

To Cure Rheumatism

The excessive accumulation of uric acid must be eradicated from the system. Dr. Miles' Nervine used as directed for rheumatism, is alkaline in nature. It neutralizes this acid, and its soothing effect upon the irritated condition of the nerves relieves pain and induces sleep and rest.

"I was suddenly taken with a severe pain in my foot. My physician could not tell what was the trouble. In a few days I had the same trouble with the other foot. I was so crippled that I could scarcely walk and at times I had to crawl on my hands and knees from my bed down stairs. After having my shoes on for an hour or two I could manage to walk by suffering the pain. I suffered more or less all summer, and tried almost everything but got no relief. Then I began to have pains all through my system. My doctor told me I had an acute attack of inflammatory rheumatism. I was in the hospital for weeks, but was scarcely able to walk when I left it. I read about Dr. Miles' Nervine, bought a bottle and also wrote the Miles Medical Co. for advice. They advised me to add salicylate of soda to the Nervine, and I commenced to get better from the start and for the past six months have scarcely any pain, and am able to walk as well as ever."

Help for Those Who Have Stomach Trouble.

After doctoring for about 12 years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctor's fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—Samuel Boyer, Folsom, Iowa. This medicine is for sale by Dr. Stone's drug store. Samples free.

Future Dreadnoughts of Concrete.

An Italian correspondent of the London Times predicts that the use of concrete in boat building will largely take the place of iron and steel. He says: "Large boats of reinforced concrete have been built already in this country, and five of these, of 120 tons and more, were on commission for the Italian navy

"THE SCHOOL OF QUALITY"

Tenth and Morrison, Portland, Oregon A. P. Armstrong, LL.B., Principal
We occupy two floors 65 by 100 feet, have a \$20,000 equipment, employ a large faculty, give individual instruction, receive more calls for office help than we can meet. Our school admittedly leads all others in quality of instruction. It pays to attend such an institution.
Said a Business Man: "Keep hammering away everlastingly on thorough work. It will win out in the end." Said an Educator: "The quality of instruction given in your school makes it the standard of its kind in the Northwest."

The Want Advertisements are "Humanizing"

When more people come to use and answer classified advertisements, more people will know each other—

More People with Mutual Interests Will Meet—

more people will find channels and opportunities for reciprocal service.

Truly, the want ads. are "humanizing" people — shaming away the scorn of small things, the scorn of "bargaining," of exchanging useful but not used things for useful and usable ones.

The first of these boats, a 120-ton barge, was built in 1906 on the plans of Mr. Gabellini, an Italian who has given his whole attention to re-enforced concrete, and who for many years has been conducting experiments with this class of material. This boat, which was built with double bottom and of the cellular type, was submitted to severe tests in the Spezia arsenal, where a much larger boat built of iron and with an iron ram was directed against it without producing any considerable damage to it. After some time, and in consequence of the satisfactory results given by this first boat, four more of these barges were ordered on account of the Italian navy. It is his opinion that, owing to the unfavorable conditions of Italy as an iron-producing country, the problem of re-enforced concrete for ships will meet with a good deal of attention here, and that experiments and trials on a much larger and more important scale will shortly be conducted.
