FRENCH TROOPS POISONED

Salgon Cochen, China, July 2.—Evidence which strengthens the theory that the 200 French soldiers, who were seized with nausea, were poisoned was gathered today, but the nature of it cannot be learned. The soldiers, who belong to the French colonial infantry, were in their barracks in Saigon Wednesday when they were taken violently ill. Only quick work on the part of physicians saved their lives. The soldiers themselves believe that an attempt at wholesale poisoning was made. So far as other details are concerned the affair is surrounded by an air of mystery.

VICTIM OF HUSBAND'S WRATH WILL DIE

(United Press Leased Wire.)
Spokane, Wash., July 2.—Small hope is being entertained today for the recovery of Mrs. Marie Warren, who was shot by her husband while she was dancing with the man whose attentions to her had caused Warren's jealousy. The band was playing "Honey Boy I Hate to See You Leaving" and scores of couples were whirling on the floor of the Natatorium Wednesday when Warren beckoned his wife, who was dancing with Dorsey Dance. As she approached Warren fired a shot that penetrated her neck. He then fired a bullet through his jaw and fell beside his wife. Mrs. Warren was so weak from loss of blood when she reached the hospital that it was feared she would not survive. Warren is a baggage man.

ANTICIPATE FOURTH: THREE BOYS HURT

(United Press Leased Wire.)
San Francisco, July 2.—Three San Francisco youths are in the hospital today as the result of anticipated joys of the Fourth of July. Henry Sinclair, Robel Sinclair and Robert Owens are victims of accidents which occurred yesterday. Young Owens was frightfully burned about the hips and legs by the explosion of gun caps he was carrying in his pocket. The Sinclair boys were badly burned by the premature discharge of a toy cannon they were loading. Henry, aged 13, will probably lose the sight of one eye.

GIVES LIFE TO SAVE YOUNG WOMAN

(United Press Leased Wire.)
San Diego, Cal., July 2.—To have jumped into the bay in an effort to save the two daughters of County Auditor Cherry when an automobile in which they were riding plunged off the ferry boat and to have been dashed against the hull of the boat and killed unnoticed by the large crowd on the boat, is thought to have been the fate of A. P. Stephens, a New York architect, whose body was washed ashore at Coronado beach today. Stephens had been missing since Friday night and the police were looking for him. The position of the body and a wound on the head strengthens the theory that the young architect lost his life trying to save the lives of others. Stephens was last seen alive on the boat.

Six importers of women for immoral purposes have been indicted in Chicago under bonds of \$25,000 each.

Francis D. Bailey, president of the Export Shipping company of New York, who was being extradited, escaped from the steamer in a small boat back to Honduras.

The Red Cross Pharmacy

WHY

Do you go around all day sweltering in the intense heat?

DO

You know the nice cooling effect of a dish of delicious ice cream.

YOU

Ought to figure on a little of the comforts of the season—and

DRINK?

Some of our soda water and try the best ice cream in the city.

All Goods at Wholesale Prices This Week

Chinese and Japanese Bazaar
326 North Commercial St. First Store North on the East Side. Salem, Oregon

LOWER EXPRESS RATES

(United Press Leased Wire.)
Chicago, July 2.—Financial circles here are interested today in a rumor that the United States Express company and the Wells Fargo Express company are shortly to lock horns in a conflict in the west that may produce a lowering of express rates all over the country west of the Missouri river. The Continental Express company, which has just been formed and received a contract covering the new Pacific coast lines of the St. Paul railroad, is thought to be but a subsidiary company of the United States Express company. The Wells Fargo people had a contract with the United States Express company that the latter was not to come west of the Missouri river and it is said here that the Wells Fargo officials have decided to

There Is a Lot of Unnecessary Eye Trouble

In this world. We allow ourselves to become nervous and fretful. Weeds of care overrun the garden of the heart when they should never be allowed to take root.

A GREAT DEAL OF THE PRESENT EYE TROUBLE

is caused by people selecting Glasses for themselves that are unsuited for their eyes.

WE SUPPLY THE BEST after thorough examinations and tests.

Barr's Jewelry Store
State and Liberty Streets.

declare war on the eastern company because of the violation of this agreement.

DENVER READY TO EXTEND GLAD HAND

Denver, Colo., July 2.—The ball has opened in Denver and the preliminaries for the Democratic national convention are well underway. On June 25th the members of the National committee will arrive and all the preparations preliminary to the convention will be speedily attended to.

Indications point to the greatest attendance that has ever been known at a Democratic convention. So general is the impression that the attendance will be a record-breaker that extensive preparations have been made for caring for the crowds in addition to what were planned at the beginning of the campaign of entertainment.

Exceptional interest is taken to provide against the impression gaining credence among the delegates or visitors that Denver or her citizens are looking for any advantages from the convention beyond what comes from being known as a great "convention city." No extortion will be permitted and hates in all hotels and restaurants will remain where they were before the convention crowd arrived. Every effort will be made to convince the visitors that Denver can care for the crowds in a satisfactory manner and provide entertainment for visitors that will please and not overtax them financially.

The new auditorium is already completed and the decorations are going up rapidly. There are 14,000 folding chairs, all presenting a view of the immense assembly hall that is equally satisfactory. The raised platform that is located in the center of the auditorium is the cynosure of all eyes within the building, none of the seats, even those in the galleries, being unsuited for hearing and seeing.

Democratic leaders have already arrived and have begun preparations for the convention. It is planned to carry on the work of the convention with all speed possible and there is no likelihood of the sessions extending beyond three days. The weather conditions will be superb, as is always the case during the first half of July, and the sessions of the convention will be conducted with comfort to all the delegates and visitors.

An effort will be made to persuade the leading delegations from distant states to remain over a few days after the work of the convention has been dispatched and take trips through various parts of the state. The places of interest in the state are so many and varied that special trains will be taken to view them. Mining, camps, cattle ranches, im-

mense irrigation projects, wide valleys devoted to fruit and horticulture and measures of coal more extensive than can be found elsewhere in the country are some of the sights that are to be seen. The demonstration of how a ten-acre tract of land, by intensive farming, can be made to yield more than a quarter section by ordinary methods is also an interesting sight peculiar to Colorado. If the convention enables the people of Denver and Colorado to place before the world the manifold attractions of the state to good advantage, the plans of those who secured the convention will be fulfilled.

THE FOURTH OF JULY: HOW MUCH THE COST

Chicago, July 2.—In spite of the uproar, deaths and accidents of previous Fourth's that urge a saner observance of the day—and its various sights—the approaching battle with cannon crackers, toy pistols and fire works promises the following results:

Deaths—	
From tetanus.....	51
From other causes.....	100
	151
Mangling—	
Loss of limbs.....	58
Loss of fingers.....	240
Other injuries.....	3560
Total casualties.....	4009

Last year the results, according to the American Medical association's statistics, were somewhat worse, with a total of killed and injured of 4413. Dust and dirt are declared to be equally responsible with gunpowder as a cause of lockjaw. "Formerly it was considered that the tetanus bacillus was contained in the percussion caps, blank cartridges, and other portions of fireworks that were forced under the skin in Fourth of July wounds," says an authority. "The majority of observers, however, have come to recognize the fact that it is not always the blank cartridge or percussion cap, but the dust and street dirt with which the hands are soiled that contain the tetanus bacillus or its spore. This dust is carried into the wound and is much more difficult to remove than a blank cartridge wad. Every Fourth of July injury should receive the same treatment as ESTAOINUSHRDLUMFMENT as crushing injuries from street car accidents where it is known that the wound is infected with street dirt."

Kemp's Balsam is a safe cough cure, for it contains nothing that can harm you. It is the best cough cure, but costs no more than any other kind. All druggists sell it.
