## MURDERER

(Continued From Page 1.)

the news that Federal Judge Kennesaw M. Landis had granted the prisoner a reprieve. Instead of reading the prisoner the death warrant that he had ready in his hand, the jailor told Biliek the news.

The condemned man had nerved himself to listen to the words that would send him out of the world and when he heard the message that another lease of life had been granted him, he almost collapsed.

Judge Landis granted the reprieve in order to allow the attorneys for the condemned man time to perfect an appeal to the supreme court of the United States. The court directed the sheriff not to fulfill the order for execution until the highest court in the land had had time to act. He stated in granting it that he considered that the fourteenth amendment to the constitution of the United States had been violated and he was of the opinion that the United States Supreme Court should pass on the question.

Governor Densen and the pardon board had refused to act this morning.

There was a tremendous demonstration outside the county jail when it was learned by the immense throng that had collected there, that the condemned man had been granted another lease of life. There were fully 5000 people congregated about the jail, blocking traffic on all the streets about 5 when someone confirmed an announcement from the jail that Biliek had been reprieved, the crowd went crazy. Women wept and several fainted. The men threw their hats in the air and shouted. It required a hundred policemen to disperse the crowd.

Judge Landis, in executing his order, stated today that the constitution provides that so long as there is doubt about a prisoner's guilt, he has the right to appear before the highest court in the land.

## JAPAN IS INDIGNANT OVER EXCLUSION PLANK

(United Press Leased Wire.)

Tokio, June 12.—The Japanese press today is unanimously indignant over the reported draft of the platform that will be submitted to the Republican convention at Chicago next week. According to advices received here the platform which is supposed to have been written at the White House in Washington, contains a plank declaring in favor of the exclusion of Japanese laborers from the United States.

The papers of Japan are unable to understand the plank as it had been the impression here that both Roosevelt and Taft were friendly to Japanese interests and were against the exclusion which was demanded by the Pacific coast.

Some of the papers recall Roosevelt's messages to the legislature of California when that body was about to enact laws prohibiting Japanese from attending the same school as white children or owning land in that state. Their papers recall the speeches of Secretary Taft when he was in Japan a short time ago on his trip around the world.

## RICH CARGO IS CARRIED BY STEAMER

(United Press Leased Wire.)

White Horse, Y. T., June 12.—The steamer Prospector, having \$2,000,000 in gold abroad, arrived today after the longest voyage she has made on the river. She had a very difficult time in ascending both the Thirty Mile and Fifty Mile rivers, and washing upon sand bars for several days. The Prospector had 12 passengers, among them being Judge Reid, of Fairbanks.

The first White Pass steamers are scheduled to sail Sunday, but it is not likely they will be able to navigate at that time for the Fifty Mile river lacks a foot of being navigable for the big steamers.

In the meantime, hundreds of the men bound for Dawson and the interior, have gone down the river in small boats and barges and the boat builders are reaping a harvest.

## CALMLY AWAITS DEATH

(United Press Leased Wire.)

Passic, N. J., June 12.—Having received a message from God, so she says, telling her that death awaits her next Sunday, Mrs. Anna Kiscecia, a widow, 27 years of age, is today calmly and cheerfully preparing for the end of her life.

The woman will buy her own coffin, a shroud, select a cemetery lot and consult the minister who will preach her funeral sermon. She is enjoying the best of health, and is making the necessary arrangements with a cheerfulness that surprises her friends.

"I shall leave all the doors of my home open so that my friends can enter after my death," she said smilingly. "I welcome the end. It cannot come too soon."

Mrs. Kiscecia has been studying religion since her husband's death, several years ago.

## WOMEN'S CLUBS TOO NUMEROUS

(United Press Leased Wire.)

Chicago, June 12.—Women of the United States are being slowly "chibbed" to death, not by the ordinary club, but by women's clubs, according to the views of Mrs. LaFayette Young, a prominent society woman of Des Moines, Iowa, who is here with her husband, who is a delegate to the Republican national convention.

"Women's clubs are a distinct evil, in my opinion," she said. "They take up too much of a woman's time and are too numerous. I think we could get along without them very nicely though they do much good in certain directions."

## REGULATE BANKING MEASURE

(United Press Leased Wire.)

Washington, June 12.—Secretary of the Treasury Cortelyou today issued a circular to all national banks setting forth the regulations which must be following in forming national currency associations.

In part it says:

"National banks occupying contiguous territory may organize national currency associations. There must be at least ten banks in each association and the aggregate capital and surplus of the banks must be at least \$5,000,000.

"No bank may join an association unless it has unimpaired capital and a surplus of not less than 20 per cent."

The circular then explains at length the provisions of the currency act and concludes:

"The foregoing relates only to the formation of national currency associations. The method of securing additional circulation through such associations will be the subject of a later circular."

## PROPHECY BIG CROP FOR 1908

(United Press Leased Wire.)

Washington, June 12.—The crops of 1908 will be worth nearly \$8,000,000,000, according to figures prepared by the department of agriculture. It is expected there will be sufficient funds to move the crops from the farms to tide water.

In discussing the outlook today, Chief Statistician Clark, of the agricultural department, said:

"Indications at the present time are for greater crops. For eight years the American farmer has rejoiced unprecedented prosperity and now the ninth promising harvest is practically assured. Never in the history of the United States have there been nine such years—years of big yields and high prices."
