message received here today. Hundreds were killed.

The bombardment was directed at the Umrath's quarter of Tabriz and the firing continued until that section was completely destroyed. The report says that the cossacks stationed machine guns in the streets and literally swept them with bullets. Bodies of the victims mark the courses of the deadly firing.

A horrible feature of the slaughter was that the offers of the practically helpless revolutionists to surrender, were entirely disregarded and the butchery was continued until every revolutionist who could be found was killed.

This marks the end of the terrible bread riots which followed the first massacres by the cossacks. Dispatches say that the revolutionists after becoming crazed with hunger and loss of relatives and friends, refused food from the soldiers and de-

clared they would fight until they died.

The shah recently dispatched a new detachment of troops from Teheran with orders to put down the uprising and it is supposed that the bombardment was started when they arrived and announced the instructions of the ruler.

The dispatches today indicate that the cossacks at length have practically exterminated the revolutionists and it is believed their cruelties cannot be extended further. The Umrath's quarter was the section in which the revolutionists finally made their headquarters after being driven from other sections.

## TWO MEN KILLED IN REVENGE

### BY IRATE ITALION

TRIES TO WIPE OUT ENTIRE RAILROAD CAMP—HAD BEEN RUN OUT BECAUSE OF BAD TEMPER.

(United Press Ass. Wire.)

Marysville, Cal., July 15.—Sheriff Chubbuck and three posse are today scouring the woods in every direction in an effort to locate Gus Adolph, an Italian, who last night murdered two men and tried to kill three others in a Western Pacific camp in the hills 25 miles east of Oroville. A hard fight is expected before the murderer is captured.

Adolph was run out of the Western Pacific camp last March by the other men in the camp who objected to him because he was quarrelsome. The Italian left vowing vengeance on the whole camp, and nothing more was seen of him until last night.

Adolph was familiar with the work of the camp and watched his opportunity to get some of the men while they were comparatively isolated from the rest of the men. He slipped upon a party of five men and surprised them.

The irate Italian had killed two of the men before they could defend themselves and turned on the rest of the party. The three, having no weapons, fled to the woods for their lives, spreading the alarm as they ran.

Adolph ran into the woods in another direction, followed by men from the camp. As soon as they saw that it would be impossible to overtake him on foot, they returned to the camp.

A messenger was sent to Oroville to report the murders to the sheriff and posse organized immediately to search for Adolph.

Adolph, undoubtedly came to the camp prepared for a desperate encounter and it is believed that he is

heavily armed and well supplied with ammunition. Workmen who have known him a long time say that he is a man of most desperate character and it is believed that he will fight as long as possible. Many even say that he will never be taken alive. It is supposed that he planned his flight before he made the attack on the camp and the pursuers have found difficulty in trailing him.

## MILLIONS LOST TO AMERICANS

(United Press Ass. Wire.) London, July 15.—Estimates made public today show that more than \$150,000,000 has been transferred from American and German manufacturers' purses to the pockets of Englishmen as a result of Great Britain's new patent law. Other trade valued at millions of dollars will be placed in the hands of Britons, Aug. 28, when a number of foreign patents are sure to be revoked.

Under the provisions of the new law all goods patented in Great Britain must be manufactured on British soil. The operation of the law has worked to the great industrial advantage of the United Kingdom.

Anyone applying to the controller on August 28 of this year may have revoked any patent granted by Great Britain to any foreign manufacturer more than four years ago.
