SOCIETY

had been wrecked by a storm which had weakened the foundation and the car went crashing to the ground without the slightest warning to the occupants. The injured are:

Miss Elizabeth Sherley, jaw bone broken and badly injured internally.

Mrs. Bonnie, badly bruised and rendered unconscious.

Carl Wiskman, leg broken and hurt internally.

Richard Menefes Bowles, badly bruised and hurt internally.

Samuel Balt, the chauffeur, badly bruised.

The party had been on a tour over the surrounding country during the evening and had started back to the city when the accident occurred.

The bridge is in an isolated section and there was no aid near. The cries of the injured were heard by no one and the members of the ill-fated party dragged themselves up the bank of the stream, out of danger from the water. Balt and Bowles were able to give the others some assistance but were so badly hurt themselves that they could do little.

They lay on the side of the stream beside the wrecked car, ministering to each other as well as possible, until this morning, when a farmer, starting on an early trip to town, discovered them and summoned aid. All the victims of the accident are members of prominent Louisville families.

Miss Sherley is a beautiful young woman who has been prominent during the last few seasons in New York and Newport, as well as here. She was engaged to Captain Shevlin of the Yale football team but after a romantic courtship the affair was broken off. Miss Sherley suffered great agony from the injury to her jaw bone during the hours through which she lay on the bank of the

stream practically without attention. Mrs. Bonnie is one of the most prominent members of the blue grass four hundred. The accident has caused a great sensation here.

Sherley Bonnie when seen at the hospital said the party had been to Mammoth cave and were traveling at extra speed because they were late. Miss Sherley first gained national fame as a beauty when she became the pet of the Vanderbilts at Newport two summers ago.

ELKS BEGIN DELIBERATIONS

(United Press Leased Wire.)

Dallas, Tex., July 13.—Nearly every delegate elected to the annual national convention of the B. P. O. Elks was present today when the sessions were formally opened. John K. Tener of Chatlerot, Pa., grand exalted ruler of the order, made the principal address today.

Today's program is preliminary to the real work of the convention which commences tomorrow with the opening of the business meeting at Fair Park auditorium. The entire day will not be devoted to the grind of business, however, for one rule of the order is that "all work and no play makes Bill a dull Elk." Therefore an elaborate Mexican dinner, which will be served to 40,000 persons, is being prepared and will be served promptly at the close of the business meeting.

Little advantage has been gained by either Washington or Baltimore, both of which cities are campaigning for the 1910 convention, next year's session being assured for Seattle.

PANAMA HAS QUIET ELECTION

(United Press Leased Wire.)

Panama, July 13.—The strong arm of Uncle Sam behind the dove that roosts on the "big stick" is apparent here today after having maintained peace at the election yesterday, which otherwise would have resulted in riot.

The election of General Jose Domingo Obaldia was more or less formal as his opponent, Richard Arias, had retired and there was no other candidates in the field. President Obaldia believes he will be able to maintain peace, but there is still danger.

MOYER TO ACCEPT PRESIDENCY

(United Press Leased Wire.)

Denver, Colo., July 13.—Charles H. Moyer today reiterated in positive terms his announcement that he will not allow his name to come before the convention of the Western Federation of Miners here this week for re-election to the presidency of the organization. Moyer's attitude is taken to indicate that the election of William D. Haywood, former secretary of the union.

It is believed, however, from indications now, that the convention this year will not be very largely attended. It is certain that it will not be as large nor so important as the convention last year, which broke every record established since the union was organized in 1893.

(United Press Leased Wire.)

English, coal passer of the West Virginia met the blue jacket after his cold swim in the bay and learned the story which was reported to the police. He did not know the sailor's name, however.
