HOOD RIVER COUNTY.

This bill is submitted under the initiative for the following, among other reasons:

A county is a public corporation and it is apparent that section 2 of article XI, of the Constitution of Oregon, as amended, reserves to the people the right to create a county by initiative vote.

There is no general law for the creation of counties now, and no one knows when, if ever, there will be one. The facts as to area, population and assessed valuation show that we are able to maintain a county government. Out of a population of about 7,500 the desire of a county for the Hood River country is earnest and unanimous with the exception of a small fraction of one per cent. We are assured by leading citizens of The Dalles, Dufur and other portions of Wasco county that they have no objections to the creation of Hood River County as proposed in this bill. More than 400 residents of The Dalles and Dufur have signed the petition asking that this bill be submitted to a vote at the June election, though forty-five names from Dufur were received too late to be filed with the Secretary of State.

The people of the Hood River country therefore ask favorable consideration of the voters of the State upon this bill for these, among other, reasons:

Because the new county will be a great benefit to the people residing therein and will facilitate the transaction of their county business.

Because as the law stands a county cannot be created by the Legislature; and finally,

Because the people of The Dalles and the balance of Wasco county are willing that Hood River county may be created as provided in this bill.

The assessed valuation in the proposed Hood River County in 1903 was \$908,568.00; in 1906 was \$1,618,670, showing a gain in valuation from 1903 to 1906 of \$710,102, or about 78 per cent. The valuation in 1907 was \$2,762,256.00; a gain over 1906 of \$1,143,586.00, or about 70 per cent, showing the proportionate increase in one year from 1906 to 1907 to be almost as great as that in three years from 1903 to 1906.

The proposed Hood River County has a population of about 7,500; an area of about 500 square miles; and twenty school houses, seven of which are graded schools having from two to eight rooms each and with a \$30,000.00 high school under construction.

There will be left in Wasco County, after Hood River County is created, an area of 1,646 square miles, a population of 11,500; and a valuation of \$5,457,720.00, thus leaving it among the largest and strongest counties of the State.

NEGRO AND WHITE ARE MARRIED

(United Press Leased Wire.)

New York, May 29—The first direct result of the activity of the Cosmopolitan Club, which gave the famous dinner last month at which white women and negro men were seated alternately at the tables, came today in the wedding of Joseph Antonia Maceo, a negro, and Isabel Mackey, a beautiful American girl and a decided blonde.

Maceo is a son of General Maceo, the Cuban patriot, and has been a student at Syracuse university, where he says his expenses were paid by the Cuban government.

The couple were not participants in the Cosmopolitan dinner but each of them has been interested in the movement, which has as its lofty aim the brotherhood of all races of the world.

The wedding ceremony was performed this morning in the First Baptist church by the Rev. C. A. Fulton, the pastor, and was attended by many of the Cosmopolitan club members who look upon it as a great event, in the "amalgamation of the races."

ONE THOUSAND GRAND FACTS OF PRODUCTION

The Sunset Publishing Co., of San Francisco, has just published 20,000 folders by the above title, embodying the 1000 facts about the crops produced in the eight counties of the Willamette valley.

These facts were compiled this spring by the Willamette Valley Development league and the introduction gives the officers credit for the work done in a very effective manner. The folder will be circulated by the hundreds of thousands, and is acknowledged to be one of the greatest and best advertising publications ever compiled. It is devoid of hot air, exaggeration, and misrepresentation, because each state made is signed by the name of the producer.

The Willamette Valley Development league is a voluntary organization, has no salaried officers, and levies no contributions from anyone and its work has been carried on for all western Oregon for the past three years entirely without expense to anyone but the officers themselves.
