INSANE MAN

(Continued from Page 1.)

his seat, rushed to the front and began to fire at pedestrians. He re-loaded his revolver rapidly and opened fire at the passers by. Mrs. Pospiech and her three children tried in vain to induce him to return but he held ground until the police became impatient for him. Then he ran for the floor of his home, injected a line into his arm to steady his nerves and blew out his brains. He fell from the window and was lifeless when picked up. It is supposed that the man was temporarily insane.

AVENGES

(Continued From Page 1.)

old, arose in police court when he was presented on the charge of having killed Dr. Martin W. Auspitz. He claimed, "I did not murder Dr. Auspitz. He brought his death upon himself. He was responsible for his own death. He wronged me and I killed him. My mother and father are dead. I have no brother, no protector. It is left for me to avenge my honor on my own hand. First I tried to get my revenge in the courts but there was nothing to be done there. Then I shot to kill. I could do no more." A young woman called at the apartment of Dr. Auspitz last night and rang the bell. When the doctor opened the door, she fired and killed him. The prisoner apparently is convinced that it was her duty to shoot the man.

MAN GIRL WILL BE MORMAN MISSIONARY

(United Press Leased Wire.)

San Francisco, June 8.—Great interest is being taken today in Alice Alapata, a full blooded Samoan girl aged not over 19, who was brought to this country on the freight steamer Aeone from Samoa by three Mormon missionaries, who declare that she will learn the secrets of the Mormon church in Utah and then return to her people and convert them to the faith of the Later Day Saints. The men claim to have a contract with Dr. Schultz, German vice governor of the islands by which they are to return the girl to her country after she has finished her study in Utah. Thomas S. Cort leads the party and with him are Dr. Dimond and Wilfred Porter. They have directed the girl not to talk and she is being closely watched by her guardians so that she cannot make a statement.

Prejudice Against Glasses

ANY PERSONS are prejudiced against the wearing of glasses. They positively decline to use them, even when they are imperatively needed. They may be sensible persons and display good judgment in other matters, but in this one respect they act most foolishly and without any reason. Contest with nature is hopeless, and it is the part of wisdom to yield gracefully to the first summons to surrender.

GARFIELD WILL RUSH RECLAMATION PROJECT

Secretary of Interior Pleased With Work In Oregon--Goes to Honolulu To Settle Chinese-Japanese Territorial Disputes

(United Press Leased Wire.)

San Francisco, June 8.—That work on the Umatilla reclamation project in Oregon is progressing satisfactorily and will be rushed to completion as soon as possible is the statement made to the United Press by Secretary of the Interior James R. Garfield, before he sailed this morning on the battleship Maine for Honolulu. After a tour of inspection in the Hawaiian island, Secretary Garfield will visit Oregon to note the progress of the work and make recommendations as to what shall be done there.

Although he would make no positive statement today, it is understood that Garfield will investigate the disputes that have arisen in the islands regarding the taking of territorial lands by the Chinese and Japanese. The United States has no public lands in the Hawaiian islands but Garfield will look into the matter so

as to make a report to the state department when he returns to Washington.

The government of all the territories, except the Philippine islands, is under the supervision of the secretary of the interior, and Garfield's trip to Hawaii is of a general nature, he said. Forests and the labor question will receive a large share of his attention.

In speaking of the labor question today, the secretary was reticent. He would make no statement as to his intentions but it is understood that he will look closely into the competition between the white and yellow races.

Governor Freer has arranged the itinerary of the trip in the islands which will take two weeks. After his return to this country the secretary will make a tour of Oregon, Washington, Wyoming and several other states in which the government has reclamation projects on hand.

Cort says that the girl will remain in Utah six years and that his contract with the Samoan authorities require that she shall not marry while she is in this country.

ANTI-PROHIBITION PLAN

A NEW MOVEMENT.

(United Press Leased Wire.)

Milwaukee, Wis., June 8.—In an effort to stem the tide of temperance which has swept over the South and is rapidly spreading to all portions of the United States, the United States Brewers Association, which began its annual convention here today, will make an effort to formulate a plan that will drive the dives and grogeries from the business.

Delegates to the convention declared today that such a step is absolutely necessary to prevent the whole of the United States from "going dry."

Alice Hunt Dead.

(United Press Leased Wire.)

Los Angeles, Cal., June 8.—Alice Treat Hunt, an actress, well known on the Pacific coast and in many eastern cities, died here this morning after an illness of several days of pneumonia.

AUCTION SALE

June 20, 1908, West Woodburn, Or.

This townsite is situated on the new electric railway between Portland and Salem, 33 miles from Portland, 17 miles from the Capital; is located in the center of the famous Willamette Valley, with the great Mission Bottom on the west and the renowned French Prairie on the east. The branch line of the Oregon Electric Railway now under construction passes through this property towards Silverton, Wilhoite Springs, Scott's Mill, Coal Fields and taps the great timber belt of the Cascade range.

This is an ideal spot for a flourishing town, in the center of a highly cultivated and most productive locality. We do not hesitate in locating this townsite at this point, for with the present surroundings the prospects are far greater than at any other point on the line.

If you live in the city, come out on June 20th, flap your wings like little butterflies, breathe the life-giving air and become intoxicated with delight at being alive and out in the world. Lunch on grounds.
