Do You Open Your Mouth

Like a young bird and gulp down what-ever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine omploy whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes, broadcast and on each bottle wrapper, what his medicines are made of and verifies lymider out. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curalive virtue. nore will their superior curative virtue

It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasma, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic discusses of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend anch of the zeveral ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for pourseif by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. Successor WALTER MORLEY. WOOL COMING TO THE BAKER MARKET

(Baker City Herald.)

.The wool market this year promises to be better than it has for several years. Word comes from Arlington that on Saturday there was an auction sale held at that place and 100,000 posinds of wool was placed on the market for disposal. The highest bid was 8% cents and the wool was not sold. The reasons for the low price bid for the wool was due to its condition, as it was not first-class and had some sand in 12 1/2 cents, which are very good prices. Mr. C. S. L. Smith, a prominent sheep man of John Day, recently brought in from that place 300,000 pounds of wool to Baker which has been placed in the local wool warehouse. Considering that this amount is wool from only one brought to this city and other woor centers promises to be almost un-
