank Hughes will each render a solo.

An interesting and perhaps the most humorous feature of the evening will be the rural cantata entitled "No Song, No Supper." While the cantata is bright and humorous, the music will be of a high class. Perhaps it will be interesting to the readers to learn that this cantata was first produced in London, England, about 150 years ago.

Those who will appear in paint and costume as sailors, lawyers and pretty maids are: Paul Anderson, Maurice Roberts, Virgie Lloyd, Mernie A. Hug, Nine Johnson, Eleanor Colony and Dr. R. A. Heritage, who is dean of the college of music.

The concert promises to be very fine and the large audience which is expected to be present, no doubt, will feel, after such an excellent musical treat, that "music washes away from the soul the dust of every day life," and that "Song brings with itself a cheerfulness that wakes the heart to joy."

At the First Congregational church the excellent quartet composed of the following members: Mrs. Carleton Smith, Mrs. W. P. Babcock, Mr. McGilchrist and Mr. Douglas, will render their music next Sunday as follows: Morning: "Gloria Patri" (Danks); anthem, "Praise Ye the Father" (Gounod); anthem, "Heaven Is My Home" (Neolin). Evening: "Gloria Patri" (Danks); anthem, "Deus Misereatur" (Danks).

Next Sunday morning at the First Presbyterian church Mrs. Mernie A. Hug will sing "Salvation." The words to this selection were written by Isaac Watts and the music was composed by Matbie D. Babcock, D. D., who is a brother to the Rev. H. T. Babcock of this city. Offertory, Hayden's "Serenade," string quartet. Evening: Tenor solo, "First Begotten of the Dead," Mr. T. L. Williams; mixed quartet, "I Beheld and Go" (Chas. H. Morse); offertory cello duet "The Angel" (Rubenstein), Mr. Will Ketchum and Mr. Louis Steelhammer.

Special music will be furnished by the young men of the Christian Endeavor society of the Presbyterian church at a special meeting of the society which is entirely in charge of young men. The society meets at 6:30 p. m. and Judge Moore was appointed leader for the evening.

The members of the First Methodist church will have the pleasure of listening to the following musical selections: Morning: Prelude "Chant Triomphale" (Harry Gaul); offertory in "F." (Gemeigre); quartet, "Prohibition Bells" by Willamette University girls; anthem, "I and Glory of the Lord" from the "Messiah" (Handel); postlude, "Famfare" (Lemmens).

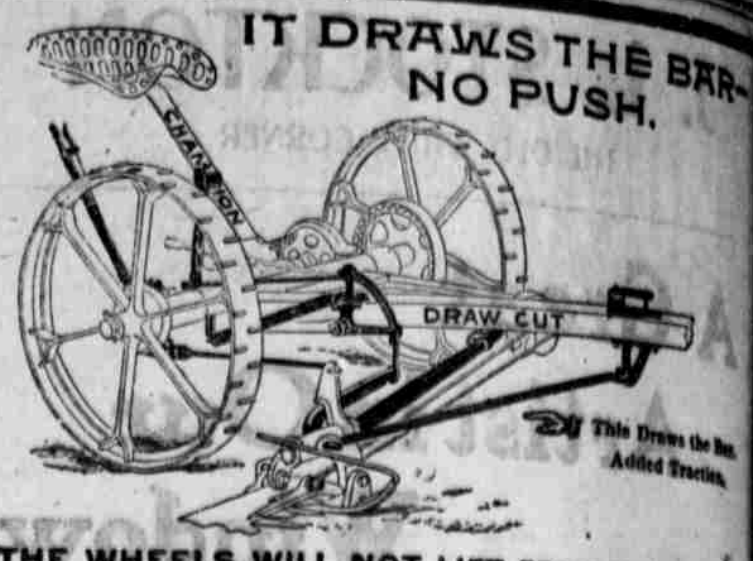

Evening: Prelude "Le Carillon" (Wolstenholme); offertory, "Adagio" (Beethoven); anthem, "My Faith Looks up to Thee" (Bassford); postlude in "Eb" (Folkes). Dr. R. A. Heritage, choir master. Prof. Thomas S. Roberts, organist.

Insist upon DeWitt's Witch Hazel Salve. It is especially good for piles. Sold by all druggists.

Proposals for Science Building. Sealed proposals plainly marked, on the outside of the sealed envelope, "Proposals for Science Building, Oregon Agricultural College, Corvallis, Or., and addressed to the Secy. of the Board of Regents, E. E. Wilson, at college office, until 3 o'clock p. m. of June 2, 1908, for the construction and completion of a three story brick and concrete, science building, at Corvallis, Or., in strict accordance with the plans, specifications and instructions to bidders which may be examined at the office of the Secy., at the college, and at the office of the architects, Bennes, Hendricks & Tobey, 67 Labbe Building, Portland, Or.

## Champion Draw-cut Mower

The construction of the New Champion Draw-Cut Mower, which gives this mower its name, is clearly shown in the illustration presented on this page. This draw rod extending from the inner side of the cutter bar to the pole is the foremost feature of this mower. This draw rod pulls the cutter bar over the ground from a point in front and also firmly supports it. The great cutting power which this mower possesses is thus explained, as it will be seen that the bar is not pushed from behind at all.

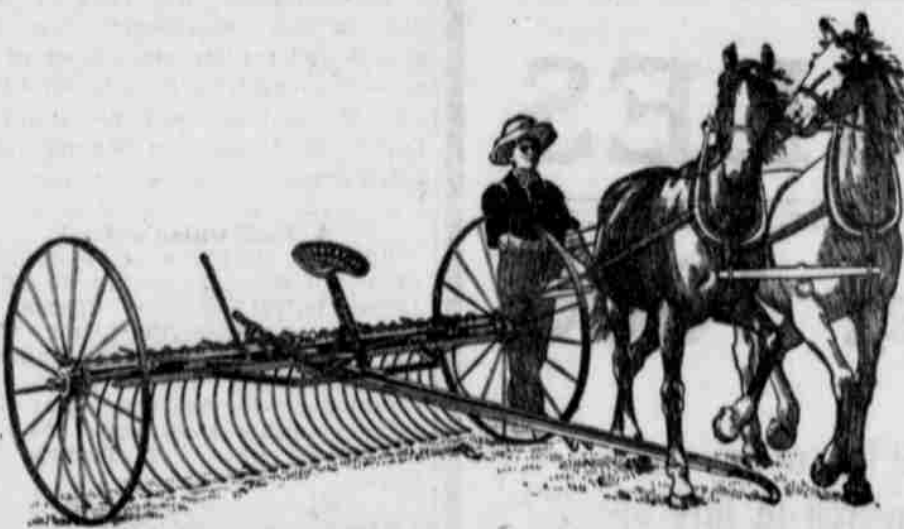

The construction of the New Champion Mower will be found all that is desired. The wheels on this mower are built high and strong, and are set just far enough apart to carry the width of cutter bar required. Perfect balance of the entire mechanism is assured because of the manner in which the parts are placed on the axle.

The great traction possessed by the New Champion Mower is obtained by this perfect construction and the fact that the cutter bar is drawn instead of pushed.

The perfect balance of the New Champion Draw-Cut Mower is one of the many distinguishing features of this mower and should receive the attention of every intending purchaser. When the cutter bar is raised to pass an obstruction there is no more neck weight than when the bar is on the ground in operation. The seat is adjustable forward and backward, and when the driver is very heavy, the seat may be moved forward until perfect balance is secured. On inferior mowers these features will not be found. In most cases the entire weight of the cutter bar when raised is thrown on the horse's back.

When examining the Champion Draw-Cut Mower, particular attention is directed to the following well-known features:

- Draw-cut construction.
- Method of aligning the cutter bar.
- Simple pitman and connections.
- Protected bearings.
- Continuous wearing plates on cutter bar.

## The New Champion Lock Lever Self-Dump Hay Rake

Champion Rakes have met with great success in the past. It justifies the assertion that they are second to none in any particular, and the new improvements will aid them to keep up the marvelous strides in the trade which they have already made.

New Champion Rakes are as perfect in construction and operation as it is possible for hay rakes to be. They have many devices which cost the purchaser nothing over others, and double the life of a rake.

**Lock Lever.** Teeth may be locked down for gathering, so that large windrows or bunches may be made without effort.

**Hand Latch.** To change position of teeth on ground, within easy reach from seat.

**Hand Lever.** On self-dump rake; used only when bunching.

**Wheels.** Well made, with strong, staggered, oval spokes, heavy flanged tires. Wheels neither right nor lefts, making it possible, by exchanging wheels and reversing ratches, to give them double use.

**Teeth.** Are tested spring steel, and the tooth-holders, the greatest cause of breakage and delay in the rakes, are of malleable iron and will not break.

**Frame.** Straight, strong and rigid. Teeth are always in perfect alignment. Adjustable transverse.

**Adjustable Snub.** So that teeth will rise any desired height, yet return instantly to the ground when the windrow is cleared.

Made in the following sizes:

- 8 feet, 20 teeth; weight, 400 lbs.
- 9 feet, 24 teeth; weight, 436 lbs.
- 10 feet, 26 teeth; weight, 445 lbs.
- 12 feet, 32 teeth, Jumbo wheels; weight, 508 lbs.

Can furnish Jumbo wheels on all sizes at extra charge.
