

PANAMA REVOLT GROWS

EXPECT OUTBREAK

TROUBLE IS BREWING AMONG LABORERS OVER PAYROLLS—BUSINESS MEN APPEAL TO U. S. TO TAKE CHARGE.

(United Press Leased Wire.)
Washington, June 5. The seriousness of the political situation in the Republic of Panama was greatly increased today according to reports received here, which say that trouble among the 45,000 men employed on the canal zone will be inevitable.

Soldiers of fortune who have been collecting about the isthmus for last six months have aroused dissension among the men and there is serious difficulty over the payrolls.

Most of the men at work on the canal are foreigners and the adventurers have found little difficulty in instigating trouble among the ignorant.

It is feared that there may be an outbreak among the workmen. This, combined with the threats of revolution in the republic and the practical certainty that there will be trouble over the election late this month, has led the officials to take even more careful consideration of the necessities of the situation.

Appeals from business men of Panama for the United States to step in and take control of the country until peace can be restored continue to reach Washington.

BANKS OWES \$40,000

(United Press Leased Wire.)
Los Angeles, Cal., June 5.—Evan Lewis, who was yesterday placed in temporary charge of the affairs of the Consolidated Bank, after an examination of the books of the institution by State Bank Commissioners Vawter and Sherer, announced today that the concern had on hand about \$800 in cash. The bank owes depositors about \$40,000.

Until the commissioners have overhauled the notes and other assets of the bank, there can be no estimate of the probable salvage from the wreck of the depositors. The concern had some money on deposit in other institutions, against which there may be outstanding checks. Investigation has shown that in most cases deposits are small, few exceeding \$100.

No word has been received today from W. H. Carlson, who was practically the entire board of directors of the closed bank, and his whereabouts remains a mystery. It is supposed that he has gone to San Francisco, but efforts to locate him in the city have been fruitless. The theory that Carlson has left the country is scouted by his friends here, who give it as their opinion that the banker is merely in temporary seclusion and expect that he will soon return and endeavor to adjust his financial affairs.

Later Bulletin.
The mystery concerning the present whereabouts of President W. H. Carlson of the bank was dispelled in a statement made by the banker's wife, who claims to have received a telegram from her husband, stating that he is now on his way to Los Angeles from New York, where he went to raise money on some property, and he should reach Chicago tonight.

"I have every confidence in my husband's business integrity," said Mrs. Carlson today, "and I am certain that when he returns home he will be able to adjust the affairs of the bank successfully and that depositors will receive every cent of their money."

Georgia Elects Governor.
(United Press Leased Wire.)
Atlanta, Ga., June 5.—Later returns today from the Democratic primaries confirm the nomination of Joseph M. Brown for governor, which means that he will be the next governor. Governor Hoke Smith is believed to have been beaten by 18,000. There was no opposition to A. S. Clay for U. S. senator.

HEORIC WORK OF MERE LAD

(United Press Leased Wire.)
Los Angeles, Cal., June 5.—In a desperate race with death Harry Burke, a messenger boy, after knocking a bottle of carbolic acid from the lips of Fred Perkins in a Spring street rooming house threw the writhing body of the despondent man across the handle bars of his bicycle and dashed with all speed to the receiving hospital. Despite the boy's heroic efforts Perkins died in half an hour later.

Perkins, who until recently had been employed as a messenger, drank the poison shortly after midnight this morning, following a quarrel with his wife. Before doing so, he telephoned to the messenger office, bidding his friends good bye, saying he was going to commit suicide. Burke mounted his wheel and dashed for the rooming house. Perkins had swallowed some of the poison before Burke knocked the bottle from his hand.

After a mad dash for the police hospital in which his bicycle narrowly escaped a collision with an automobile, the plucky boy shouldered Perkins and carried him into the hospital where he sank to the floor from exhaustion.

GREGORI

(Continued from Page 1.)
tored, found guilty of forgery, killed himself.

In November 1903, Dreyfus applied to the supreme court of France to reopen his case and a third trial was held in the summer of 1906, when a decision was handed down declaring the captain innocent, reinstating him to the rank of major and recommending that he be decorated with the cross of the Legion of Honor which was afterwards done.

Major Dreyfus has refused to prosecute his traducers.

A report was circulated today that Gregori would make a determined effort to have the Dreyfus case reopened when he is tried for the shooting. It is thought that that was the intent of his remarks when he said that he was not shooting at Dreyfus but at Dreyfusism.

His attorneys are said to be gathering evidence against Dreyfus and making themselves familiar with the proceedings of the three former trials.

As the re-opening of the Dreyfus case would disturb the peace of France, it will be strenuously opposed. It is said that Gregori can be prevented from going into any of the particulars of the famous case because it would be extraneous to the trial of his own case on the charge of shooting the major.

The Nationalists papers in their evening editions today are rabid in their denunciation of Dreyfus. One of them urges in a fierce invective that he be shot and quotes testimony against him at the Rennes court-martial.

The Republican papers are unanimous in deploring the shooting as an unfortunate sequel to an affair that disgraced France in the eyes of the world and disrupted the whole nation. They urged calmness and deplore any revival of the Dreyfus and anti-Dreyfus feud.

SIGNORINETTA WINS AGAIN

(United Press Leased Wire.)
London, June 5.—Signorinetta, the Italian filly, which suddenly sprang into fame by winning the English derby at 100 to 1, today added another notable victory to her record by capturing the Oak stakes by three-fourths of a length. King Edward congratulated the owner on the remarkable showing made by his colt.

Richard Croker's entry, Rhodora, had the race already won and was leading the field several lengths in the stretch when she stumbled and fell. The other 11 horses swerved to one side and avoided a muss.

Courtesy was second and Santove third.

After 22 years of courtship John Horn, wealthy Dawsonite, will be joined by his bride, whom he left in England, in Alaska.

Governor Johnson, of Minnesota, does not believe any Democratic candidate has the nomination nailed down.

IDAHO

(Continued From Page 1.)

caused by melting snow in the Buffalo Hump country. Stites is the terminus of the Clearwater branch of the Northern Pacific.

Ever since early yesterday morning the people of Stites have been fleeing from their homes to the neighboring towns. The railroad bridge across the Clearwater near Stites has been washed out and many of the smaller bridges are wrecked.

Log booms all along the two rivers have gone out, thousands of dollars worth of timber is lost and several large sawmills have been wrecked by the storm.

The Northern Pacific track between Stites and Kooskaik is under water and at Oro Fino the river is still rising a foot an hour and most of the business district of the town is under water.

Grangeville was in darkness last night, the power dam located on the south fork of the Clearwater having been washed away.

White Bird, on the Salmon river, has three feet of water in its streets and the electric light plant and planing mill have been washed away.

BRYAN MAY BE ASSURED OF A VOTE

(United Press Leased Wire.)

Denver, Colo., June 5.—It is not improbable that Mrs. Ruth Bryan Leavitt, daughter of William Jennings Bryan, will have the honor and supreme satisfaction of casting a vote for her father in the Democratic national convention at Denver.

She will head the delegation from Denver county in the state convention and toay prominent Democrats who will wield much influence in the state convention are discussing her chances for election as a delegate to the national convention.

ARE STILL AFTER THE \$37,572.97

San Francisco, June 5.—No testimony was taken today by the finance committee of the board of supervisors in the attempt to place the responsibility for the lost \$37,572.79 check that was paid into the treasury in 1903 and its disappearance having been discovered two weeks ago.

The whole matter is so involved that the committee will put the case in the hands of City Attorney Long for action, when the supervisors meet next Monday.

The plan is to make the bondsmen of all the city officials who handled the check, defendants in a suit to recover the money.

TWINS BAFFLE POLICE

(United Press Leased Wire.)

San Francisco, June 5.—Because of the striking likeness between Thomas O. and James Young, twin brothers, one of whom shot down and killed Policeman William H. Heins on the Barbary coast Thursday morning, the murderer may escape punishment. The police charged both men with the crime today and they are being closely guarded in separate cells.

Each brother accuses the other of the murder. They were confronted with each other in the office of Captain of Detectives Kelley and James cried, "That is my twin brother. I saw him shoot the policeman."

"You lie," shouted Thomas, "you shot the policeman and I gave you my revolver to do it with."
One of the men gave the other the revolver with which the shot was fired, according to witnesses of the murder. The man who did the killing lay on the sidewalk pretending to be hurt and when Heins leaned over him, he shot.

Which man is guilty, it will be hard to tell, as the features of the two brothers are so much alike that it is impossible to tell which, even when they are together.

NO RAISE IN RATES OF FREIGHT

(United Press Leased Wire.)

Chicago, June 5.—The movement inaugurated by the western railroads some time ago to increase the freight rates 10 per cent in western territory has practically been abandoned by the roads in the western classification and the transcontinental lines have agreed to a much smaller increase in rates than they at first demanded.

Water competition from New York to San Francisco, which has grown very keen of late, is said to be the main cause of the failure to continue the original program of the increase.

PEPPER AND TOMATOES

BREAK UP EXERCISES

(United Press Leased Wire.)

San Rafael, Cal., June 5.—Ripe tomatoes and red pepper can be used with great success in breaking up graduating exercises as demonstrated in the high school here when a chorus of sneezes and coughs greeted Prof. E. Percival Lewis, of the University of California, the principal speaker.

Before the exercises were opened Thursday night some mischievous person very carefully sprinkled red pepper in large quantities around the room and stood in the rear armed with overripe tomatoes. Everything went well until the scuffling of feet began to stir up the pepper. Presently Prof. Lewis mounted the platform. When he heard the sneezing and coughing he felt injured, but after he had scraped his feet in embarrassment for a few seconds, the pepper began to rise and he joined the sneezing chorus.

T. S. Malone then presented the diplomas after experiencing a pretty hard time of it. That ended the exercises, for tomatoes began to fly thick and fast and everybody left, dodging red vegetables.

Pioneers Return Home.

(United Press Leased Wire.)
McMinnville, Or., June 5.—Two thousand pioneers returned to their homes today after attending the reunion of the Yamhill County Pioneers' association here.

Salmon Season Opens.

(United Press Leased Wire.)
Bellingham, Wash., June 5.—The salmon canning season was opened yesterday by the Pacific American Fisheries in South Bellingham. Not many fish were canned but the few which were brought in from the salmon banks were canned.

It is now legal for a girl to buy cigarettes in England and smoke them, but a boy is not allowed this privilege, according to a law which goes into effect next week.

HOUSE FURNISHERS

RYAN WAS BILLED FOR \$7,000,000

(United Press Leased Wire.)

New York, June 5.—The testimony of Jacob H. Schiff, head of the banking firm of Kuhn, Loeb and company, to the effect that he made Thomas Fortune Ryan disgorge over \$7,000,000 when the Metropolitan Securities was formed, is the sole topic of conversation in Wall street today. Schiff's statement has created a greater sensation than any other revelation that has been made for years.

He stated that his firm had undertaken a joint ownership with Ryan of the watered stock and that he had forced Ryan to buy him out so that his firm's friends might be protected.

NO MODERN LANGUAGES FOR STOCKTON SCHOOLS

(United Press Leased Wire.)
Stockton, Cal., June 5.—After weeks of investigation, the city board of education decided today to eliminate the study of modern languages from the schools here. Greek is also included in the languages under the ban, the board taking the position that they take too much time that might be spent on other studies.

The action of the school board is scored in some quarters as a radical retrogression. It has provoked a lively discussion.
