

Don't Heat the Kitchen

All the necessary family cooking may be done as well on a New Perfection Wick, Blue Flame Oil Cook-Stove as on the best coal or wood range.

By using the "New Perfection" Oil Stove, the annoyance of an overheated and stuffy kitchen is entirely avoided, even in midsummer. The construction of the

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is such that the heat is thrown directly upward against the kettle or pan upon the stove top, without affecting the atmosphere of the room to an appreciable degree.

You can at once see the advantage of this stove over a great range which throws heat in all directions—it is the ideal summer stove.

If your dealer does not have the "New Perfection" write our nearest agency.

The **Rayo Lamp** is substantially made of brass, finely nickelled and very handsome. Gives a powerful light and burns for hours with one filling. Portable, safe, convenient—just what every home needs. If not with your dealer, write our nearest agency.

BANK TALK No. 17 By the UNITED STATES NATIONAL BANK, Salem, Or.

The Road to Fortune

What is business? It is the conduct of your affairs and the disposition of your money in accordance with the best business methods no matter how trifling or how great may be the amount of money that comes to you. If you have but a single dollar, and take a business view of the use and disposal of that dollar, you have a glimpse of the road to fortune. Men of fixed wages and salaries often think that they are not in business and that business principles are not applicable to their case. They are in business as much as any one else, and, as much as any one else, they need the business assistance that comes from a bank account. This bank account welcomes the accounts of wage earners and salaried men, because a bank account is the surest step for them toward larger business and larger prosperity.

CITY COUNCIL LAST NIGHT

In contrast with the recent stormy sessions of the council, the meeting of the city fathers last night opened in a very peaceful manner and ran smoothly on to its close.

A special committee consisting of Councilman Stolz, Greenbaum and Elliott, was appointed to act with the mayor in getting the improvement of upper Court street under way. A motion by Stolz was carried that \$3000 now belonging to the street fund be applied to the upper State street improvement fund.

A resolution by Councilman Stolz was carried, instructing the mayor, the city attorney, and the ordinance committee to examine all present ordinances, as to their legality and sufficiency, and to submit such new legislation as they might deem necessary. This action was taken in view of the fact that the city laws are to be reprinted in the near future.

The committee on bridges reported that the North Front street bridge was in a dangerous condition, and had been closed on June 19. The report stated that the span over the creek was disabled, and that it could be repaired for \$400. A new bridge would cost \$1900. Eldridge moved that the bridge be torn down, Greenbaum objected to this method, declaring that the council should not take such drastic action without further investigation. Stolz favored the destruction of the bridge, saying that the North Commercial street bridge could take care of all the traffic in that vicinity. The matter was postponed until next Monday evening, when it will be taken up as a matter of special consideration.

The Fifteenth street bridge was also reported as being in very bad condition. The report of the committee was adopted and placed on file. Eldridge moved that a bridge carpenter be employed, with help not to exceed three men, to examine all the bridges, and to make repairs where necessary. Greenbaum amended the motion by limiting the work of the bridge carpenter to Fifteenth street bridge, but after some discussion the motion was lost, and the original motion of Eldridge carried. Councilman Eldridge also reported that the river bridge would be repaired by next Saturday.

A substitute for the gasoline bill, which has been under consideration for some time, was reported by the committee on fire and water, with the recommendation that the bill pass. The ordinance provides that gasoline, benzine, naphtha, etc., shall be kept in a separate, well ventilated building, at least 30 feet from any other building, or if it is kept in the main building, such as stores, machine shops, etc., it shall be buried under the ground at a depth of at least four feet, and that the pipe leading from the buried tank shall have a screw top, secured with lock and chain. Special permits may be granted to users of gasoline in private houses and automobile garages. Near the close of the session the bill was brought up for its third reading, and passed.

Chief Engineer Galvani of the Oregon Electric Railway Co. addressed the council, and submitted plans for the company's "Y" on Mill street. Three copies of the plans were examined by the councilmen, who seemed to be satisfied with them. The plans and location for the "Y" were approved by the council, and the city engineer was instructed to establish the grade for the laying of the track. Galvani thanked the councilmen for expediting the matter, and assured them that the work would begin immediately, and would be finished in a satisfactory manner. A motion by Councilman Low was carried, that a committee of three be appointed to secure an assistant for City Attorney Keyes in the injunction case of Buren & Hamilton against the city. Councilmen Low, Greenbaum and Stolz were appointed on the committee.

Upon a motion by Councilman Moore a committee consisting of Moore, Eldridge and Radcliff was appointed to look into the matter of securing a site for the contemplated Carnegie library.

P. H. D'Arcy addressed the council, and asked as to the possibility of lowering the sewer which drains the block on which he is to build his new brick building on Liberty street. He stated that all the basements in that section of the city were filled with water during the rainy season and that the present sewer could not carry off this water. A committee was appointed to investigate the matter.

Upon motion by Councilman Pressnal it was decided to advertise for bids for 125 cords of wood for the city hall, the bids to be opened in July, instead of later as heretofore.

Permission was given the Cherry Fair committee of the Board of Trade to erect booths along the streets of the city, also to erect a tent in Court street west of Commercial, in which to hold the fair.

A resolution which rather surprised the city fathers was read, to the effect that the committee on health and police be instructed to investigate the police department and to ascertain whether that department was performing its duties. The resolution was referred to the committee on health and police.

A bill for an ordinance appointing a pound master was read and referred to the committee on ordinances. The bill provided that the pound master should receive as payment one-half of the amount of the dog license and all fees for stock and dogs impounded by him.

An ordinance was passed providing for the construction of a wooden sidewalk in front of the property of John S. Pratt in Yew Park. The cost of the walk is estimated at \$47.40, and this amount will be assessed on the property.

The High street paving assessment

Making Good.

There is no way of making lasting friends like "Making Good"; and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A cool, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, making it so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit, but insist on your right to have what you can get for.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried, are over afterwords in favor. Easy to take as candy—one to three a dose. Much imitated but never equalled.

ordinance was passed unanimously. This provides for the paving of High street from the south side of Court street to the north side of State street. The estimated cost of the work is \$5305.27.

Councilman Low of the committee appointed to investigate and repair the Fair Grounds road, reported that the work was completed.

The bill for an ordinance regulating the placing of steps on telephone, telegraph, and electric light poles was carried to the third reading, and passed. The bill provides that these steps shall be at least eight feet from the ground.

The council adjourned to meet next Monday night.

TEA

Is there a better way to keep the family longer at table, to keep it together?

Your grocer returns your money if you don't like Schilling's Tea. We pay him.

New Notaries.

E. J. Bayley, John Day; A. D. Morse, Bandon; F. W. Waters, Salem; W. J. Woods, Huntington.

DeWitt's Little Early Risers, the famous little liver pills, are sold by all druggists.
