

Does not Color the Hair Destroys Dandruff AYER'S HAIR VIGOR

LATEST CYCLING NEWS

(By Frank J. Moore.)

Decoration Day as a Cycling Date.—In many years has cycling given so great prominence in Decoration Day athletics, as was the case this year. While many of the cards included motorcycle racing was, after all, the bicycling events that were the most numerous, as wide spread popularity of the sport is well attested by the following list of cities, which figured in the day's dispatches as the scenes of cycling activity: St. Louis, Mo.; Philadelphia, Pa.; Rochester, N. Y.; Chicago, Ill.; Tonawanda, N. Y.; Buffalo, N. Y.; Gloucester City, N. J.; Manassas, N. J.; New York City, N. Y.; Aurora, Ill.; Salt Lake City, Utah; Boston, Mass.; Newark, N. J.; Toledo, N. J.; Toledo, O.; Denver, Colo.; Los Angeles, Cal. At several of the places named there were events, to accommodate both motorists and motorcyclers.

One Light Up In New Jersey

When vehicle light laws were first promulgated, at the beginning of the cycle fever years ago there was a comment—grumbling is nearly universal—over the fact that other states needed the lights as much as the bicycles. When the automobile came, they adopted lights as a matter of course, and not until this year has a state regulation been passed which applies to horse drawn vehicles. New Jersey has shown the lead by a statute that is universal in its application. The driver of a motor vehicle of any kind, from a farmer's wagon up, is liable for non-compliance with the law. And as they attempt to enforce the laws in New Jersey, the example to other states will be most convincing sort of affair.

Motorcycles Save Dollars

There are some figures on motorcycle expense as to maintenance, repairs, etc., which are better than several columns of argument on the efficiency and economy of the "little red devils." A Colorado telephone company has been using a machine for a year, and has recently come up with data on this subject, covering several months. The record for November and December, being the busy months in the year, will be very interesting. Accurate accounting was made not only for gas, oil and repairs, but even of the time spent in grooming the machine. On this basis the total expense for November was \$17. The number of bad days was 15, the trips made aggregated 417 miles. The livery expense saved was \$20. Owing to the high average speed maintained there was a saving of labor amounting to 38 hours, or to \$10.50. The net saving for the month was \$46. The mileage for December was 247, with a net saving for the month of \$24.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Ayer, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind and allays Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of

Charles H. Fletcher.

The Kind You Have Always Bought

In Use For Over 30 Years.

THE BENTON COMPANY, 77 BROADWAY STREET, NEW YORK CITY.

A Reasonable Bicycle Prophecy.

Helen Marcel, writing in the Pittsburgh Times says, in a timely article on the rejuvenation of cycling: "Men of wealth, if they are not too stout, or to stiff, are beginning to look to the bicycle to take them to and from their places of business, finding that it gives them much needed exercise, but the wheel is being used chiefly by young men and women under 20. They are being bought by some of the wealthiest people for the young members of their families, and the prospects are that another year will find them in still greater use for park and country riding and for getting about."

"But the pleasures of bicycling cannot be confined to any one stratum of society or age of riders. It has distinct advantages which never can be wrested from it, and it will not be long before men and women of all ages and whatever place in the social scale will use the wheel more for their personal convenience and pleasure, without regard to what other people may think on the subject."

Motorcycle Runs Away with Chief

The unhappy motorcycle experience of Tuxedo Park's chief of police recently, was responsible for many broad grins by members of the aristocratic summer residents of the park. The chief, with an eye to curbing the speeding proclivities of the automobile set, purchased a motorcycle that was guaranteed to run like the dickens. And it did, too, the first time the chief took the road. Accidentally pressing the wrong gadget or something, the thing bounded away like a stung deer. Not seeing anything cheap to hit, the chief accompanied the motorcycle out of town at a mad gallop, traveling much farther than the eye can reach at a rate that simply tore the lining out of the speed law. When the thing had finally been stopped, and the chief came back, he was promptly arrested by one of his own men and haled before Judge Pierre Lorillard. After a most searching examination the chief was discharged with a sharp admonition.

Reviving the City Bicycle Paths.

Recently an agitation has been commenced to secure the renewal of the bicycle paths all over the city, and motorists are taking up the path subject in earnest, says the Minneapolis Tribune. It is hoped to have all the paths in proper shape again this year, and, if this is done, then cycling and especially motor-cycling is to become again a popular pastime in Minneapolis. Many women are taking to cycling again this year, and it is said that within a month the streets will again be given over largely to the fair cyclists. The effete East has adopted the wheel again, and that seems all that was necessary to make the sport again popular. Women's motor-

cycles are to make their appearance before the season is much older and then let the unwary pedestrian beware when "millyady" begins learning how to manipulate the new machines.

Spring Bicycle Trade.

An evidence of the re-awakening of the bicycling fever, a local dealer proudly exhibits the record of the sale of over 100 machines of one make and upwards of 150 bicycles of other models, says the Council Bluffs, Ia., Nonpariel. Nothing particularly new or novel is shown in the line of bicycles on the market this year. The old time craze for light wheels with enormous gears has not been revived and the manufacturers are now turning out a serviceable style of machine which is built for all-around use and differs from the racers only in the size and weight of the tires. Twenty-two or 23 pound is the usual weight of the 1908 models of bicycles and they are declared to be of greater life and service than the flimsy little 18 and 19 pound wheels which were eagerly sought by the riders a few years ago. Prices in bicycles have shown little change in the last three years. The average price is \$45 for a first-class machine, but hundreds of first-class, guaranteed machines of the most approved models are being sold for \$40.

Are Cycling the Whole Country Over.

The president of one of the best known cycle factories of the east has been looking over his New York state agencies and is authority for the statement that his business has increased 50 per cent over last year. It would seem that this sort of thing is just as true of the west, north and south as it is of the east, as a phenomenal increase in bicycle sales is reported from every section. It is thought that the return in wheeling interest, which was begun a season or two back, was greatly assisted by the hard times. Thousands and thousands of old time riders suddenly awoke to the economy and healthy exercise that cycling offered.

No Need of Suffering from Rheumatism.

It is a mistake to allow anyone to suffer from rheumatism, as the pain can always be relieved, and in most cases a cure effected by applying Chamberlain's Liniment. The relief from pain which it affords is alone worth many times its cost. It makes sleep and rest possible. Even in cases of long standing this liniment should be used on account of the relief which it affords. Do not be discouraged until you have given it a trial. For sale by Dr. Stone's drug store.

Hurrah for better roads.

It's money well spent.

Thinks It Saved His Life.

Lester M. Nelson, of Naples, Maine, says in a recent letter: "I have used Dr. King's New Discovery many years, for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung complaints, and would not be without a bottle than I would be without food." For nearly 40 years New Discovery has stood at the head of throat and lung remedies. As a preventive of pneumonia, and healer of weak lungs it has no equal. Sold under guarantee at J. C. Perry's drug store, 50c and \$1.00. Trial bottle free.

Here's to the old soldiers,

may their last years be good ones.

Born in Iowa.

Our family were all born and raised in Iowa, and have used Chamberlain's Colic, Cholera and Diarrhoea Remedy (made at Des Moines) for years. We know how good it is from long experience in the use of it. In fact, when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proven very successful and is constantly growing in favor.—Ennis Bros. This remedy is for sale by Dr. Stone's drug store.

The ideal day for haymaking is

dry, cloudy and windy; but human ability to make such a day is wanting unfortunately.

TEA

The way to buy tea is in packages; somebody is responsible for it.
